DESPERATE AFFRAY WITH THE POLICE IN NEW YORK.

Mulberry street, in the vicinity of Canal, was the scene, last evening, of a desperate encounter between a number of citizens and the police of the 14th Precinct, which, but for the prompt action on the part of Captain Garland, would doubtless have resulted in an affair, the contemplation of which causes one to shudder. It appears that Capt. Garland, having received information which led him to believe that the Excise Law was being violated by Mr Reynolds, proprietor of the drinking saloon, No. 121 Mulberry street, sent special Detective Geo. Lyman to the establishment, for the purpose of ascertaining if such was the fact. Lyman, attired in citizen's dress, having gained admission to the saloon, quite a number of persons were inside, a number of whom, recognizing him and seriously objecting to his intrusion, gave him to understand that his presence was not acceptable, and commenced to eject him from the premises. The officer made some resistance, whereupon the party set upon him, knocked him down, and kicked him in a terrible manner, and finally ejected him from the saloon. The news of the affray having reached the ears of Officer Hildebrand, who was patrolling his beat in the vicinity, he hastened to the scene, and endeavoured to arrest the parties who had been concerned in the row, when he, too, was set upon and knocked down and beaten and kicked in a most shocking manner. When taken to the Station-house, his body presented a horrible appearance, his face, neck and head being covered with cuts and bruises, from which the blood flowed profusely. Capt. Garland fearing that the affray might culminate in a riot, despatched a number of officers to the scene, whose reception was as warm as that of Officers Lyman and Hildebrand. A number of these men shortly afterwards returned more or less battered and bruised. The Captain, now thoroughly alarmed, next proceeded to call out the entire reserve force, who, upon reaching the scene of the disturbance, found the neighbourhood in a state of intense excitement, the street, for nearly a block, being completely filled with an excited crowd of men and women. The officers, however, soon succeeded in quelling the disturbance by arresting a number of supposed participants in the affray, several of whom were found to have been quite seriously clubbed during the fight. None of the officers were dangerously injured, although officer Hildebrand's wounds are of a very painful nature.—*New York Star.*

The Cleveland *Leader* says At the Bethel Sunday School yesterday, a gentleman in addressing the infant scholars, asked where Christ was born. A modest urchin suggested New York. The others hearing and not wishing to appear ignorant, quickly echoed in stunning chorus, "New York."

The following dialogue is stated to have taken place between a visiting magistrate at one of the London jails, and a juvenile offender serving out his three months:—"How old are you?" "Please, sir, I'm thirteen." "How often have you been in jail?" "Please, sir, eight time." "Have you ever been in Reading jail?" "Please, sir, once." "Have you ever been in Westminster jail?" "Please, sir, once." "How often have you been here?" "Please, sir, six times." Why do you come here so often?" "Please, sir, because at Westminster the turnkeys knocks yer about with their keys." "How do you contrive to be sent here?" "Please, sir, I allus prigs in Holborn now."

There have been several plans proposed for connecting France with England. Among others, a submarine railway, a tubular-bridge, and an aerial bridge. M. Boutet, an engineer and promoter of a plan for making a railway-bridge across the English Channel, has lately had an audience granted by the Emperor, and the *Courrier du Pas-de-Calais* states that he declared the project to be far more practicable than all the tunnels and other expedients yet proposed. A large plan of the project was spread out on the floor; the Prince Imperial, in leaving the room, jumped over it. "Monseigneur," said Fave, who had introduced M. Boutet, "you have been the first to pass the bridge." The Emperor smiled, and in retiring repeated the words, "We will support you." The enterprize has therefore made a decisive step in advance, inasmuch as it has just received the Imperial support."—*London Review.*

EXTRAORDINARY ECLIPSE.—The total eclipse of the sun which is to take place on the 18th August next, will present such a long duration of darkness that astronomers are anticipating it with unusual interest. From near Aden, the central line of the eclipse extends to the Southern coast of New Guinea, crossing Hindoostan, the Bay of Bengal, the Malayan peninsula, and the Gulf of Siam on the way; and at certain places on this line the duration of total darkness will be at 6:46. At the date in question the moon will not be more than six hours from its perigee, while the sun will not be far from its apogee—a two-fold condition, which increases the apparent diameter of the sun nearly at the smallest. Hence the prolonged darkness. Such a chance occurs but rarely, and we cannot wonder that a strong desire exists to make the most of it in endeavours to solve certain highly important questions in physical science. Unluckily, the south-west monsoon will be at its full blast on the 10th of August, which, with its heavy clouds, will render observation either uncertain or impossible, except on the eastern side of the mountain ranges.

A SHOEMAKER'S VOCABULARY.—A Lynn correspondent of the Providence (R. I.) *Journal* is facetious. He says: "One must reside in Lynn more than a day to understand fully all that is said to him, hence my inability to do justice to the place. I find that a whole-souled fellow means one whose boots have never been in the hands of a cobbler; and when my attention was called to the last factory, I was not to understand that it was the latest structure erected for manufacturing purposes. The best footing here means something more than hemlock sides, and lasting ties are not always bonds of affection. A promise to give one your all would probably be misunderstood, and before you were prepared for any demonstration you might find yourself treed. A shabby fellow is no better than split leather; pegged out here means a broken constitution, and an invalid is one who needs revamping. At noon a hungry man goes home for some lining; and, to their credit be it said, few of them ever welt their wives. In Lynn a shaver is not necessarily a barber, nor a paster a poster, any more than a heeler is a doctor. Slips are not mishaps, I find, nor is crimping looked upon as unbecoming in any one. But what boots it! The vocabulary of these industrious people is very extensive, and when one gets his foot in, he takes to it as readily as those to the manner born."

ICED MUSLINS FOR SUMMER.

It has doubtless occurred to many a one, while admiring the beautiful effects produced by frost on windows, to imagine how delightful it would be if a sensation of coolness could be produced in the sultry days of summer by the aspect of those effects, artificially produced. The imagination has been realized. It is known that, by means of almost any ordinary salt, reduced to a liquid, and applied with a brush to window-panes, those fairy-like forms of crystalline foliage may be successfully reproduced, and that, with a little chemical ingenuity, any tone of colour may be given to them, from snowy white to richest purple or coolest green. The process is well known; but another step in advance has recently been taken in the same direction, by means of which muslins may be similarly iced for summer wear. The line which separates a pretty experiment from a commercial product is that which may be drawn between results obtained by an original manipulation, which can only be reproduced by a repetition of the same original means, and those results which can be reproduced *ad infinitum*, by mere mechanical processes. Daguerreotype was only a pretty toy till M. Talbot discovered the means producing the same effects on paper, and a process for multiplying the image when once produced. An analogous method has been discovered by M. Bertsch, and practically applied by M. Kuhlman, for multiplying, as from an engraved plate, the exquisite effects of the crystalline, from which any number of impressions can be taken, in any tone of icy greys, or pale silvery greens, or any other cool tint. In order to secure continuity of design, without stop or interruption, the first manipulation takes place upon a polished cylinder, by means of which a continuous pattern, 'never ending, still beginning,' is imparted to as many thousand yards of any textile fabric as may be required.—So that for the first time in the fanciful history of fashion, iced muslin, for the summer season, may be had in any quantity. Oh, ye nymphs of icy heart, let us see you clothed in the appropriate livery of iced muslin.

Holloway's Worm Lozenges.

Are certain and safe remedy for worms in children and adults. As it is a well known and melancholy fact that one great cause of death among children is from Worms alone. It cannot be too deeply impressed upon the minds of parents the necessity of closely watching their children. By so doing, and understanding the symptoms and true cause of the disease, thousands of children might be saved from early graves. The following are a few of the very numerous symptoms and diseases which are caused by Worms:—Deranged appetite emaciated extremities, offensive breath, frequent picking at the nose, grinding of the teeth during sleep, hardness of the belly, with frequent slimy stools, and sometimes convulsive fits, tremblings, coughs, indigestion, low spirits, frightful dreams, and a gradual wasting away of flesh. Holloway's Worm Lozenges are palatable and self-administered to the child—drive out the worms thoroughly without pain and completely cleanse the stomach—thereby doing away with the necessity of administering Castor Oil or other unpleasant cathartic. Each box contains the fac-simile signature of Northrop & Lyman, Newcastle, C. W., who are the sole proprietors. N.B.—Ask for Holloway's worm Lozenges, and take no other. DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.

DR. DE JONGH'S Oil is convincingly proved by an overwhelming weight of medical testimony, and by the practical test of successful experience for twenty years in all parts of the world, to be, beyond all question, the purest, the most efficacious, the most palatable, and, from its rapid curative effects, the most economical of all kinds.

Hence the universal celebrity of Dr. de Jongh's Oil, and the unparalleled demand for this unrivalled preparation.

SELECT MEDICAL OPINIONS.

SIR HENRY MARSH, BART., M.D.,
Physician in Ordinary to the Queen in Ireland.

"I have frequently prescribed Dr. de Jongh's Light-Brown Cod Liver Oil. I consider it to be a very pure oil, not likely to create disgust, and a therapeutic agent of great value."

DR. EDWARD SMITH, F.R.S.,
Medical Officer to the Poor Law Board of Great Britain.

"We think it a great advantage that there is one kind of Cod Liver Oil which is universally admitted to be genuine—the Light-Brown Oil supplied by Dr. de Jongh. It has long been our practice, when prescribing the oil, to recommend this kind, since, amidst a much variety and uncertainty, we have confidence in its genuineness."—(Extract from "Consumption: its Early and Remediable Stages.")

DR. LANKESTER, F.R.S.,
Coroner for Central Middlesex.

"I consider that the purity of this oil is secured in its preparation, by the personal attention of so good a chemist and intelligent a physician as Dr. de Jongh, who has also written the best medical treatise on the oil with which I am acquainted. Hence, I deem the Cod Liver Oil sold under his guarantee to be preferable to any other kind as regards genuineness and medical efficacy."

DR. LETHEBY,
Medical Officer of Health, and Chief Analyst to the City of London.

"In all cases I have found Dr. de Jongh's Light-Brown Cod Liver Oil possessing the same set of properties, among which the presence of cholaic compounds, and of iodine in a state of organic combination, are the most remarkable. It is, I believe, universally acknowledged that this oil has great therapeutic power; and from my investigations, I have no doubt of its being a pure and unadulterated article."

DR. BARLOW, F.R.S.,
Senior Physician to Guy's Hospital.

"I have frequently recommended persons consulting me to make use of Dr. de Jongh's Cod Liver Oil. I have been well satisfied with its effects, and believe it to be a very pure oil, well fitted for those cases in which the use of that substance is indicated."

DR. GRANVILLE, F.R.S.,
Author of the "Spas of Germany."

"Dr. Granville has found that Dr. de Jongh's Light-Brown Cod Liver Oil produces the desired effect in a shorter time than other kinds, and that it does not cause the nausea and indigestion too often consequent on the administration of the pale oil."

EDWIN CANTON, ESQ., F.R.C.S.,
Surgeon to Charing-cross Hospital.

"For several years past I have been in the habit of prescribing Dr. de Jongh's Light-Brown Cod Liver Oil, and find it to be much more efficacious than other varieties of the same medicine which I have also employed with a view to test their relative superiority."
