Industrial Home Notes

(By an Inmate)

Wm. McCormack, of Owen Sound, aged 81 years, was admitted to the home as a chargeable inmate on 16th June. He is a respectable old gentleman, a cooper by trade, but age and paralysis have done their work and forced the old gentleman to spend the rest of his days in a House of Refuge, which, we trust, will be quiet contentment. One would imagine by the number that have been admitted to the home since its inception, that the several municipalities had well nigh disposed of its poor, old, homeless and friendless residents; but our Divine Master said, the poor ye always have with you.

After a lapse of over two months death has again visited the Home and removed from our midst another worthy old comrade in the person of Martin Dunn, who passed peacefully away about 9 a. m. on Tuesday, the 19th. The deceased was admitted to the home in May of last year but it was apparent from the first that he had come here to end his days, being afflicted with a lung racking cough, with ultimate death in its sound. However, he entertained the hope of so far recovering as to be able to leave, until about a month before the expiration of his time, when he expressed his conviction that he would never leave the house alive. He was a big, well built man and had possessed a remarkably strong constitution and indomitable spirit, as evinced by the determined manner he battled with the disease by going around all winter without a murmur or complaint, and always answered when asked how he felt, "Oh, not so bad at all, it might be a great deal worse," etc. He kept up his cheerful disposition until about six weeks ago, when the fatal disease triumphed over the vanquished frame, and he was forced to his bed, from which he never rose again. He was a quiet, inoffensive man, with never an ill word for any one, and always closed his ears to ill words being spoken of others. He was unable to take much nourishment during the last three or four weeks of his life, and it was a sad spectacle to watch that once strong, manly form, now lying on his couch, a dying, wasted skeleton. Your scribe was alone with him in his last moments. He could not speak, but opened his eyes, which plainly said "good bye," and he looked me affectionately in the face as his spirit took its flight to the great unknown beyond. I closed his eyes with sorrow, remaining a few reverent moments with the silent dead before making known his demise to the silently listening comrades, by whom he was highly esteemed in life and deeply regretted in death. His remains were taken charge of by Rev. Dr. Walters and conveyed by Undertaker Chapman to St. Johns cemetery on Wednesday morning. May his soul rest in peace. Deceased was an old resident of Glenelg, but had travelled extensively through the Northwest. We do not know of any existing relatives in this country. He was 66 years of age and came to Canada when a boy. We think he was never married.

It was refreshing to see some items from the Stone Settlement, and hope they will be revived and continued.

We were glad to meet with Miss Harrow of Stone's line, and her cousin, Miss ——, on visiting day, and would be very much pleased to meet with Mr. and Mrs. H., highly esteemed friends whom we have not met for more than two years.

Mr. Harness drove to Meaford on Thursday last to meet the County council in session there, on business in connection with his office as home superintendent. He returned Friday evening.

Mr. C. W. Rutledge, editor of the Markdale Standard, was a caller at the home on Thursday last. Your scribe contemplates returning the call in the near future for the purpose of viewing the newly installed printing plant. He would very much like to visit The Advance office, but there is no knowing what opportunities the present summer may yet afford.

We are glad to refute the unfounded report now prevalent among the inmates that Miss Robinson will, during the present week, sever her connection with the home staff. The fact is, Miss R. is engaged for the coming winter at least. Her absence will be for a few days only. It is strange how o many unfounded rumors get their birth, but then gossip always was a busybody that gained credence and magnitude the farther it travelled.

How to Break up a Cold.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two day's time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptons, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by W. E. Richtrdson and H. L. Douglass.

Fine growing weather. Crops look well. The plentiful rains have been good for the growing crops and prospects are good for a bountiful harvest. As a consequence our farmers are wearing happy, smiling faces.

Unknown Friends

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. It is a good medicine to have in the home and is widely known for it cures diarrhoea and all forms of bowel trouble. For sale by W. E. Richardson and H. L. Douglass.

Gourley-Magee

A quiet wedding, at which the guests were all immediate relatives or friends of the families, was celebrated on June 20 at the residence of Mr. James Magee, when his eldest daughter, Emma, was united in marriage to Mr. Robert Gourley by the Rev. J. B. Wass, M A. The bride looked charming in a suit of pale blue cloth with blouse of silk of the same shade trimmed with oriental and all-over lace. The bridesmaid, Miss Mary Magee, sister of the bride, was gowned in a suit of grey cloth with cream, with blouse trimmed with all-over lace. The groom's present to the bride was a gold bracelet, to the bridesmaid a pearl brooch and to the groomsman, Mr. Will Russell, a tie pin. After a dainty wedding breakfast the happy couple left for a honeymoon trip, visiting friends in Toronto and other towns.

In the town of Goderich the assessment roll is printed in full and distributed to the ratepayers in time to permit an appeal to be entered if so desired. The object is to acquaint the taxpayers with the true situation in respect to the value of their own as well as their neighbors' property.

The little son of Mr. Henry Norton, aged five years, has for some days suffered intensely as the result of an accident which occurred while he was amusing himself at play. The lad had climbed the verandah post at his home, and was sliding rapidly down the round portion of the post and struck with force the square and larger part at the base of the post. The injury was such as to require an operation, and although very serious and painful, we are pleased to learn that our bright and active little friend will not suffer permanent injury.—Banner.

The Collingwood News tells the following incident. One day a girl blew into town from the country (the name is forthcoming if anyone doubts) and was directed to a lady who needed a servant. During the conversation as to terms the girl informed the lady of the house that if she engaged with her she would require two afternoons and three week evenings to herself, one evening for Endeavor, one for prayer metting and the third for company. She was taking music lessons and must have the use of the piano. She also would insist on entering at the front door and receiving her company at the same portal. To this last the lady ventured a mild protest as there is a very convenient side entrance to the house, but she was sharply reminded that there is no back door nor side door to heaven, that all must enter by one door there and mistresses might as well begin to learn on earth.

The Havelock Standard says:—Through an unfortunate accident, a young life was suddenly snuffed out at Oak Lake, on Monday, 11th inst., when Eva, the little three-year-old daughter of Mr. N. Whitney, passed away 20 minutes after eating a quantity of strychnine. Mrs. Whitney had been using the poison while engaged in papering, mixing the deadly powder with the paste in order that paper-eating mice would suffer thereby, but the package was upset by a still younger sister, and little Eva ate some before she was discovered. Twenty minutes afterward she was dead. The funeral took place the following day.

A new post office to be erected at Owen Sound will be a building of two storeys and basement. The work of construction will be commenced this fall some time.
