When That Cold Comes,

How it is to be cured? This method is simplicity itself. Rub the chest and throat well with Nerviline, use it as a gargle and take some in hot water before retiring along with one of Dr. Hamilton's Pills. Next morning finds you refreshed, free from cold and bright as a dollar. These household remedies are wonderful successful, and cetainly won't fail in your case. For sale at all dealers.

Work is progressing very favorably on the new railway, but the contractors are in need of more help. Posters are out advertising for teams at $4.00 a day to work on the road between Proton and Durham. It was understood a year ago that this portion of the road would be completed by the first of July next, but it will be some months later. Perhaps the snow will fly again before the road is in operation. There is no settlement yet between the Company and the town regarding right of way through the town, the principal hitch being over the protection at crossing at foot of Garafraxa street hill. Not only is there a difference in opinion between the Company and the Town Council but there is also a wide difference in local opinion. Some want a gate and watchman, some an electric bell, and others see nothing but death and destruction unless the hill be excavated and the town be given an overhead driveway. A decision of some kind must soon be arrived at.—Chronicle.

Colic and Diarrhoea.

Pains in the stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by W. E. Richardson.

A writer in last week's Flesherton Advance signing himself "Spectator" and his article "Shame to Priceville" berates the citizens for neglect of their graveyard and dirty and untidy habits in general. We think he is too severe. For a week or two in spring most places have a ragged appearance and this is what Spectator has been seeing. He should come again in June or July.—Durham Review.

A Case in West Arichat.

Mrs. A. P. Ferguson, a well known Cape Bretoner, has cured asthma by "Catarhozone." Her statement is convincing: "Although I was troubled for years it was only recently I tried Catarrhozone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satisfied Catarrhozone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhozone is sure death to asthma and bronchitis. Try it and be convinced. Two sizes, 25c and 1,00 at all dealers.

W. J. Winters, a Wiarton photographer, was shot accidentally on Friday. His condition is serious.

A. B. Spencer, License inspector of Collingwood, has been "superceded" by George Montgomery, whose qualifications are that he is a good citizen, a strong temperance advocate and one of the strongest partisans in the community. No reasons are given for Mr. Spencer's dimissal.

It will be of interest to students who purpose writing on the higher grade departmental examinations this summer to learn that special care will be taken by the examiners in setting the papers to avoid what is known as the "catch paper" The papers this year will deal with the work very comprehensively, but will avoid anything like "catch questions."

The members of Orillia council have taken to heart the fact that people who break the laws regarding the sale of liquor should be treated the same as people who break other laws. The Orillia police have been ordered to visit each hotel at least three times daily concerning the enforcement of the Liquor Act, and if they find liquor being supplied to persons under age, or to persons under the influence of liquor to issue a summons against the party furnishing the booze. This is as it should be.

NOTICE—The Sydenham Mutual Fire Insurance Co. contracts to pay market value for household effects, farm stock, implements, hay and grain also losses or damage in full caused by lightning at about half the cost that other companies charge. An Institution that offers such terms deserves the atronage of all progressive farmers. A post card addressed to their agent, W. J. Bowes, markdale, regarding terms will receive prompt attention.

Some disease among cattle has been taking them off rapidly. We heard of one farmer in Osprey losing eleven head this spring and another in Melanchon losing seven. Cattle in good condition and apparently healthy as well as those of a poorer class are subject to the disease, which ends fatally in a few days. Veterinaries, as well as farmers, are puzzled with the disease. Tanner McKenzie says he never, at any time, got so many hides of animals dying from disease as during the past month or two.—Dundaik Herald.

The editor of this paper purchased a brand new fishing outfit for the 24th of May, and after following the meanderings of the Saugeen River for a distance of something less than fifteen miles and catching only a few small chubs he has decided to offer for sale all and singular every part and parcel of his whole piscatorial paraphernalia, and to give up fishing as a means of livelihood. The whole outfit cost 18c and with the exception of one hook, a sinker and half of a five cent line, which may be found in a tree by the river bank, it is practically as good as new, and will be sold without reserve to the first cash purchaser who will give 25c for it. This is the chance of a lifetime. First come first served. —Durham Chronicle.
