At a special meeting of the London Royal Society, the president and council had under consideration the means to be employed in making observations of the total eclipse of next year. The eclipse will be of the greatest possible duration ... more leisure than usual for such observations as can only be made during the intervals of the totality. The total eclipse will be visible in India but elsewhere only in countries practically unavailable.

Some discussion has lately taken place in the American Congress relative to the future disposition of iron-clad vessels of the United States navy, of which it appears there are in all fifty. It was suggested by one member of the House that if they were sold they might probably be purchased by some European power, but it was the sense of the House that there is not among them a single vessel that either Great Britain or France would care to own. A large number of them are to be sold by auction to the highest bidder.

Among the many rumors in circulation in respect to the statement of Allen the informer, one is to the effect that either the escape or death of Burke and Casey would have equally effected the object of the perpetrators of the crime, on the ground that whichever survived, them, as it is argued and as is stated with some show of reason, that it was more likely to be the safety of certain parties that Burke and Casey should be put out of the way. If there be any truth in this report, it gives an additional hue of blackness to the whole transaction.

Corruption and plunder are rife among the government officials of the States, appears to be the rule rather than the exception. Take for instance the whiskey tax. The excise duty is $2 a gallon, and in consequence of the robberies by the manufacturers, the actual cost of whiskey can be purchased for $1.75 per gallon in any ... of the Union, duty paid. The committee of ways and means of the House report that the government has been defrauded of more money on the whiskey tax alone than the entire amount of receipts for internal revenue from all sources. Here is what they say should have been received, and what actually was received:

Tax due	$305,578,400
Tax received	28,000,000
Stolen	$277,578,400
Total receipts of Internal Revenue in 1867	$266,027,527

CAUTION.

THE perfection and cheapness of the American (Waltham) watch have given it such a world-wide celebrity that unscrupulous dealers years ago imitated its style and pirated its trade marks. Irresponsible dealers are occasionally found who furtively trade upon the popularity of the American watch by selling a base imitation under the name of the genuine article.

It is hardly necessary to state that such watches are worthless as time keepers, and when bought for the genuine are calculated to injure the high reputation which our watches have attained. The several grades of the American watch (except the lowest grade marked Home Watch Co.) are guaranteed by special certificate bearing the number of the watch and the signature of the Treasurer of the Company, R. E. Robbins. The purchaser should in all cases require one of these certificates, which is furnished to all dealers in the genuine watches.

The following are the trade marks on the several grades of our manufacture:—

AMERICAN WATCH CO.
APPLETON, TRACY & CO.
WALTHAM WATCH CO.
P. S. BARTLETT.
WM. ELLERY.
HOME WATCH CO.

PENNSYLVANIA RAILROAD CO.

Office of the General Superintendent, Altoona, Pa., 15th Dec., 1866.

GENTLEMEN—The watches manufactured by you have been in use on this Railroad for several years by our engine men, to whom we furnish watches as part of our equipment. There are now THREE HUNDRED OF THEM CARRIED ON OUR LINE, and we consider them GOOD and RELIABLE TIME-KEEPERS. Indeed I have great satisfaction in saving YOUR WATCHES GIVE US LESS TROUBLE and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

American Watch Co., Waltham.

NEW YORK CENTRAL RAILROAD

Locomotive Dep't Western Division, Rochester, Dec. 24, 1866.

GENTLEMEN—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that WALTHAM WATCHES ARE THE MOST SATISFACTORY of any for their uses. They RUN WITH THE GREATEST ACCURACY AND STEADINESS, notwithstanding the roughriding of an engine; and as I have NEVER KNOWN ONE TO WEAR OUT, they must be durable. I hope to see the time when railway companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON,
G. Chief Engineer,
Brotherhood of Locomotive Engineers.

The Great Secret of selling goods cheap is to buy them cheap and charge a small profit. We don't repeat the old cry of Selling off at Cost Price, Sacrificing the Stock, &c. We come out boldly before the public, and quote the price of our goods, and show them at the door with the prices marked in large figures. Or to save ladies from the annoyance now so common of being rudely forced to buy, we will send samples on application, postpaid, to any address.
