For Those Who Cannot See

In making his annual appeal to the readers of Ontario newspapers for information which will enable him to locate the children and youths of both sexes who are eligible for admission as pupils of the School for the blind at Brantford, Principal Gardiner asks The Advance to call public attention to the need for some institution where the adult blind may be instructed and employed. General experience has demonstrated the inadvisability of combining a workshop for adults with a school for children under one management, yet the blind adults, who far outnumber the children of school age, should be no longer neglected. In New York State, it has been ascertained by careful inquiry that out of 6,008 blind persons only 584, or 9.73 per cent of the total number, are under 21 years of age; 3,193, or 53.14 per cent. are over 60 years of age; while 1,386, or 22 88 per cent. are between the ages of twenty-one and fifty—in prime of life and capable of being rendered in whole or in part self-supporting. It is probable that the percentages in Ontario are similar to those in New York. Many lose their sight by accident after passing school age, and many who have been blind from birth or childhood need help and direction in order to work profitably. In California, Connecticut, the District of Columbia, Illinois, Indiana, Massachusetts, Michigan, New Jersey, New York, Ohio, Pensylvania and Wisconsin workshops or "homes" have been provided, and in Washington, Colorado and other states the matter has been taken up by Women's Clubs and other associations of philanthropic ladies, whose influence upon public opinion and the Legislatures will certainly effect the desired result.

The first necessity is to get an accurate knowledge of the facts, and to this end Mr. Gardiner will gladly receive information relating to blind residents of Ont. of all ages (names and post-office addresses.) Those under twenty-one years of age, not deficient in intellect, and free from disease and physical infirmity, who are blind, or whoes sight is so defective that they are unable to read ordinary type and attend a school for the seeing without serious injury to the sight, should attend the school at Brantford, which is maintained by the Provincial government for their benefit. A letter or a post card, addressed to the Principal, will receive immediate attention.

PRICEVILLE

The Jubilee services in the Presbyterian church on the 7th and 8th were a great success. Rev. Alex. McGillivary of Bonnar church, Toronto, preached to very large congregations morning and evening on the 7th. The services in the Methodist church were withdrawn, and almost the entire congregation attended the Jubilee services. The pastor of Bonar church labored here 31 and 32 years ago and was a great temperance worker. At the morning service a hymn was sung with great enthusiasm which was written by the late Rev. James Cameron, who labored here as a student in the early days, and afterwards died in the mission field of India. We believe he was the first to form singing classes, and to instruct the young people in vocal music. The closing hymn was an old Methodist one, written by Charles Wesley, "The year of Jubilee," and the singing of it fairly made the house ring. Everybody in the vast congregation seemed to be singing. The entertainment on the 8th was also successful. The proceeds from it and the Sunday collections totalled over $100.

Rev. Mr. Berry and family have moved into the Methodist parsonage and he preached his first and very acceptable sermon to a good sized congregation on the 14th inst.

Committees are appointed and arrangements are in progress for holding a garden party on the parsonage grounds on Aug. 7th.

Rev. J. A. Matheson and family are camping among the islands near Midland.

A great many fields of oats are attacked by a parasite and the crop is turning brown and is almost worthless.

The biggest trout reported so far this season was caught by Mr. T. F. Lockart in the Saugeen River at Hugh Wilson's on Monday. This speckled beauty, weighed Tuesday morning, tipped the scales at a little over three and a half pounds. Tom took about half an hour landing his prize and has not fully recovered from the excitement of the tussle yet. Mr. Bell assisted in the landing process, and it is thought if weighed on being taken from the water it would go very close to four pounds.—Dundalk Herald.
