## TEACHERS' SALARIES DECREASE

From the fact that one of Carrick's school boards received an offer from a teacher to take charge of their school at $750.00 per annum it would appear that teachers' salaries are due for a slump, says the Mildmay Gazette. In the past, owing to the system upon which the Legislative grants were based, a school section was as far ahead by paying $1,000 as it would have been by paying $800, there was no reason for reducing the salaries, but if the Department of Education decides to cut off these grants, there will be a big drop in teachers' pay checks.

## THEY TALK TO EVERYONE

The late P. T. Barnum said: "If you have $19 to use put $10 of it into advertising. I can out talk any man but a printer. The man who talks every week to a thousand men while I am talking to a few, is the man I am afraid of and I want to be his friend. Trade with the men who advertise and you will get bargains and the worth of your money." Patronize your paper as you would any other enterprise because it helps you. The local papers are religiously read and are the very best avenues for imparting to customers or producers simple but extremely important information."

HIS MASTER'S VOICE

## Dundalk 10, Flesherton 9

Flesherton bowed to defeat at Dundalk on Thursday to the Greenshirts of that town 10—9, after giving them a scare that they will remember for some time. Flesherton fell down badly in the first inning which cost them the game when Dundalk hit Hutton freely counting five runs, three errors being made. At the end of the third inning Dundalk was leading eight runs to two, Akins scoring the two runs for Flesherton. We have got a real fighting team in Flesherton and they drew right up to the leaders, and at the commencement of the ninth were behind 10—8. A big rally took place in the ninth, the first three men for Flesherton hitting safely, and Hutton scoring and Dow and Boyd left on 3rd and 2nd with none down. An error by the coach on McTavish's long hit to centre field cost the local team a chance to tie the score when Dow was unable to count. The next two men were easy outs. After the second inning, Hutton had good support and pitched well, only allowing three runs the rest of the game.

The lineup for the game was:

Flesherton — Kelly, Akins, Hutton, Dow, Boyd, McTavish, Alcox, Thurston and Sparks.

Dundalk — M. Thompson, Armstrong, Claridge, V. Russel, McAllister, Lockhart, Mercer, C. Thompson, and McIntyre.

Score by innings:

| | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| Dundalk | — 5 | 2 | 1 | 0 | 1 | 1 | 0 | 0 | 0 | —10 |
| Flesherton | — 1 | 1 | 1 | 1 | 2 | 2 | 0 | 1 | 1 | —9 |

Dundalk has won three straight games, while Flesherton has won one and lost two and Vandeleur have lost two games.

Akins and Thurston scored six of the nine runs, and Sparks also had a good day making three hits in four trips to the plate, two of them being doubles to score four runs. Sparks is playing good ball this year.

Cec. McTavish has also improved, both at bat and at shortstop this year.

A big crowd is expected to be at the game here on Thursday for this deciding fixture, and the contest should be a lively one.

Dundalk has cinched first place in the League race by their win over Flesherton on Thursday. Their next game will be at Vandeleur on August 20th.

Flesherton plays with Vandeleur in Flesherton, Thursday afternoon at 3.30. To be in the running for the championship the locals have to win this game, or they will be practically eliminated.

## Big Day at Maxwell

A big field day is to be held at Maxwell on Thursday aftenoon of this week at the home of Andrew Pallister when a ladies' softball tournament will be played between Flesherton, Shrigley, Singhampton and Maxwell. The first two teams mentioned commence the first game at 2.30 p.m., after which Singhampton and Maxwell will compete, and the winners of the first and second game will play off for the prize of $5 which is offered. Another game will be played between Singhampton and Maxwell men. Men's tug-of-war and foot races are also on the program. This will be a first class day of ball and a big crowd is expected to view these ladies' teams, which are the best in this part of the county. The Maxwell team has yet to losea a game.

### Does Not Sit in an Easy Chair

We have a friend who breezes into our offices at stated intervals, and if perchance he finds us at our desk he sings, "The editor sits in his easy chair." Now this man is one of our very best friends, but we regret his contiual assumption that the editor does nothing but sit in his easy chair. Then there is another wise guy who calls at the office at intervals and brings in a column or two of matter "just to help fill up the paper." If the average reader of any newspaper could see the editorial waste basket, he would be amazed at the amount of proaganda, free press agent stuff and vain efforts to get advertising published as news, that goes into that waste basket every day. Just why other wise intelligent men will spend money in an effort to gets something for nothing in the local newspaper is one of the big problems of to-day. Ever since the world war, when newspaper editors generously printed columns of free matter for the war loans, the army and navy activities, and other appeals for foreign relief, a hundred corporations have been trying to get into print on the same basis. They have wasted enough money in this effort to pay the space they seek at regular advertising rates. Politicians, reformers, charity workers, a hundred welfare organizations that pay everybody else a salary, pile the editor's desk high with free publicity. For a time the editor smiled and hung the copy on the compositor's hook, but as everybody got to doing it, the hook wouldn't hold the free copy and the waste basket got the overflow. To-day the waste basket won't hold it and most of it goes direct from the editorial desk to the baler. In self-defense the editor who seeks to meet his bills and pay his employees has adopted the very simple slogan: "You charge, we charge." Which means that advertising for all events where an admission fee is charged must be paid for.

Police Magistrate Frank Cook of Midland had a narrow escape during an electric storm. He had been working in his garden when the storm broke and took temporary refuge in his tool house where he was sitting when a lightning bolt struck a basswood tree a few feet away from him. Mr. Cook received a slight shock.

George Conover of Esquesing Township, north of Milton, had an unfortunate experience in growing cauliflower. He set out 1,000 plants which thrived well for a few days, but a flock of cottontails, which are playing havoc with the vegetable gardens in Halton County, discovered the plantation, and in one night consumed the whole of the thousand plants.—Erin Advocate.

### Oil on Perches Stops Hen Lice.

When I started to keep poultry I built a new hen-house, and the first year I had no trouble at all with mites, but the second year gave me lots of work. But one day I went out on a pleasure drive which took me close to a friend's home whom I knew to be a good poultry woman. I asked to see her flock, to which she gladly led the way.

The building was just a ramshackle old affair to which several leans had been added as her flock grew in size. She went right into the house, but I hesitated, for when I looked in I saw all sorts of boxes and barrels half full of straw with hens on them, the only thing provided for them to lay in. But she invited me in, and reluctantly I complied. She led off in conversation, I listening, expecting any minute to be set upon by mites. After a few minutes it dawned upon me there were no mites in there, so I asked her how she managed to keep such a place free from mites. She turned to the perches, pointed at them and said, "See those black perches. That is oil on them."

I went home and oiled the perches in my new hen-house and have had no mites since; that was three years ago. Each year, after the incubating season is over, I paint the perches heavily with the cheapest lubricating oil procurable, and now I don't think I have a mite on the place. Mites all leave the hen before daylight. The oil kills them, and enough of it gets on the feathers to kill the young as they hatch on the hen's body. Don't put the oil on till the hatching is over or you'll regret it.
