

ON THE MAIN STREET

Feb. 15/69

Is Lindsay ready, can Lindsay afford a semi-plush Business Men's Club? There are a number of business men (industrial, mercantile and professional) who feel that such a Club is necessary and that it would add to the status of the town and induce outsiders to fraternize the Club. According to one advocate for a Business Men's Club it would mean the possible erection of a three storey building of modern design, in a place where men could congregate for private business discussions, served with good meals, enjoy a refresher if desired in the swimming pool or work out in

the game room and a gymnasium.

There would be a banquet room to accommodate four or five hundred, a room to accommodate service Clubs for their meetings and on the third floor a number of dormitories where business men from out of town could secure comfortable and reasonable sleeping quarters.

It would be a home for large and small conventions and all in all a club run on business principles for business men.

What sayest thou? Would it pay it's way, would it secure the necessary membership? The idea is being turned over in the minds of some business men who are prepared to make an investment.
