During the thunder storm on the evening of Monday the 8th inst., Mr. R. J. McIntosh, of Holland Township, had four valuable cattle killed by lightning. A south Adjala farmer sowed four acres of what he supposed to be good turnip seed last spring, and carefully kept the ground free of weeds all summer, expecting to have a record crop of purple tops. The crop was the envy of the whole neighborhood during the summer, and 1om. would sit on the fence for hours at a time gazing over the field, and many of the neighbors were invited to see the wonderful turnips. When the tops began to soar above the fence the farmer's suspicion was aroused and upon investigation it was found to be a field of rape instead of turnips. Be careful to get out of the way in a hurry if you ask him how the turnips are turning out.—Tottenham Sentinel.
