When Your Back Hurts.

Of course it's hard to work. Stooping over hurts, lifting is tedious, and you wonder what to do. Ever try Nerviline? Nothing like it for weak or lame back. It penetrates to the core of the pain, eases from the first application, brings cure that defies a relapse. No liniment is so clean, so soothing, so certain to kill muscular, rheumatic or sciatic pains. Your dealer sells Polson's Nerviline in large 25c bottles Why not try it?

Mutilated Coin.

Perhaps there are many people who are not aware of the fact that, to tender in payment fer any purchase, or otherwise try to pass any coin of the realm however slightly mutilated, or defaced except through the process of long circulation are subjecting themselves to a heavy penalty, and as ignorance of the law is no plea for its transgression, people cannot be too careful in giving or receiving change. A few days ago, the writer sent an order to one of the leading publishing companies in Toronto accompanied by ten cent pieces in payment. A few days later I received a letter from the firm stating that the order had been received and would be promptly attended to when proper currency was remitted as one of the coins was found to be plugged. On carefully examining the coins which were returned to me I discovered that a small hole had been drilled through one of the coins (a comparatively new one) probably for attaching it to a watch chain, but the hole had been so neatly plugged with lead or some other base matal, that it is quite possible the coin might pass through a thousand different hands unnoticed, a small dark speck only being visible. Some time ago I read of a man in Montreal who went to a dentist to have a small cavity in a tooth filled. The dentist, being at that time out of filling material, took from his pocket a quarter dollar piece, from the rim of which he clipped a small piece of silver to fill the tooth. The man tendered a bill in payment, and in making change the dentist gave the man the quarter dollar piece from which he had taken the clipping. Straightway the man laid information against the dentist, producing the coin in evidence, and the dentist was heavily fined for tendering the coin of the realm which he had thoughtlessly mutilated.

Proton Station Garden Party.

The Ladies Aid of Proton Presbyterian Church held a very enjoyable garden party on the church grounds Friday night last. In the evening there was a base ball match between teams from Proton Station and Bethel. The game resulted in a victory for the Proton team, the score being 16-8. After the game all repaired to the church grounds where tea was laid. After tea a short but enjoyable program was given, consisting of choruses, solos and recitations. The Proton choir opened the program with a well rendered chorus. Miss Saunders delighted the audience with several recitations, being heartily encored each time. Miss Saunders is a clever reciter and her efforts were highly appreciated. Miss Madge McLean, of Toronto, rendered a solo and responded to a hearty encore. Miss McLean possesses a splendid soprano voice and is always listened to with pleasure by a Proton audience. Miss K. Prickett, of Toronto Junction, also sang a solo in a very pleasing manner. She was encored and responded with another pretty solo. The Flesherton Citizens' Band was in attendance and gave a bountiful supply of music, both before and during the program. This is the first time for a numbr of years that this band has appeared in Proton and they created a very favorable impression. The proceeds of the garden party amounted to over $60. Mr. Neil McCannell acted as chairman.
