Industrial Home Notes

(By an Inmate)

Still they come. John Miller of Euphrasia who spent one probationary year at this Home and was at his own request discharged about the 20th of April last, was also at his own request re-admitted on the 20th of May for another year. John has discovered that age and weak ankles are sad handicaps these hustling times, yet, he has expectations in view. We sincerely trust they may materialize, John, but——

Philip Walker of Blantyre was admitteed for three months as a pay inmate on the 1st. Philip is a young man in the prime of life, being only 47 years of age, but, sad to say, non compos menti, nevertheless so far, he has shown no traits of viciousness so often found in his unfortunate class of human beings. He is very quiet and tractable, requiring no further supervision than a watch on his movements as regards attempting to leave the institution. In this direction however, he has not yet shown any inclination. We understand that his people are fairly well circumstanced on a good farm near Blantyre and will pay for his keep here. It is to be hoped that the poor fellow's mental faculties will soon be sufficiently restored as to enable him to return to his home.

Miss Robinson of the staff was a few days ago taken suddenly ill and reccommended by Dr. Ego to return home for a month. Mr. Harness drove her home one evening last week. We trust Miss R. will be speedily restored to perfect health; she is popular here and is greatly missed. Her place on the staff is vacant at this time of writing.

Mr. James Hemphill of Toronto was a welcome caller on your scribe on Thursday last. Commissioner McArthur and Dr. Atchison of Priceville, accompanied by Messrs. John and George Warling of the Valley were also welcome callers. Your cor. is always glad to meet with old friends. The ever genial smile and friendly confab are still prominent characteristics of our worthy Commissioner and Ex-warden.

The bright warm sunny days of June are now upon us; should your scribe live to see Friday the 15th he will have attained the 66th anniversary of his birthday. Although the last 30 years of his life has been far from unenviable, being 30 years of trouble and affliction yet they are fraught with a multitude of blessings for which he has ample reasons to be overwhelmingly thankful and though he is unfortunately obliged to spend the rest of his days in a House of Refuge, yet though repugnant as it may be to his nature there is a cheering consolation in the thought that the only cause he can lay to his own charge for his present unfortunate condition, was his persistency in continuing in an employment fraught with that over hard work and exposure to which his constitution was utterly inadequate and his ardent desire to provide for old age being greater han his ability to do so, hence the cause of his shattered health and his utter failure, but he submissively bows to the inevitable.

Your correspondent has been advised by an old military comrade that I shall have no difficulty in procurring a pension which the British government is granting to former ten year men who served in the army but are now incapacitated from labor by old age or infirmity, by making application to the proper authorities and furnishing sufficient proof to establish their claims. I was very doubtful in my case, having purchased my discharge before my ten years had fully expired. This, however he assures me will be no bar to the claim, the money, £7 (thirty five dollars) being equivelant to my unserved time; he further informs me that men with years of less service than I are receiving a small pension under similar circumstances. Why should not I? Though doubtful, nevertheless I adhered to the old saw, never venture never win, and accordingly, last week I made application to the pension board, Royal Hospital, Chelsea, Eng., and await further developments of the application. Should I be successful, the pension though small will pay for my keep here and make me feel at least, somewhat less dependent, if unsuccessful, no harm will be done and I can never miss what I never owned and I can continue to live to the end as usual.

Our Divine Service room was crowded on Sunday last, several were seated in the corridor. The Ebenezer choir under the leadership of Mr. and Mrs. Erskine supplied the music, Mr. Harness conducted the service. Owing to the excessive pain of a very sore foot your scribe was absent.

Monster Excursion

An excurson will be run under the auspices of the Canadian Foresters to Toronto and Hamilton on June 22nd via C. P. R. to Toronto thence by steamer Turbina, the fastest boat on fresh water, to Hamilton. Fare $2.05; train leaves Flesherton at 10.15 a. m. Excursionists will have the privilege of seeing through all the big factories of Hamilton including Deering Harvesting Works. Everybody's going.

Vandeleur

The Womans' Institute meeting held at Mrs. Warling's was well attended. The old officers were re-elected for the coming year. After all the business had been attended to Mrs. Warling served a sumptuous repast, to which all did justice. The ladies are fond of the social cup of tea.

Mr. Geo. Wright was unfortunate in loosing a fine colt a few days ago.

Quite a number from here intend taking in the C. O. O. F. excursion to Niagara on Friday.

Those who attended the S. O. T. District meeting which was held at Mill Creek on Friday last were well repaid for going. The afternoon meeting was a business one. The Rev. A. P. Brace L. W. A., of Willowdale, was present as a representative from the Grand Division, and made things interesting. A very toothsome lunch was served by the Mill Creek people in their usual style, which needs no comment. The concert in the evening was extra good. Rev. A. P. Brace is a very interesting and entertaining speaker. Everybody was simply delighted with him. He has promised to come to Rocklyn sometime in the near future to give a lecture. We bespeak for him a full house. Beside the rev. gentleman, all the Division in the districts contributed toward the programme.

Unknown Friends

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. It is a good medicine to have in the home and is widely known for it cures diarrhoea and all forms of bowel trouble. For sale by W. E. Richardson and H. L. Douglass.

Mr. W. H. Guy is spending this week in Guelph.

It is regretted that a movement similar to the one at Owen Sound, was not commenced before voting on local option. No doubt the enthusiastic advocates who offered to put up money at that time to provide a house of accommodation would have been as good as their word, but now some look wise when asked about it and say it "won't pay". The result is that after making a vigorous and honest effort to interest temperance men in the movement the committee are discouraged and although willing to contribute and assist, will not do anything further until some tangible evidence of interest is shown.—Clarksburg Reflector.
