If "Bobs" Trimble gets safely through the next ten years his life may be worth insuring, but during the past six years of his existence it would have been a bad risk. He has had his full share of excitment for a six-year-old "Kid." A couple of weeks ago he was in the water with Jimmie Stafford. Bobs "swammed" out but Jimmie was pulled out more dead than alive. Saturday last Bobs fell off a load of straw and landed on his face in a bed of gravel which gave his features the appearance of a bad case of smallpox. Bobs' mother is trying to keep him in bed now, she having a wholesome fear of the next difficulty, but finds the undertaking next to impossible.

Don't Use Greasy Liniments

A century ago they were popular. To-day people want something easy to apply, certain in results, and above all a clean liniment. When nerviline is applied aches and pains disappear as the pores absorb its soothing healing properties. Nerviline penetrates to the core of the pain, eases instantly, and leaves no oily bad smelling memory behind. Good to take in, capital to rub on, and five times more powerful in destroying pain than any oily liniment. Don't fail to get a large 25c bottle.
