MOSTLY ABOUT WEATHER

The weather is always a prolific topic of conversation when there is little else to talk about. We are all very fond of telling our neighbor that it is a beautiful day, or cold, or ,warm, or hot or wet, etc. However, these salutations have been limited in their latitude during the past month to the single phrase, "Its a nice day."

Among the thousands who use these inanities of conversation one occasionally finds a man who enters the realm of prophet and attempts to tell us what the weather is going to be, not what it is at the moment. And that man is always listened to with attention and his prophecies carefully weighed. We may point out and laugh at his inaccuracies and mistakes, but we go right on inwardly believing that he has a little more insight into the laws which regulate the weather than the ordinary run of mankind and we preserve his statements carefully throughout the year. And when he hits the nail on the head even once during the twelve months we devote half a column of space to a shouting aloud the fact and gape with the wonder of how he did it The eleven failures go "unheralded and unsung." We never notice them. Isn't it a funny characteristic in humanity ?

This county has a wather prophet of its own and several times it would appear as though the gentleman was in collusion with the weather-making authorities and had first-hand information as to what is coming to us, and again we are in doubt, but still he hits it just right a sufficient number of times to keep us on the qui vivi and ask for more. We all hope Mr. Bowes will favor us with another forecast for next year.

The forecast for October of this year as given out by him last January at long range was as follows : "Forepart quite mild. Very strong winds, heavy rains and frost and probably snow about the 17th."

What about that? The heavy winds were with us as they always are in October, but this district has not seen a quarter of an inch of rain fall during the whole month and the ground is as dry as a toper of the old school. Plowing is at a standstill.

But let us see what he has to say of November, and the hunters will all pick up their ears at this : "First two-thirds of the month quite mild. A heavy storm of wind, snow and heavy frost about the 22nd.

Fortunately he places the date of the storm two days atfer the hunting season is closed which will give the Nimrods ample time to get their game out before they are frozen in. That is a great consolation and satisfac tion We congratulate the gentleman on his foresight, but would like to ask him if the railways aided him in coming to this conclusiion.

ABOUT ADVERTISING

Mr. Murdock, manager of the Ford exhibit here on Monday, while speaking to The Advance on the question of advertising expressed his surprise at the far reaching advantages of newspaper publicity. He cited an instance when he said a copy of the Maford Mirror had been given him in Orillia containing an excellent write-up of the Ford exhibit, and what it meant. He also said that no business to-day could be made a success without advertising, and Henry Ford was showing the way to business men in this respect.

Of course our own ideas correspond with his.

METHODIST CHURCH FINANCES

During the last conference year for all purposes the sum of $2,202.20, made up according to the following summary :

Ford

Order Books for Present Model Ford Closed Cars Will Close November 1st

Ford Motor Company OF CANADA LIMITED
Automobile and Truck Manufacturers
WORKS AND OFFICE
Ford, Ontario.

October 12th, 1923.

TO ALL CANADIAN FORD DEALERS

When this organization decided, September 20th, to bring out the Four-door Sedan and redesigned Coupe models, we had on hand approximately 4600 present type bodies.

To ascertain how the buying public would react on Ford car prices heretofore unprecedented, we reduced each closed model $100. in price--the Coupe to $595., the Sedan to $685. both F.O.B. Ford, Ontario (Government Taxes extra).

The response has been such that we have on hand now only 696 of these models to dispose of. This demand is evidence that the public appreciates values, and we take this opportunity of thanking you, and through you, the public in appreciation of their action.

In view of our appreciation, and in order that you may play entirely fair with the Ford buying public, we think it advisable to inform you that at the present rate it is a matter of days before all these jobs will be completely disposed of to dealers. In any event, we will not be able to entertain orders from dealers on or after November 1st. On that date we will close our books. We reserve the right to do this earlier, if necessary.

If you have any orders you wish to deliver to the public after November 1st, it will be necessary for you to place them with us before November 1st.

All orders should, therefore, be taken by you with no obligation to deliver except as prior orders permit.

We must protect ourselves in the same way - we can deliver your orders placed with us only as prior orders permit and as long as the above number of cars last.

Yours very truly,
FORD MOTOR COMPANY OF CANADA, Limited,
H. Hutchens
Sales Manager.

H3F-L3

The information in this letter should be known to every prospective Ford buyer. It opens up an opportunity for the family without a closed car to get one at prices which will probably not be as low again.

This is an opportunity for the man with a large car to relieve the larger car and decrease its depreciation, especially during the coming winter months.

FOUR PEOPLE REAP BENEFIT

MR. AND MRS. DAVIS, SON AND DAUGHTER REJOICE IN DISCOVERY OF HERBAL MEDICINE

Mrs. W. H. Davis of 1 White Ave., Toronto, makes the following statement on behalf of her family of four, every one of whom is taking Dreco and improving in health

"My husband suffered for ten years from stomach and liver trouble. He was chronically constipated, causing the constant use of laxatives. His food would not digest properly, it would sour and gas would form in a hard lump in his stomach. He also had dizzy spells, and severe headaches troubled him. In bending over, pains would shoot across his back. Nearly evry joint in his body ached with rheumatic pains and it was impossible for him even to lace his shoes.

"We spent hundreds of dollars in search of a good remedy that would give good results. I then read of what Dreco was doing for so many people right in our own city and Mr. Davis and I decided to give it a trial. Truly, the results have been very pleasing.

"His appetite is good, the pains through his back and joints are much improved. He no longer has that tired, pale, haggard look and doesn't mind his work, as he feels much stronger and has more vitality.

"I was so pleased with his growing improvement that I decided that Dreco was just what the chidren and my own system needed. As a result, their appetites have greatly improved and they seem to get the proper nourishment from their food, causing very noticeable benefits in their general conditions.

"My system is in a better condition than it has been for many months. I can eat various foods now that I have been unable to eat for a long time, because of indigestion and gastric spells. I also suffered from sick headaches, nervousness and dizzy spells, which have many times kept me in bed for two or three days and made it impossible for me to do my housework. These troubles have been entirely relieved by Dreco.

"I am vry happy over the benefit my family has derived from Dreco, and gladly do we recommend it. Its merits are surprising."

Dreco is a reliable household remedy endorsed by thousands who have discovered its genuine merit. Compounded from the juices of medicinal herbs, roots, bark and leaves, it tones and regulates the whole system and quickly relieves indigestion, gastritis, sick headache, backache, pains in the limbs, constipation, biliousness and many other ailments. Build up your system with Dreco, the proven remedy that contains no mercury, potash or habit forming drugs.

Dreco is being specially introduced in Flesherton by C. N. Richardson and is sold by a good druggist everywhere.

Pheasant At His Window

Mr. Frank Duncan of town was awakened one night last week by something striking against the window. Thinking of burglars he flashed on the electricity and discovered a visitor calmly sitting on the window sill outside. It was a pheasant from Pheasant Island Eugenia. Evidently these birds go as crazy in the fall as their cousins, the ruffed grouse. No, Frank didn't try to capture the bird.

IN MEMORIAM

McMULLEN—In memory of our dear wife and mother, who died October 24, 1922.

We loved her, yes we loved her,
But Jesus loved her more;
And he has sweetly called her
To yonder shining shore.
—Father and daughter, Allie.

TWO SOCIAL EVENINGS

Mrs. H. Carrington and two children, Lillian and Wesley are leaving this Thursday to spend the winter with her daughter at Ingersoll. Last Friday evening the public school children of the senior room gathered and presented Miss Lillian with a party box, as a token of esteem The ladies of the Baptist church also gathered atfer prayer meeting on Wednesday at the home of Mrs. D. Dow and spent a social evening in honor of Mrs. Carringon.

THE COP GOT THE BOYS

Some Chesley high school boys were returning home to Elmwood by motor one afternoon recently and hit up such a clip that they left a little Ford driven by Prov. Constable Blood away in the rear. The Constable, who was driving from Wiarton kept his eye skinned while passing through Elmwood and located the bus that had out distanced him. As a result Harold Henderson was summoned to appear before County Magstrate McNab and assessed $10 and costs, a total of $16.90 for fast driving

ROCK MILLS SERVICES

Anniversary services will be held in Rock Mills Baptist church on Sunday, Nov. 4th. Rev. Mr. McDonald of Owen Sound will preach at 11 a. m. and 7 p.m. A good program will be given the following Tuesday evening, Nov. 6th, by Rev. Mr. Piercy, elocutionist of Collingwood, and others Admission : adults 35c., children 15c.
