They Were Dizzy And Sorry For It

Ran Without Lights On The Highway And Crashed Into A Car

Mr. Frank Duncan of town had an experience Friday night with a couple of gents from Orangeville who were trying to navigate the highway in a car wthout lights and carrying a heavy "load." Frank was making for the garden party at Inistioge and just the other side of the Durham Road corners he noticed two head lamps without lights in front of him, and on his side of the road. He eased up his gas, when the car in darkness shot across the road, then turned and came back and rammed him on the side, doubling up his fender and shearing off his running board. The strange car then shot back across the road again and landed in the ditch. The driver of the derelict picked himself up and came back to Mr. Duncan and apologized and offered to pay all damages, which he did. The car, without lights, carried two men, one of whom was badly scratched about the face, otherwise neither of the men were injured.

The Orangeville car was brought to a garage in sections and it took all day Saturday to get the car in running shape agin. The damage to Mr. Duncan's car amounted to $40. As the strangers settled up manfully there is not likely to be a prosecution. Both of the strangers were comparatively young men, and it is a marvel that they would allow themselves to get in such a condition, endangering their own lives and the lives of others travelling the highway. It is a great problem to know how best to deal with this class of humanity.
