Experiments With Autumn Sown Crops

The areas used for sowing wheat and other autumn crops was somewhat greater throughout Ontario in the fall of 1906 than in that of 1905. At the Agricultural College this year winter wheat and winter rye have produced large yields of grain which is above the average in quality, but the winter barley and the hairy vetches have given results somewhat lower than those of 1906.

Generally speaking, white wheats, as compared with red wheats, yield more grain per acre, possess stronger straw, weigh a little less per measured bushel, are slightly softer in the grain, produce a more popular pastry flour, and furnish a somewhat weaker flour for bread production.

Of the white wheats, Dawson's Golden Chaff and other very similar varieties such as Abundance, American Banner, Beardless Rural New Yorker No. 6, American Wonder, Superlative, Forty-fold, Prizetaker and Extra Early Windsor; and of the red wheats, Imperial Amber, Paramount and Crimean Red have produced the highest yield of grain per acre in the college experiments. In the following characteristics the varieties mentioned below are very prominent: stiffness of straw, Dawson's Golden Chaff Prosperity, Economy and Early Ontario; hardness of grain, Buda Pesth, No. 5 Red, Crimean Red, Banatka, Tasmania Red and Geneva; weight of grain, Northwester, Auburn and Geneva; and milling quality of grain, Tasmania Red, Rudy, Onigara, Crimean Red, Yaroslaf, Turkey Red, Early Genesee Giant, Banatka, Northwester, Geneva and Imp. Amber.

We are endeavoring to improve some of the best varieties of winter wheat by means of systematic selection and by cross fertilization. Each of eight different selected strains of Dawson's Golden Chaff wheat gave a yield of over 70 bushels of grain per acre in 1907. Some of the most promising hybrids, which are constant in type this year, are those produced by crossing the Dawson's Golden Chaff with the Bulgarian, and with the Turkey Red. The object in crossing is to originate new kinds which will combine the good qualities and eliminate the undesirable features of parent varieties.

The results of many tests at the college indicate the importance of sowing with a grain drill, large, plump, sound well matured seed wheat at the rate of about a bushel and a half per acre on well prepared clover sod, and earlier if possible than the 10th of September. Smutted wheat should be immersed for 20 minutes in a a solution of one pint of formalin and 42 gallons of water.

The recent tests at the College of other classes of autumn sown crops show the following varieties to be the heaviest average yielders of grain per acre: Mammoth White Winter Rye, 62 bushels; Tennessee Winter Barley, 53.4 bushels; Hairy Vetches, 5.7 bushels

In the co-operative experiments, conducted throughout Ontario in 1907 under the direction of the Experimental Union the average yields of grain per acre were as follows: Winter wheat—Imperial Amber, 22.2 bushels; Abundance, 21.7 bushels; and Michigan Amber, 20.3 bushels, and of Winter Rye—Mammoth, 26.4 and Common, 21.4 bushels.

DISTRIBUTION OF MATERIAL FOR EXPERIMENTS.

As long as the supply lasts, material will be distributed free of charge in the order in which the applications are received from Ontario farmers wishing to experiment and to report the results of any one of the following tests: 1, Hairy Vetches and Winter Rye as fodder crops; 2, three varieties of Winter Wheat; 3, Five Fertilizers with Winter Wheat; 4, Autumn and Spring applications of Nitrate of Soda and common salt on Winter wheat; 5, two varieties of Winter Rye. The size of each plot is to be one rod wide by two rods long. Material for numbers 3 and 4 will be sent by express and that for the others by mail.

C. A. ZAVITZ.

O.A.C., Guelph, Ont.

Miss Eleanor Layton, ex-postmistress of Meaford, died at Collingwood last week.

Ernest Rowe, 21 years of age, lost all the fingers on his hand by coming in contact with a planer in Sparling's factory at Meaford.

Wm. Davie, a young Scotchman, committed suicide by taking paris green on the farm of his employer, James Shaw, Riverson. He was a steady, respectable young man, and no cause can be assigned for his rash act.

Mrs. W. J. Juniper of Meaford was badly burned by the explosion of a lamp, which set fire to her clothing. The house was set on fire but the firemen succeeded in extinguishing the flames before much damage was done. Mr. Juniper had his hands burned in attempting to save his wife.

The organ factory at Uxbridge was destroyed by fire a few days ago. The loss is estimated at $38,000 with insurance of $13,500. The loss will be severely felt in Uxbridge as the factory will not be rebuilt. Forty mechanics have been thrown out of employment.

At Moorefield, since local option closed one of the hotels, the township authorities have been busy making use of the fine, spacious building, which is of white brick. The building has been greatly enlarged and thoroughly renovated so that it now affords an exceptionally fine township hall, one of which the authorities and the residents of the township feel justly proud.

Robert Lunney, the Chesley man who was so seriously kicked by a horse four weeds ago, has since been cared for in the Owen Sound hospital, and returned to his home a few days ago. He is somewhat disfigured, but no permanent injury will result, although his escape from death was miraculous.

On Tuesday morning the fine bank barn of Thos. Jackson, Mono and Amaranth townline, a short distance north of 15 side-road, was totally destroyed by fire. The barn contained the hay and barley crop of this year. The fire was caused by sparks from a fallow which had been cleared up. The barn was built three years ago and was a fine structure. The loss will be fully $2500 and we understand that the insurance is about half that amount.—Grand Valley Star.

Mrs. Gilroy, a Mount Forest lady, fell down stairs and broke her wrist.

The Berlin Telegraph man has been made the victim of a vile conspiracy. Somebody got him to print the particulars of the sudden death of the wife of F. G. Gardiner, the edition being no sooner off the press than the amazed editor learned that the item was an account of the sudden death of the citizen's first wife, twelve years ago. The Telegraph had to say it was delighted that the present Mrs. Gardiner did not suffer an untimely death, and it apologized for the "very regrettable character" of its mistake. The citizens of Berlin have an excusable cause for levity.

STEVENS

IN CAMP OR FIELD—AT MOUNTAIN OR SHORE
There is always a chance to enjoy some shooting
TO SHOOT WELL YOU MUST BE EQUIPPED WITH A RELIABLE FIREARM; the only kind we have been making for upwards of fifty years.

THE OWEN OUND

Collegiate Institute

Re-Opening

Tuesday, september 3rd, 1907

The Owen Sound Collegiate Institute will reopen for the Fall term on Tuesday, Sept., 3rd, at 9 a. m., when pupils will be enrolled and classified, and classes organized for the general Course; the Commercial Course; for all grades of teachers' Certificates; for pass and Honor Marticulation, and for entrance into all the learned professions.

STAFF AND EQUIPMENT—The Staff consist of twelve teachers, ALL SPECIALISTS and men of the highest professional standing. The equipment is thoroughly modern and among the best in Ontario.

MANUAL TRAINING and HOUSEHOLD SCIENCE —Rooms have been thoroughly equipped at a cost of over $1200, and the students of the lower forms receive instruction in these important departments.

COMMERCIAL COURSE—To meet the demand for a better commercial education, the Board has a thoroughly equipped Commercial department, and instruction is given in the several subjects required for a good business education including practice in Shorthand and Typewriting. The student who successfully completes this course is granted a diploma by the Collegiate Institute Board.

For the past seven years Owen Sound Coll Inst. has prepared more teachers than any other school in the Province.

TERMS—The fees are: For pupils from the Counties of Grey, Bruce, Wellington, Dufferin and Simcoe, ten dollars; from other counties, twelve to fifteen dollars.

For Annual announcement or other information, Apply to THOS. MURRAY, Principal.
JNO. RUTHERFORD, Sec-Treas.

Voters' List

TOWNSHIP OF OSPREY.

NOTICE is hereby given that I have transmitted or delivered to the persons mentioned in sections 5 and 6 of "The Ontario Voters' Lists Act" the copies required by said sections to be so transmitted or delivered of the list made pursuant to the said Act, of all the persons appearing by the last Revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at Municipal Elections and the said List was first posted up at my office at McIntyre on the 17th day of August, 1907, and remains there for inspection.

Electors are called upon to examine the said List and if any ommissions or other errors are found therein to take immediate proceedings to have the same corrected according to law.

Dated this 17th day of August, A. D. 1907.

THOS. SCOTT, Clerk Twp. of Osprey.
