FOURTH

of the series dealing with the establishment of the BANK OF MONTREAL at representative points in CANADA and elsewhere

IN TORONTO

A YEAR after being founded, the Bank of Montreal spread its Branches westward, in July of 1818 establishing Agencies at Kingston and York.

York, which afterwards became the city of Toronto, had then just had its first stage-coach communication established with Kingston and Montreal. It was merely a settlement in a clearing amid unbroken forests from which the Indians came to trade with farmers and other members of the little community. Today Toronto ranks among the largest cities on the continent.

Of the Bank's 567 Branches, 26 are in Toronto and 207 in the Province of Ontario, including Toronto.
