The Royal Scarlet Chapter, of Artemesia district L. O. L., will open in Sargeant's Hall, Markdale, on the evening of Monday, May 14th. A good attendance is requested,

Thomas Lowe, the well known hotel keeper of Thornbury, is dead at the age of 62 years. He was a member of the Orange society, C.O.F., I O.F. and A. F. & A. M.

DUNDALK CREAMERY—Cream wagons will run as follows: 3rd and 4th Osprey and Centre Line, Wareham, May 17, T. Rinn hauler. Gravel road, north of Victoria and back line, May 16, W. Moore hauler.—Henry RIVE.

Fish stories are now in vogue. A trout was captured at Thornbury measuring 18 inches. Another was captured in Mulmur lake weighing 3 lbs. 4¾ ounces and measuring 22 inches in length. There are no romancers in Flesherton. We have not had anything special recorded here since the season opened.

ELLIS—MCNALLY—A pretty but quiet wedding took place at the residence of Mrs. M. McNally of Toronto on April 23rd, 1906, when her youngest daughter, Bell, was united in marriage to Mr Ellis of Toronto. The young couple have the best wishes of a large circle of friends.

Mr. J. R. Hogg, of Eugenia had an extremely narrow escape from death, by lightning one day last week. During the approach of the storm he went out to the field to bring in a horse. Just as he was about to catch the animal a bolt struck near him and brought him to his knees. The horse was also partially paralyzed for a time but both recovered. Mr. Hogg's muscles were very sore for some time after.

A car load of Portland cement unloaded a few days ago by Boyd, Hickling & Co. for the benefit of early buyers.

We notice by exchanges that Flesherton is down for a lacrosse club in the intermediate class with Owen Sound, Markdale, Dundalk, Shelburne and Orangeville. This must be a mistake. Flesherton will have no league club this year, for the reason that Durham is not to be included in this circuit. When we go into lacrosse here again Durham must be along for old friendship sake. Does the Chronicle appreciate the sacrifice we are making?

The fore part of last week, Mr. Flesher, late hotel keeper at Maxwell, received a telegram from Midland informing him of the death by drowning of his brother Edward. The tug, Clipper, on which he was engaged as engineer, foundered off the Bustard islands. Capt. Peter McIntosh and Robt. Johnson, fireman, also lost their lives, Albert Beattie, another member of the crew, escaped but nearly perished from exposure. The body of Edward Flesher was brought to Owen Sound and taken to his home at Cutter on the north shore.

At the regular meeting of Prince Arthur Lodge A.F & A.M. on Friday evening last officers were elected for the ensuing twelve months as follows: W.M., Bro. W. A. Armstrong; S. W., Bro. T. A. Blakely; J. W., Bro. C.N. Richardson; Chaplain, Bro. Rev. J. S. I. Wilson; Treas., Wor. Bro. A. S. Vandusen; Sec., Bro. Herb Smith; Tyler, Bro. Jas Sullivan; Auditors, Wor. Bros. M. K. Richardson and F. H. W. Hickling.

We are not sure that the following from an exchange applies to Flesherton as well but are inclined to think it does: There are several children within the school age, that are very irregular in their attendance at school. The School Act is very definite and clear on the matter and says that children within the years of eight to fourteen must attend the school regularly and punctually. No provision is made for children running errands, doing house work or attending to business affairs.

At the annual meeting of the auxilliary of the W.M.S. held last Thursday in the Methodist church the following officers were elected: Pres., Mrs. W. H. Thurston; 1st V. P., Mrs. Clinton; 2nd V.P., Mrs. F. Nicholson; Rec. Sec., Mrs. G. Mitchell, Cor. Sec., Mrs. W. A. Armstrong; Treas., Mrs. W.H Bunt; Pres. of Systematic Giving, Mrs. Rev. Caldwell; Leader of Mission Band, Mrs. Thurston. The society raised over fifty-five dollars with a membership of 24. They also sent a box of fruit to the Deaconess Home, Toronto, for the use of the poor in the city and a barrel of clothing to Mattawa.

While coupling cars in the station yard at Orangeville about 6.30 Saturday night Harry Johnston, a C.P.R. brakeman, was caught and badly crushed between two sections of a freight train. The engine stopped a trifle short, but as Johnston stepped between the cars it started again, the couplers catching him in the abdomen and small of the back. He was at once taken to the home of his grandparents, Mr. and Mrs. James Keyes, where he died at 5.15 next morning. An autopsy, held shortly after his death revealed the fact that his liver had been crushed almost in two and that other organs had received terrible injuries. Johnston was well known here, he having been assistant operator at this station for nearly two years. A year and a half ago he left operating and went to brakeing. He was twenty one years of age. Both his parents are dead, his father having been killed in an engine wreck when he was four years of age.

An esteemed Chicago correspondent charges the Advance with inconsistency in advocating the using of Niagara Falls waterpower for the good of industrial Canada and in the same issue advising the preservation of a beaver which wintered in the millpond here, as he says, for sentimental reason's. We confess our inability to see the inconsistency involved, or value of the argument advanced by our correspondent when he says "sell the skin and give the proceeds to the poor." The beaver in this country have about become extinct and government prohibits it's slaughter, meting out heavy punishment to any person found with a skin in his possession. This law was not passed for sentimental reasons, but as an act of political economy so that a valuable asset might be saved to the province. When beaver become sufficiently numerous license to trap will produce a good revenue to the people. The time has already come when Niagara could produce an immense revenue for the people of Ontario. The United States began this "sacrilege," as it is called, and Canada followed. Then so soon as two or three private companies got their "hooks" on all the power they wanted the sentimental cry was raised. No doubt the shareholders in these companies are now sentimentalists to a man. They see their cent per cent. dividends dwindling and the cry goes forth from these people, "save Niagara!"—(save it for us.) In rude but expressive language, "rats" on such sentimentalism! When the time comes we will also say, utilize the beaver skins. Any reader disagreeing with these sentiments will be allowed free access to our columns.

Stomach Troubles

Mrs. Sue. Martin, an old and highly respected resident of Faisonia, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For sale by W. E. Richardson and H. L. Douglass. Samples Free.

Clarksburg is now moving in the matter of securing a temperance hotel.

John Grey of Riverview captured an eagle in a trap last fall measuring 6 feet from tip to tip. It became a nuisance and he killed it recently.

John Robinson of Mono lost his barn by lightning Some of the stuff was saved, but the loss will total about $3000 exclusive of $800 insurance.

Seed Drill, Frost & Wood, 10 hoe, almost new, cheap and easy terms. Phaeton in good condition, $120.00 sell for $25.00, easy terms. R. J. Sproule.

"The difference," said Uncle Josh, "Between Elijah, the prophet of Israel, and "Elijah II" alias Dowie, of Zion City, is plain to a blind man. Elijah was fed by ravens, and Dowie was fed by a whole bunch of jays!"

The clause of the new liquor law fixing the continuance of local option at two years has been changed back to three years, but the three fifths majority clause stands. The latter is discouraging to temperance workers and doubtless intended to be a tidbit for the liquor interest. But temperance men should not complain, they are getting just what many of them say they voted for—Whitney's views on temperance.—Collingwood Bulletin.

Bob Kyle, who left Orangeville nine years ago for Klondike, arrived in town this week and met many of his old friends. Bob spent a few days with McBrien Bros, of Mono, and put in less than a day in town. After remaining in the Klondike six years Bob went to the other end of the world, British New Guinea, where he mined for three years. After spending a day or two with his sister. Mrs. Morrison, of Cotswold, Bob will start for Siberia and see what kind of a country that is for gold digging. Bob left San Francisco just a few day's before the earthquake occurred. While here he handed his father 25 $20 gold pieces for a present. We wish Bob all kinds of luck in Siberia.—Sun.

PAGE FENCING

THE BEST IS THE CHEAPEST

When you buy a knife for instance, you consider the **quality** of the steel in the blade. The biggest and heaviest knife is not necessarily the best. Now there is just as much difference in the quality and strength of steel in fence wire as there is in a knife blade or razor. The Page Co. use a **high carbon steel wire**, which though it costs you but little more, is fifty per cent. (50%) stronger than wire in other fences. The lightest PAGE fence is as strong as the heaviest of other makes.

Notice the lock in PAGE "EMPIRE" FENCE. You may have noticed also that **others are imitating it.** That is a good recommend for it. Where we lead others follow.

All PAGE wire is **"COILED,"** not crimped.

THE LOCK IN PAGE "EMPIRE" FENCES.

Besides the extra strength and superior workmanship, PAGE FENCES are **dipped in a special white paint,** which on top of the best of galvanizing, will lengthen the life of wire for years. And, also, this white coating makes wire much more sightly.

Owing to the great strength and elasticity of PAGE fencing, **one-third less posts** are required, thus reducing the cost of the fencing.

As you get in PAGE FENCES **one-half more fence strength,** greater protection against rust, better workmanship, better appearance, use less posts, can you afford to use other fences, even though you could buy them for one-half the price of the PAGE? But, really **ours cost you little, if any more.** 408

Get prices before placing your order for Fence Gates or Lawn Fence.
