THE IMPROVED CHARCOAL PIPE.

The Beau Ideal of the Smoker.

THE CHARCOAL PIPE is composed of no other ingredient than *Pure Carbon* in the form of *Charcoal*, and is manufactured in such a form and manner as—while imparting all the requisite hardness, strength, and durability—to preserve its remarkably porous and absorbent quality. It is also calculated, by its great absorption of heat in the bowl of the pipe, to cool the smoke effectually. Tobacco of a coarse and harsh description may be used with impunity; and no waste of the Weed will be experienced, as the charge may be smoked till completely consumed.

These Pipes require no inflated statements to recommend them, and need only be tried once in order to establish to the satisfaction of every smoker their great superiority over all others.

When purchasing be sure they bear the stamp, Pat'd. Feby. 12th, 1868.
