Stone Settlement

After having spent three years in the House of Refuge your cor. has again returned to his old neighborhood where it is his most ardent desire to spend the rest of his days. Forty-one years ago he first came to this neighborhood which was at that time a comparatively new settlement and little dreaming that he would ever have to seek the shelter of a House of Refuge, but a veil is thrown over the future into which none can look and foresee the misfortunes which may fall to the lot of any of us, and perhaps it is good for most of us that such is the case. The recollections and associations of the many years has endeared this locality to me as second to none in this world, almost obliterating from my memory my native English birthplace. With one or two exceptions the old and hardy pioneers of this section have either passed over to the silent majority or are ending their days in other parts. Their pioneer homesteads have, in some cases, passed into the possession of newcomers, while others are now occupied by those who, forty-one years ago were but small children of the early settler, but now heads of families reaping to a great extent the benefits of their deceased but honored parents. Notwithstanding the many changes that have taken place during those many years, the pleasant recollections of those early days are indelibly fixed in my memory and frequently pondered over in pleasurable delight, marred only by the sorrowing recollections of the departed loved ones. It is gratifying to observe that even in the last three years of absence from the neighborhood, the steady progress and improvements that have been made all along the line. To enumerate in detail would occupy too much space, suffice it then to say that prosperity seems to abound in every direction we look and which we sincerely trust will continue to abound.

Hay making is now in full swing and although the crop is generally light still there are some meadows which are yielding a very fair crop and we think that all will have enough for home consumption, while some will have enough and to spare.

Mr. James Beattie has built a stone basement for his barn, which we are informed he will move next season on to the stone work situate a few rods distant from the present site of the barn. Mr. Harry Spicer did the masonry.

Mr. and Mrs. Jamieson of Rocklyn paid a flying visit to Mr. and Mrs. Henry Stone on Monday last.

Mrs. James Fletcher Sr. is paying a return visit to her daughter, Mrs. McDonald of Creemore. I have not seen Mrs. Fletcher since returning to the line but am sorry to hear that she is in very poor health, suffering severely from rheumatism, but we hope she will be benefited by her change of air.

Mrs. John Hazzard contemplates leaving in a few days for Sluggett, Sask. N. W. T. to reside with a married daughter who is daily expected to arrive to take her mother back with her. Mrs. Hazzard has been a resident on this line for forty years having moved here with her husband and family in the spring of 1867. Mr. Hazzard died 12 years ago. We hope Mrs. H. may live many years in comfort with her daughters in their new home. Her oldest son Gervis has rented the homestead for five years.

The Editor of The Advance having supplied the writer with stationary with a request that he will take up the correspondence for the Stone Settlement the position he filled for several years previous to going to the House of Refuge but as he is not able to get about as formerly, he requests that those intending making visits to or receiving visitors, or any other matter which they desire to be published in this column, he will cheerfully and couteously attend the same if they will kindly hand him in the particulars.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera And Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonal. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowles. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera add Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—Sam. H. Gwin, Concord, Ga. For sale by W. E. Richardson.

Mr. F. H. Miller, M. P. for South Grey, has indulged his fondness for horse flesh by purchasing a thoroughbred Arab colt at Newburgh, New York. It is a one year old bay driver and has quite an interesting pedigree. The dam of the colt was one of a number of Arabian horses sent from the Arabian desert on exhibition at the world's fair Chicago. The sire is a son of the famous Kesmet, perhaps the fastest Arabian that ever left the desert. The colt was bred by Rev. F. Vidal, of England, a great admirer of the Arab horse.—Post.
