Industrial Home Notes

(By an Inmate)

A BROKEN STAFF—The most interesting and pleasant event which has ever taken place at this institution since its inception, was the marriage of Miss Mary Emma, only daughter of the esteemed manager and matron, Mr. and Mrs. Harness, with Mr. John Frost of Owen Sound on Tuesday the 3rd. The ceremony was performed by the Rev. J. S. I. Wilson, pastor of Markdale Methodist church, at high noon in the manager's cosy parlor and in the presence of a limited number of relatives and most intimate friends of the contracting parties. The tall neat figure of the bride looked expressively charming, neatly and appropriately costumed in rich, pure white silk devoid of all superfluous ostentation, attended by her cousin, Miss Dunnington of Kilsyth, who also looked very attractive, plainly but neatly attired in spotless white, while the manly but somewhat timorous looking groom was attended by his brother, Mr. Arthur Frost a young and handsome specimen of Canada's rising generation. After the conclusion of the ceremony and the usual congratulations, the party adjourned to the dining room and partook of a sumptuous wedding dejeuner, renewed congratulations, made pretty little speeches and indulged in pleasant repartee Mrs. Frost accompanied by Miss Dunnington then went through the house, the former shaking hands and bidding adieu to the inmates, presenting each with a piece of her rich wedding cake, the latter young lady gave to each inmate a square chunk of luscious taffy. The happy couple left by the 7.33 a. m. train on Wednesday for Toronto from whence after a brief stay they proceeded on their way to Moose Jaw, their future home. The bride wore a very becoming travelling dress of ladies blue with hat and veil to match. They carry with them the best wishes of a large circle of friends. Among the well wishers of the bride are numbered the inmates of this institution whose highest esteem and profound respect has been commanded by her assiduous and unassuming attention to duty, her pleasant countenance and ever obliging disposition, as first (under the matron) or principal member of the Home staff, from the beginning, and we sincerely trust that her future may be a long life of continuous prosperity, made doubly so by unbroken felicity.

Miss Robinson now occupies first position, under the matron, on the staff, Miss Merriam takes Miss R's. place while Miss M's. position remains vacant, for the present at any rate.

The new house committee met in the manager's office on Wednesday last for their first quarterly transaction in connection with the home.

James Dunlop, the poor unfortunate inmate referred to in former items, passed quietly away about noon on Friday last. His death was a happy release for himself as well as for those who attended him for not only were his feet, but part of his body badly frozen before he came here and he presented a sorry spectacle and a most disagreeable task for the old soldier who attended him day and night and who is worthily deserving of some extra recompence for so arduous a task. By arrangement of friends, undertaker Chapman provided the burial requirement and on Saturday morning conveyed the remains to rocklyn and handed them over to friends for interment.

MAXWELL

Some one in our burg is very fond of taffy, as several of the sugar bushes have been visited. We would advise the parties to bring back kettles, and not be so mean. It is rumored that a man not far from our village caught two young men in the act of taffying off in his bush. They were let off by paying a dollar each.

A number of the many friends and neighbors gathered at the home of Mr. Wm. Hanley on the 8th line and held a surprise party for Mr. Keith Robertson prior to his departure for the west. The following address was read:

MR. KEITH ROBERTSON,—With great regret we learn of your departure from amongst us. We take great pleasure in presenting you with this shaving set, not for its intrinsic value but as a token of jolly good fellowship you have evinced at all our social gatherings, hoping when, as you use it while you are out on those western plains, your thoughts may be reverted back to dear old Osprey. Signed on behalf of friends and neighbors—Will Lawlor, Dan McDonald, Fergie Summers.

James Inkster, Will Moffat, Norman Holroyd and Keith Robertson left on Tuesday morning for the west.

We understand some more of our young men are going west a little later. We think there will also be a car load of our young ladies going west next spring.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptons," says J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlains Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by W. E. Richardson, H. L. Douglass.

Temperance Convention

The temperance convention held in the Methodist church Monday last was handicapped by bad weather, still the executive meeting in the afternoon was fairly well represented, when ways and means of enforcing the local option measure, which is about to come in force in Thornbury, Collingwood, Osprey and Artemesia, in this riding, were discussed. Among the resolutions adopted was one condemning the 60 per cent. clause of the new Liquor Bill, and this condemnation was forwarded by telegraph to I. B. Lucas. The following resolutions were also adopted:

"That the president of this executive be empowered, in the event of there not being satisfactory enforcement of local option in any municipality in this riding after the first of May next, to notify representatives of the executive in such municipality to ask their councils to appoint a special officer or officers to act in conjunction with the inspector."

"That the local vice presidents of each municipality be urged to thoroughly organize and appoint committees in the various districts in their municipalities whose duties shall be to obtain information of violation of the Liquor Act and assist the inspector or other officer in every legitimate way in enforcing the law."

The evening meeting was addressed by W. G. Pickell, Rev. J. S. I. Wilson, Rev. H. E. Kemp and Rev. Dr. Caldwell.

A Paper of Influence.

An Eminent King's Counsel Expresses his Opinion of Canada's National Newspaper.

In addressing the jury at Cobourg last week in the libel action of Coyle v. The Globe, Mr. W. R. Ridell, K.C., counsel for the plaintiff, gave utterance to the following sentences: There is a paper known as The Toronto Globe, a paper known to everybody in this country. It has an enormous circulation throughout the length and breadth of the civilized world. It has an enormous influence; it is a paper which at least one-half of the grown individuals in this country desire to see, and upon which a very large proportion pin their faith. So influential was it that some of the Reformers said, instead of "Give us this day our daily bread," "Give us this day our daily Globe."

PAGE FENCING

THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the **quality** of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength of steel in fence wire as there is in a knife blade or razor. The Page Co. use **a high carbon steel wire,** which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes.

Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that **others are imitating it.** That is a good recommend for it. Where we lead others follow.

All PAGE wire is **"COILED,"** not crimped.

THE LOCK IN PAGE "EMPIRE" FENCES.

Besides the extra strength and superior workmanship, PAGE FENCES are **dipped in a special white paint,** which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, **one-third less posts** are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES **one-half more fence strength,** greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really **ours cost you little, if any more.** 408
