W., of Consumption; or that of Ambrose Wood, of Gosecon, C. W., of Dyspepsia and Liver Complaint; or that of John Hosey, of Napanee, C. ANOTHER WONDERFUL CURE OF CONSUMPTION IN CANADA.

MESSRS. YOUNG & CHAMBERLAIN,—Sirs, I feel it a duty I owe to you, as well as to the public, to inform you of the most wonderful cure of Consumption, accomplished in my person, by the use of the Great Shoshonees Remedy and Pills. I coughed a great deal day and night, expectorating large quantities of matter, and had a great pain about my left lung. I had cold chills every day, and severe night sweats every night, and between the racking cough and great sweating, I was almost deprived of sleep; by these miseries as well as the loss of appetite, I was so reduced that I could hardly stand alone. I was under the care of a physician for a length of time, but finding no relief, I tried different recipes, but all without any good effect. Squire Paterson, of Bath, recommended me to use the Great Shoshonees Remedy. I procured three bottles at once, with the Pills; so soon as I commenced using it I began to get better, and when I had finished this compliement, the Cough, expectoration of matter, pain about the lung, chills, sweating, &c., left me, and by continuing its use I became strong and healthy. It is now over two months since I quit the Remedy, and there have been no symptoms of the disease returning, and I have been, and am now, healthier and better than I have been for many years. I trust you will make this known to the public, that they may be aware of the peculiar virtues of this truly wonderful Indian Remedy.

PETER C. V. MILLER.

To all to whom it may come.—This is to certify, that I have been acquainted with the above mentioned gentleman, Peter C. V. Miller, Esq., for many years, and have known him always to be of the very highest respectability, and a very candid and creditable person; and I am confident that I can safely vouch for the truth of the above, or any other statement made by him.

Rev. W. F. S HARPER,
Rector of Bath, C. W.

THE perfection and cheapness of the American (Waltham) watch have given it such a wide-world celebrity that unscrupulous dealers years ago imitated its style and pirated its trade marks. Irresponsible dealers are occasionally found who furtively trade upon the popularity of the American watch by selling a base imitation under the name of the genuine article.

It is hardly necessary to state that such watches are worthless as time-keepers, and when bought for the genuine are calculated to injure the high reputation which our watches have attained. The several grades of the American watch (except the lowest grade marked Home Watch Co.) are guaranteed by special certificate bearing the number of the watch and the signature of the Treasurer of the Company, R. E. ROBBINS. The purchaser should in all cases require one of these certificates, which is furnished to all dealers in the genuine watches.

The following are the trade marks on the several grades of our manufacture:—

AMERICAN WATCH CO.
APPLETON, TRACY & CO.
WALTHAM WATCH CO.
P. S. BARTLETT.
WM. ELLERY.
HOME WATCH CO.

PENNSYLVANIA RAILROAD CO.
Office of the General Superintendent,
Altoona, Pa., 15th Dec., 1866.

GENTLEMEN—The watches manufactured by you have been in use on this Railroad for several years by our engine men, to whom we furnish watches as part of our equipment. There are some THREE HUNDRED OF THEM CARRIED ON OUR LINE, and we consider them GOOD and RELIABLE TIME-KEEPERS. Indeed I have great satisfaction in saying YOUR WATCHES GIVE US LESS TROUBLE and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never keep time as correctly, nor have they done as good service as yours.

In these statements I am sustained by my predecessor, Mr Lewis, whose experience extended over a series of years.

Respectfully,
EDWARD H. WILLIAMS,
General Superintendent.

NEW YORK CENTRAL RAILROAD.
Locomotive Dep't Western Division,
Rochester, Dec. 24, 1866.

GENTLEMEN—I have no hesitation in saying that I believe the great majority of locomotive engineers have found by experience that WALTHAM WATCHES ARE THE MOST SATISFACTORY of any for their uses. They RUN WITH THE GREATEST ACCURACY AND STEADINESS, notwithstanding the roughriding of an engine; and as I have NEVER KNOWN ONE TO WEAR OUT, they must be durable. I hope to see the time when railway companied will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion it would greatly tend to promote regularity and safety.

Yours respectfully,
CHARLES WILSON,
G. Chief Engineer,

Holloway's Worm Lozenges.

Are certain and safe remedy for worms in children and adults. As it is a well known and melancholy fact that one great cause of death among children is from Worms alone. It cannot be too deeply impressed upon the minds of parents the necessity of closely watching their children. By so doing, and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves. The following are a few of the very numerous symptoms and diseases which are occasioned by Worms:—Deranged appetite emaciated extremities, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, hardness of the belly, with frequent slimy stools, and sometimes convulsive fits, pain in the head and stomach, unquiet sleep, faintings, trembling, coughs, indigestion, low spirits, frightful dreams, and a gradual wasting away of flesh. Holloway's Worm Lozenges are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor Oil or other unpleasant cathartic. Each box contains the fac-simile signature of Northrop & Lyman, Newcastle, C. W., who are the sole proprietors. N.B.—Ask for Holloway's Worm Lozenges, and take no other. Price twenty-five cents a box. Sold by all Medicine Dealers everywhere.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

THE PROPOSED ROMAN CATHOLIC UNIVERSITY.

The correspondence between the Chief Secretary for Ireland and the Roman Catholic prelates to whom the management of the scheme for a Roman Catholic University was committed by their colleagues has been published in the form of a Parliamentary paper. In October, Archbishop Cullen and Bishop Derry wrote to Lord Mayo enclosing a letter they had addressed to the Earl of Derby to inform him of the mission entrusted to them. On the 14 March Lord Mayo wrote to the bishops calling their attention to the announcement he had made in the House of Commons of the intentions of Government with regard to the proposed university, and invited suggestions. Lord Mayo's letter contained "a confidential memorandum," containing which five days after Dr. Leahy wrote, pointing out the following objections:—1. There is no provision saving the authority of the Catholic prelates in matters appertaining to faith and morals; nor is the constitution so framed, as far as we see, that under it such authority could be freely exercised. 2. As a sequel to the foregoing, there appears to be no effective provision for the appointment of professors or other officers sound in faith and morals, or for the removal of such persons as might prove to be heterodox or immoral. 3. No such definite appointment is vested, not in the Catholic bishops, but in the Senate, which is objectionable. 4. The bishops ought to possess the power of at least an absolute negative on such appointments. 5. We are not prepared to say that would be the constitution of the Senate there is too much of the lay element and too little of the clerical. 6. The Chancellor named in the first instance by Government would, I presume, be his Eminence Cardinal Cullen. That would be due to his rank and position in the Catholic church. But after the first instance, the Chancellor ought to be elected by the Senate, not, as is proposed, by Convocation. He might be one of the four Archbishops. A spirit of party might by-and-by dominate the body of the graduates, and a person unfit for the high office of Chancellor might be elected were the office open to all. The number of the Senate is seventy at twenty, yet, from its constitution, it could, if it ought to be variable, vary the number of the Senate is made up of two elements, one invariable, the other variable; the former being eighteen, the latter being the heads of the affiliated colleges. 8. A great objection to the proposed scheme is the want of a suitable endowment. Lord Mayo granted the prelates an interview on the 24th of March, when they renewed the above objections to Government proposal, and subsequently embodied and amplified them in a written memorandum. In concluding this they say:—"For the present, appreciating the liberality Government might experience in providing an endowment for the colleges attached to the university, we abstain from pressing for such endowment: though, as the Trinity College possesses immense wealth, and the Queen's Colleges receive £20,000 a year from the public purse, the majority of the Catholics of Ireland to a liberal endowment for the purposes of medical education is unquestionable, on the supposition that the university will be a professional staff, as also it should be, it follows as a matter of course that provision should be made for the payment of their salaries, or lectures, and for the scientific and other apparatus required for their teaching, and for the better encouragement of the cultivation of letters and science, the university must needs have at its disposal a fund for the foundation of scholarships and the distribution of prizes."—On the 5 of May the Duke of Marlborough wrote to say that he had found reason to assent to all the episcopal propositions. The Secretary, after objecting to the proposal in detail, observing meanwhile that the Government had not intended to make the Queen's Chancellor, but to give the office to a distinguished layman, says:—"The Government was to create an institution which, although denominational in its character, would be thoroughly independent, self-governed, and free from political or religious. The Government would strike out from your letter the words 'liberal principles,' and I regret, obliged to inform you that the recommendations contained in that letter cannot be entertained."

Dickens has left to Dr. S. G. Howe, of Boston, a sum of $1,000 to be appropriated in printing copies of the *Old Curiosity Shop* for the blind.

The Belleville Intelligencer of Friday contains the following details of the fearful death of two young women by drowning at Cavendish, Vt., on Monday evening last, a general participation regarding which event now prevails throughout the country. The victims were already published: Mrs Alfred Cary, of Boston, daughter of Horatio Nelson, Esq., and Miss Ellen M. Cary, both visitors at Cavendish. The women went to the grist mill, across the river, the water being high and current strong from so large a flow over the dam. They had hardly to start, they urged, but earnestly urged them not to attempt it. They did not, however, in the fears of their friends, and in their book, waving their handkerchiefs in salutation and bidding "good bye" as they stepped. Then followed the most painful and thrilling scenes ever occurred in Vermont. They had but a short distance when it was plain that the current was carrying them over, but they did not appear to realize it. Nearer and nearer they approached the mill, and Miss Cary rose and stepped out of the boat. The strong current immediately carried her over. Mrs Cary remained in the boat, and just as she made the fatal plunge, seemed to be in a state of mind, or fainting, or perhaps she may have thrown herself into the boat, with the possible hope of escape. Several rods below the mill the rocky gorge known as Falls. The feelings of those who witnessed this scene, who were utterly unable to render assistance, cannot be
