EDITORIAL NOTES

It is not probable that there will be more than one woman elected to the next Dominion Parliament. Three are likely to go to the polls.

The electors will do well to keep the scandal circulators at home. The cause that has merit in it requires no aid of misrepresentation or abuse.

Diwan Bahadur Sir T. Vijayaraghavacharya, a distinguished leader in the great Indian Empire, opened the Toronto exhibition. If you can pronounce his name at the first attempt you certainly cannot be accused of going beyond 4.4 as a beverage.

"Tell me, doctor," said an inquisitive patient to a Toronto specialist the other day, "have you ever made a serious mistake in your diagnosis of a case?" "Yes," said the medico frankly, "I once told a man that he had a touch of indigestion. Later I found that he was rich enough to have had appendicitis.

There are three things which the average Canadian man thinks he can do: run a newspaper, another, build a fire, and the third is, boss a wife. How often, too, he lives to find out his mistake.

Less than one week now until election day. The nominations this week have settled who are to go to the polls. There are fewer candidates than at the general election last year, an effort being made by Liberals to have a straight contest with the Conservatives rather than a triangular struggle. Who can tell what will be the result?

Unity U.F.W.O. club held the regular monthly meeting at the home of Mrs. John Hargrave on Wednesday last. Owing to the busy season the attendance was small. The president occupied the chair and opened the meeting as usual. A splendid paper was given by Mrs. Lewis Genoe entitled "The Joy of Being a Housewife." She was asked by request to give it again at the next meeting. Mrs. John Hargrave gave a good reading on the life of Abraham Lincoln, and community singing followed. The meeting closed with singing of the National Anthem. Dainty refreshments were served and a social time was spent. The next meeting will be at the home of Mrs. W. T. Pedlar in October.

Two Sure Roads to Farming Prosperity

Protect the Home Market

For Canada, more especially for Ontario and Quebec, the stage is all set for a tremendous development.

The fabulous wealth of our North Country—now established beyond question—needs only the assurance of honest and stable government to attract capital and immigration on a scale that will inaugurate a period of unprecedented prosperity. A few years hence in Ontario there may easily be a population of 1,000,000 north of the Great Lakes and the Ottawa River.

All of which means a big and profitable market for farm products. That market **should** be reserved exclusively for Canadian farmers. Elect a Conservative Government, and it **will** be so reserved. For the Conservative Party stands pledged to see that the Canadian farmer is as adequately protected in this market as the United States farmer is in his.

As Mr. Meighen stated at Midland on August 3rd, "We will make it as hard for the American farmers to get their surplus shipments into Canada, as they are now making it difficult for the Canadian farmer to get his surplus into the United States."

Promises are Good -- but Actions are Better

For the United States farmer, the season for "seasonable" produce — all kinds of fruits and vegetables — opens much earlier than it does for you.

When your cherries, or your tomatoes, are first ready to pick, his production of cherries or tomatoes is at its peak.

Heretofore, in order to avoid breaking prices in his own market, he has been accustomed to dump his surplus production on yours.

In less than three weeks from the time it took office, the Conservative administration effectually stopped this practice by rigid enforcement of the dumping regulations!

What Others Have Done You Too Can Do!

The farmers of Canada have shown that they can march abreast of the whole world in quality production. Also they have made giant strides in increasing the quantity of their production.

But in the business-like, efficient marketing of their products they have failed to keep pace.

Little Denmark has developed a system of co-operative marketing that has made her one of the most efficient and prosperous agricultural countries in the world. Australia and New Zealand have both made the orderly marketing of their products a matter of national policy.

Don't let Canada lag behind any longer!

Co-Operative Marketing

Every farmer who knows his business hopes to

—produce in larger quantity, and still be able to sell the increase without breaking the market;

—produce in a better quality, and obtain the premium to which he should thereby be entitled.

Both hopes can be realized — quickly and in full measuse — through co-operative marketing!

The proper procedure as regards organization, the proper technique as regards standards, grading, etc., and the proper methods of financing, are now an open book that all who will may read and profit by.

In the five years he was in office, Mr. King did absolutely nothing to bring the blessings of co-operative marketing within reach of Canadian farmers. But—

Mr. Meighen stands pledged, if returned to power—to quote his own words from an address delivered in Ottawa on July 20th—"to put into force such a policy as will enable the farmers of Canada to build up a marketing system which will compare in efficiency with that of any agricultural country in the world."

And this pledge will be carried out, even as Mr. Meighen's pledge to stop the dumping on the Canadian market of United States fruits and vegetables has already been carried out!

Yours is the choice—yours the responsibility—on September 14th. If you would unlock the double door to prosperity, the key for which Mr. Meighen offers you—
