DR. G. W. STONE'S MESMERIC NERVE RESTORATIVE.

THIS compound nervine was discovered and revealed to Dr. Stone by a celebrated Clairvoyant whose wonderful powers of second-sight were developed and exhibited by him, in London, during the spring and summer of 1841. The efficacy of this newly discovered remedy in restoring to healthy action and increasing the vital energies, has been well tested and proved to a demonstration, by the proprietor, in his treatment of NERVOUS DISEASES.

During three years practice in Europe, where hundreds can testify to astonishing and almost miraculous cures performed by it. In addition to the magical powers of the ingredients it is highly charged with Mesmeric Fluid, being, in accordance with the directions of the Clairvoyant, powerfully Mesmerised by Dr. Stone, thus combining with its medical virtues the aid of Mesmerism, by which alone some of the most remarkable cures have been performed ever known. It is a specific for every Neurotic disease, and may be relied upon as a certain cure for Rheumatism, Neuralgia, Paralysis, Tic Doloreux, Nervous Headache, Pain in the side or Stomach, and General Nervous Debility

DR. STONE'S

Cough, Consumption, & Bronchitis Elixir.

Dr. S. would call the attention of the public to his invaluable remedy for Coughs, Colds, Consumption, and Bronchitical affections. It constitutes no poisonous ingredients and may be given to the most delicate child without fear or risk. This medicine has been tried successfully by hundreds of cases the past winter, and no family should be without it. Price Fifty cents.

BOTANY & HYDROPATHY.

MR. EDITOR—SIR:—As there is no other person in this country professing the Hydropathic and Botanic System, I beg leave through your excellent journal to inform the public in reference to it.—Many persons professing a different system appear to be sceptical of its genuineness, and lead the public to believe that unless a person is of the old-school treatment & able to name every part of the human system minutely, he is nothing better than a quack. There is no other science in the world more worthy of study than the philosophy of health. A human being through insignificant when contrasted with creation, is a subject which thousands have spent ages in describing, and went so far into its minutiæ as to have recourse to microscopes in order to discover what the human eye could not do; and notwithstanding all their researches, is failed in the end. Should an equal number spend equal time and give names to every hair on the human head, it would not add any real benefit to suffering humanity.—There are but few parts of the body over which a physician can have any control, namely the vital and leading parts; and when they are relieved they will communicate assistance to all minute parts dependant on them. This being only designed by way of an introduction, I will in future continue to give a description of Anatomy, with the names of the leading parts of the human body, as much as will be necessary for any person to know; and in the meantime beg leave to state, that there were a few words in my former advertisement for a lecture, that were more calculated to stir up the public mind to some excitement than to be the genuine sentiments of the subscriber's modesty.

Professor of BOTANY and HYDROPATHY.
