F. T. HILL & CO.

Special Inducements

FOR THE WOOL SEASON

WOOL! WOOL!

We are open to buy any quantity and we are prepared to pay the highest cash or trade prices.

In making this special announcement in regard to the wool season we wish to draw your attention to the fact that we have THE LARGEST STORE IN MARKDALE. We also carry a very large stock of General Merchandise. These two advantages, combined with the fact that we pay cash for all purchases, enables us to show you a very large assortment in all lines, with values not to be beaten anywhere. These are statements which we are prepared to stand behind. We cordially extend an invitation to you to come and look through our store. We are always pleased to show goods; no ne ed to buy. If you have not already been selling us your wool do so this season; we will not dissapoint you but make you money.

Many Special Lines In All Departments.

IN OUR MILLINERY DEPARTMENT

This is a department of our store that we excell in. Nothing too new for this department. Our styles speak for themselves. When we tell you our milliners are working nights to keep up with the demand we are telling you what is correct. No juggling of newspaper talk here; nothing but what will bear the closest nspection, hence the reason we say "F.T.Hill & Co. for Miliinery."

Football

The first football game of the season was played here Saturday evening between the Flesherton and Kimberley teams, resulting in a draw, neither side succeeding in scoring. The Flesherton boys wore their new sweater of black and and yellow.

ROCKVALE—FLESHERTON

On Monday evening the Rockvale team met our boys on the show gronnds here and won the match by a score of 1-0. The game was a good one, the Rockvale boys, especially, playing some excellent football. The Flesherton line up was weakened as was Rockvale strengthened by Mr. Marshall, who played with the latter team. Charlie Tryon did some fine work in goal. The line up was as follows:—

Rockvale		Flesherton
C. Hoy	goal	C. Tryon
Bud Pendleton	backs	W. Davis
W Kerton		F. Matheson
W. Hebdon	half backs	A. McLeod
A. English		G. Cairns
Wel. Graham		L. Rutledge
C. Armstrong	forwards	W. Livingstone
C Kerton		W. Loucks
E. Marshall		A. Collinson
C. Alton		P. Norris
J. McKee		D. Wilcox

Flesherton football team plays a Durham team to-day (Thursday) in Durham, an exhibition game.

Not if as Rich as Rockfeller.

If you had all the wealth of Rockefeller, the Standard Oil Magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for cholic and diarhoea, both for children and adults. It never fails and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by W. E. Richardson, and H. L. Douglass.

There are some very intelligent hens in Manitoba according to a letter we have received. The writer states that he had a hen with a sore foot and to afford relief he tied on a bread poultice. The foot improved rapidly until the hen pecked the bandaged off and she and her friends made a meal of the poultice. Next morning every hen on the farm was limping. —Miami (Man.) Herald.

Hanover had a $10,000 fire in their cement works last week. Pretty well covered by insurance.

John McColman of Collingwood was fined $20 and costs or 30 days at hard labor for spitting tobacco juice on ladies' dresses.

The law has been amended so that constables at the sessions and assizes wil in future be paid two dollars a day instead of one and a half dollars.

The officials of the Methodist church on the Holland Centre circuit have extended a unanimous invitation to Rev. H. Berry to remain as pastor for the third year.

It is a fact worthy of note that, while the hotel rates are going up in many of the license towns, the prices in the local option town of Owen Sound remain as low as they ever were, and the service is just as good, if not better.—Banner.

Rev. G. R. Turk, pastor of the Methodist church in Owen Sound, had presented his resignation to the officials in order to return to evangelistic work, but in response to a petition with over five hundred signatures has consented to remain the fourth year.

This season bids fair to beat anything yet accomplished in the manufacture of cement at our big mill. The output for April this year was 10,000 barrels ahead of April 1905, though in operation for the same number of days. The daily output is 1100 to 1200 barrels a day and Manager McGrane has hopes of even exceeding that.—Durham Review.

Mr. Harry Crowther has been commissioned by the C. P. R. to superintend the work of replacing the culverts on the line from Toronto Junction to Owen Sound, and with a company of workmen is now on the job. The old style culvert is giving place to the modern cement article.—Banner.

The man who went out to milk and sat down on a boulder in the middle of the pasture and waited for the cow to back up, was a brother to the man who kept a store and would not advertise because he reasoned that the purchasing public would back up to his place of business when it wanted something.

Two "precious stones, supposed to be diamonds" have been found in a blue clay formation at the stone quarry at St. Mary's. The men employed there are said to be on the look out for additional discoveries.

The Mt. Forest Rep. man lost his umbrella and advertised for it in his paper. It was promptly returned. Bet it was one of the 25c kind and not worth keeping.

The Sub-target Gun.

A very interesting and rather complicated piece of mechanism is the sub-target gun, one of which the Meaford Rifle Club has received from the Government. In its mechanism, compressed air, electricity and the magnet are employed, while its construction admits of the rifle being adjusted for firing from either the standing, lying or kneeling position. A miniature target attached at the end and just above the muzzle of the firing-piece, is drawn forward by a magnet at each shot and receives an indented registration indicating precisely the location of the bullet in the main target. The device was invented about three years ago and its probable cost would be about $300 or $400. It is especially advantageous to the rifleman in that it admits of indoor practice in either rainy or wintry seasons It also assists in enabling him to get the range more quickly and a consequently more accurate aim.—Meaford Express.

Everybody's Automobile.

Although the automobile has now reached the stage of being a practical and reliable vehicle it does not by any means displace the bicycle.

The bicycle light and convenient—can be ridden almost anywhere that you can walk—covers the distance quickly and can be set aside when not in use about as easily as your umbrella.

And tue price is within the reach of all. Soon pays for itself in the saving of time and carfares.

The Bicycle is Everybody's Automobile.
