F. T. HILL & CO.

This Week we are Clearing out many lines at Ridiculously Low Prices.

This week we put on sale many lines, some are balances of good selling lines, others are lines that have not been moving as fast as we would like to see them. Our system of doing busines makes it compulsory that we should keep everything moving actively, hence the reason for the big reductions in price. We wish to insure a quick sale, and if any of the line should fit your requirements we would advise that you be on hand early.

THE FALL HUNT

Now is the time for the fall push. We ought to do big things in the next two months. We want to sell $30,000 worth of goods before Xmas. Stop a moment and think of the opportunity you have, viz., of coming to Flesherton and buying everything you want at prices which defy competition. New goods are arriving daily which have been bought at prices which will compare favorably with the buying of any departmental store on the continent. We are buyers for cash or trade of butter, eggs, turkeys, geese, ducks, chicks, tallow, hides, skins, hen feathers, turkey feathers, duck feathers, goose feathers and everything in the way of farm produce which you have or may have at highest market prices, and then we are sellers of everything which is required of a store for town and country trade.

Car of Flour and Feed Just Arrived

We are sellers of the famous Five Roses flour, the best flour in the land. You can only realize its excellence by giving it a trial. It certainly has no equal. We also have in stock bran, shorts, feed, flour barley chop, etc., prices right.

Car of Coal Oil

We sell the famous American Penoline oil, the very best coal oil you can buy. The popular one priced oil; try it.

Car of Salt

Fine Windsor Salt, none other so good.

Space will not permit our making detail of the goods we sell. We simply ask you

Come and see and satisfy yourselves.

The Flesherton Advance

All subscriber paying $1.00 strictly in advance get the Montreal Herald one year free as a premium.

Railway Building

Few people can form any idea of the amount of railway construction that is at present under way in this dominion of ours. Besides innumerable short lines and spurs two transcontinental lines are under construction, the Canada Northern and Grand Trunk Pacific. Some of these mornings we will wake up to find 3 lines of steel crossing the continent and another north to Hudson's Bay and we will wonder how it was done. It is interesting to note, too, the mileage of new railway for which legislation is asked at the coming session of parliament. That which touches us most in this district will be the application to authorize the Canadian Northern Ontario Railway Company to build nine branches in Ontario, as follows: —From Washago westerly to Lake Huron near Kincardine; from Arnprior southerly to the St. Lawrence River between Kingston and Brockville; from Pembroke south-westerly to Lake Ontario between Toronto and Belleville; from Toronto-Ottawa line north-westerly to Georgian Bay near Collingwood or Owen Sound; from Toronto-Ottawa line westerly, passing through or near Toronto, Hamilton and London to Windsor, with branches to St. Thomas and Sarnia, and a branch or loop north of Toronto; from Niargara River north-westerly, passing through or near Hamilton to Lake Huron near Goderich; from Lake Erie west of Port Colborne, northerly, passing through or near Brantfurd or Berlin to Georgian Bay; from a point near Washago to the Georgian Bay east of Collingwood.

This is quite a bill of fare for one railway system, and as the Canadian Northern has a reputation for saying little but doing much there can be little reasonable doubt but that the C. P. R. and G. T. R. in this section of Ontario are about to gain a strong competitor for business. There are many who think the new line surveyed through Flesherton a few weeks ago will be designated later on by the initials C.N.R., but of this there is nothing definite.

The new Canada Northern line from Toronto to Parry Sound was opened for passenger traffic on Monday last.

Horsemen Want Legislation.

Messrs. John Bright, of Myrtle, Ont., and H.G. Reid, of Georgetown, have been going through this county inspecting stallions and securing information regarding the horse industry, on behalf of the Ontario government. A public meeting of stock men was held in Markdale last week at which these gentlemen were present, when unanimous resolutions were passed asking that the government pass a law licensing all stallions and making it illegal to use anything but pedigreed sires; also to give a lien on mare and colt until services of horse were paid for. It is also wished by some to extend at least the former part of this request to cattle, the object being to prevent the use of diseased, unfit or unpedigreed stock, thus raising the standard of Canadian bred horses and cattle. The ambition is a laudable one but the change would be most radical and it is felt that it cannot be achieved at a stroke, and legislation suitable to that end will no doubt be asked for at the coming session of the Legislature.

The editor of a Western state paper was pretty nearly right when he said that any time you hear a man finding fault with his local paper, the chances are ten to one that he hasn't an advertisement in it; five to one that he never gave it a job of work; three to one that he does not take the paper; two to one that if he is a subscriber he is a delinquent; even that he never does anything to assist the publisher to run a better paper and forty to one he is the most eager to see the paper.
