The Flesherton Advance

Is published every Thursday at $1.00 per annum if paid in advance, $1.50 if not so paid.

John Bradley, post master at Orangeville, died on Wednesday, April 10.

One morning, Robert Braden, a farmer, of Alliston, on entering his barn was surprised to find a curiosity in the shape of a newly born calf, with two heads, four eyes, two ears and a perfect body. The calf is living, and seems likely to continue in health.

By-law No. 682

A By-law to provide for drainage work in the Township of Artemesia in the County of Grey and for borrowing on the credit of the municipality the sum of $1071, the proportion to be contributed by said Municipality for completing same. Provisionally adopted the sixth day of April A. D. 1907.

WHEREAS the Council of the Township of Proton has taken proceedings to construct a drain in the said township under the provisions of the municipal drainage act, which said drain is to be extended or continued into the township of Artemesia.

AND WHEREAS the Municipal Council of the Township of Proton has served the Reeve of the Township of Artemesia with a copy of the report, plans, specifications, assessments and estimates of Isaac Traynor, Esq., P. L. S., the Engineer of the proposed work as required by the Municipal Drainage Act, and the said Report of the said Engineer in respect thereof and of the said drainage work so far as the same relates to the Township of Artemesia being as follows:—

To the Reeve and municipal council of the Township of Proton: Gentlemen,—In accordance with your instructions, I have made an examination of the locality mentioned in the petition of David McMillan and others, of the Townships of Proton and Artemesia for the purpose of locating a drain for the drainage of the lands mentioned therein. and as I find such drain necessary, I beg leave to submit herewith plans, profiles, specifications, estimates and assessments of the estimated cost thereof.

The drain being located as follows: —Commencing on the West side of the road allowance between Lot 29, Concession 17, and Lot 201, Range 4, South-west of the Toronto and Sydenham Road in the Twp. of Proton, thence north 39 degrees, 30 min., east 33 feet thence north 50 deg. 30 min. west 28 feet, thence north 39 deg. 30 min. east 343 feet, thence north 50 deg. 30 min. west 606 feet, thence north 39 deg. 30 min. east 339 feet, thence north 25 deg. 30 min. west 727 feet, thence north 35 deg. 20 min. west 4250 feet thence north 1 deg. west 1702 feet more or less to the townline between the Townships of Proton and Artemesia, thence north 4 deg. 20 min. west 865 feet, thence north 58 deg. east 269 feet, thence south 61 deg. east 300 feet, thence north 39 deg. 15 min. east 728 feet, thence north 10 deg. east 234 feet, thence north 28 deg. 15 min. east 1343 feet, thence north 43 deg. west 558 feet, thence north 5 deg. east 205 feet, thence north 75 deg. 15 min. east 150 feet, thence north 26 deg. 15 min. west 143 feet, thence south 71 deg. 30 min. west 272 feet, thence north 19 deg. 30 min. west 100 feet, thence north 43 deg. east 390 feet, thence north 60 deg. west 344 feet, thence south 54 deg. west 134 feet, thence north 69 deg. west 360 feet, thence north 28 deg. east 217 feet, thence north 52 deg. 30 min. west 108 feet, thence north 62 deg. 15 min. east 200 feet, thence north 24 deg. west 250 feet, thence south 89 deg. 30 min. west 229 feet, thence north 19 deg. 45 min. west 336 feet, thence south 45 deg. west 454 feet, thence south 21 deg. 15 min. west 396 feet, thence north 37 deg. west 245 feet, thence south 87 deg. 30 min. west 204 feet, thence north 50 deg. west 154 feet, thence south 77 deg. west 392 feet, thence north 65 deg. west 215 feet, more or less to where a sufficient outlet can be had in a branch of the Saugeen river, making a total distance of 18,000 feet.

Two new culverts will be required to be built, one where the drain crosses the road between lot 29, con, 17, and lot 201, Range 4 Proton, and one where the drain crosses the side-road between lot 200, con. 3. and lot 201, con. 4, Proton, and as the flow of water at these points is not large, I would recommend the putting in of a large tile drain pipe

On the Township line between lots 190, concession 3, S.W. Artemesia township, and lot 191, concession 3, S. W. Proton Township, the present culvert might do by enlarging and repairing as also the one on the concession line between concessions 2 and 3, south west, Artemesia township, at lot 190. From the culvert on the concession line last mentioned the work required is the deepening of a small stream forming part of the Saugeen river.

My estimate of the cost of the work including incidental expenses is $1000, which sum I have assessed on the lands and roads benefited thereby or assessable therefor, pursuant to the provisions of the Municipal Drainage Act.

I have estimated the cost as follows:—

To chopping, clearing, grubbing and excavating 1091 rods of ditch at $2.50 per rod.	$2757 50
Two cement culverts at $20.00 each	40 00
Repairing two culverts	17 50
Survey and Municipal expenses	185 00
Total	$3000 00

Assessment, Drain No. 26, Proton and Artemesia.

Roads of Municipality				100		
Total				$ 1171 00		

And Whereas the amount to be levied in accordance with the said report by the Township of Artemesia as it's proportion for the construction of said drainage work is the sum of $1071 exclusive of the sum of $100 assessed against the said Township in respect of the roads therein benefitted by said drainage work.

And Whereas the Municipal Council of the Township of Artemesia does not desire to appeal from the said report, plans, specifications, assessments and estimates of the said Engineer.

And Whereas the amount of the debt intended to be created by this By-law is the sum of $1071, exclusive of the sum of $100 the amount of the Municipality's share of the proposed work, and the total amount to be raised annually for paying the said debt and interest is the sum of $138.70.

And Whereas the said debt is created not only on the security of the special rate relating thereto settled by this By-law but is further guaranteed by the said Municipality of the Township of Artemesia at large, pursuant to the provisions of The Consolidated Municipal Act 1903 and The Municipal Drainage Act.

And Whereas the total assessed value of the whole Real property rateable under this By-law is the sum of $11660 according to the last revised assessment roll of the said township of Artemesia.

Therefore the Municipal Council of the said township of Artemesia pursuant to the provisions of The Municipal Drainage Act enacts as follows,—

1—The said report, plans, specifications, assessments and estimates so far as the same relate to the Township of Artemesia are hereby adopted.

2—The Reeve of the said Township of Artemesia may borrow on the credit of the Corporation of the said Township of Artemesia the sum of One Thousand and Seventy One Dollars ($1071) being the said Municipality's proportion of the funds necessary for the work and may issue debentures of the coporation to that amount in sums of not less than fifty dollars each and payable within ten years from the date of the said debentures with interest at the rate of five per cent. per annum guaranteed by the Corporation of the township of Artemesia, that is to say,—In ten equal annual instalments (interest and principal included in each annual payment) payable respectively in one, two, three, four, five, six, seven, eight, nine and ten years from the date of the same, said debentures to be payble at the Standard Bank of Canada at Flesherton, Ont.

3—For paying the sum of Nine Hundred and Forty Six Dollars the amount charged against the said lands for benefit and the sum of One hundred and Twenty Five Dollars the amount charged against said lands for outlet liability apart from lands and roads belonging to or controlled by the Municipality and for covering interest thereon for 10 years at the rate of five per cent. per annum the following total, special rates over and above all other rates shall be assessed, levied and collected in the same manner and at the same time as other taxes are levied and collected upon and from the undermentioned lots and parts of lots and the amount of the said total special rates and interest against each lot or part of lot respectively shall be assessed, levied and collected as aforesaid in each year for ten years after the final passing of this by-law during which the said debentures have to run.

4 This Bylaw shall be published once in every week for four consecutive weeks in The Flesherton Advance newspaper published in the village of Flesherton and shall come into force upon and after the final passing thereof, and may be cited as Drainage Bylaw No. 1, and may be known as the Proton Station Drainage Bylaw.

NOTICE.

Notice is hereby given that a Court of Revision will be held at the town hall, in the village of Flesherton, in the County of Grey, on Saturday, the 4th day of May, A.D. 1907, at the hour of 10 o'clock in the forenoon, for the hearing of appeals—if any—made against the above assessments or any part thereof, and for the adjustment of said assessments in the manner provided by the Municipal Drainage Act, a notice of such appeal to be served upon the Clerk of the Municipality at least ten days prior to the first sitting of the Court.

And further notice is hereby given that any one intending to apply to have the foregoing Bylaw or any part thereof quashed must, not later than ten days after the final passing thereof, serve a notice in writing upon the Reeve and the Clerk of the municipality of his intention to make application for that purpose to the High Court of Justice during the six weeks next ensuing the final passing of the Bylaw.

W. J. BELLAMY,
Clerk of the Township of Artemesia.
