EAST MOUNTAIN

Mr. and Mrs. Clarke Teed of Duncan spent Sunday with Mr. and Mrs. E. Thompson.

Mr. Thomas Hall and Miss Gladys are visiting friends in Toronto this week. Mr. Hall is consulting a specialist. We hope to see him return much improved in health.

Mr. Carl Humberstone is selling the Rawleigh goods in this neighborhood at present. Success, Carl.

Mr. Cecil Smith of Duncan spent the week end with friends here recently.

Mr. and Mrs. Ernie Thompson entertained a number of their friends on Saturday evening last.

Rev. W. Cullis of Heathcote held prayer meeting on Thursday evening at the home of S. H. Smart. It was well attended.

We failed to mention last week that Miss Mary and Mr. Ed. Orr of Orangeville visited for a few days with Carl and Alma Humberstone.

PROTEST IN BRUCE.

Walkerton, Jan. 16.—A protest against the election of A. P. Mcwhinney, Liberal candidate in the Provincial election in North Bruce last December, was filed with the Supreme Court at Walkerton, on behalf of Major W. H. Fenton, unsuccessful Progressive candidate. The general grounds of the protest are similar to those in the protest in South Bruce, namely, that a third candidate was offered monetary inducement to retire from the contest.

The vote in South Bruce was: Mcwhinney, Liberal, 3,575; Byers, Conservative, 2,945; Fenton, Progressive, 2,856.

TENDERS FOR TILE MOULDS.

Tenders for the purchase of Tile Moulds now owned by the Township of Osprey, will be received by the undersigned up to and including February 11th, 1927. There are four moulds of the following sizes: 10, 15, 18 and 20 inch. The purchaser must be a resident of the above named Township, and will be given the privilege of supplying the Township with cement tile, provided they are made at a reasonable price.

—H. G. BURKE, Clerk.

"Parents used to spank children and send them to bed," says the Petrolea Advertiser-Topic, "and they might do it yet if the children would get home in time.

NOTICE.

ANNUAL MEETING.

East Grey Agricultural Society annual meeting will be held on Thursday, January 20th, at 2 p.m. Be a booster and come.

R. RICHARDSON, President.
S. E. deCudmore, Sec.-Treas.

IN MEMORIAM

GAMEY—In loving memory of dear sister Maria, who departed this life Jan. 12th, 1925.

Not gone from memory or love,
But to her heavenly home above.
Ever remembered by
—Sister Aggie and Family.

IN MEMORIAM

GAMEY—In loving memory of my sister, Maria, who passed away Jan. 12th, 1925.

As we loved her, so we miss her;
In our memory she is near;
Loved, remembered, longed for always
Bringing many a silent tear.
—Sister Millie.

Percy Heasman, Township of Floss, lost fourteen hogs recently. Thinking it might be cholera he summoned a government inspector from Toronto, who, after a thorough examination, decided death was caused by indigestible matter in the stomach and intestines.

NOTICE TO CREDITORS

IN THE ESTATE OF LOUISE DUCKETT, late of the Township of Artemesia, in the County of Grey, married woman, deceased.

NOTICE is hereby given that all persons having claims against the estate of the said late Louise Duckett, late of the township of Artemesia, are required on or before the 31st day of January, 1927, to send to William Ernest Morgan, Eugenia P.O., Ont., or James Leonard Latimer, Eugenia P. F. T. HILL & Co., Limited, Markdale

A BOYS 'ESSAY ON THE GOAT.

"A goat is about as big as a sheep, if the sheep is big enough. A female goat is called a buttress, a little goat is called a goatee. Goats are very useful for eating up things. A goat will eat up more things than any animal that ain't a goat. My father got a goat once. My father is an awful good man. Everything he says is so, even if it ain't so. This is all I know about goats.

Does your radiator leak? Try white of egg—an old farmer's remedy, which several motorists have used with success. The theory is that after the white of eggs is poured into the radiator the hot water carries it to the leak and cooks it there until it becomes virtually hard boiled. The remedy has lasted in some cases for two or three years at a stretch, indicating that the egg does not rot even in that length of time, or else attracts enough sediment to keep the hole plugged up.

O.A.C. NO. 144 OAT

NEW VARIETY WHICH IS NOW TAKING THE LEAD.

Now Eligible for Registration In Canada—Interesting Notes on Soil and Dairy Matters.

(Contributed by Ontario Department of Agriculture, Toronto.)

Within the past three years the O. A. C. No. 144, which is a new variety originated at Guelph, has made a particularly high record throughout Ontario, as can be seen from the following table:—

VARIETIES	STRAW (TONS)		GRAIN (BUSH.)	
	1925	AVER. 3 YRS	1925	AVER. 3 YRS
O.A.C. No. 144...	1.43	1.53	53.20	52.32
O.A.C. No. 72.....	1.35	1.40	51.54	48.21
O.A.C. No.3.....	1.06	1.06	41.48	41.39
Liberty Hulless	1.22	1.28	32.30	33.53

Of all the varieties, strains and hybrids of oats grown in the experimental plots in 1925, the O. A. C. No. 144 gave the highest yield per acre as it did in 1924. At the annual meeting of the Canadian Seed Growers' Association which was held last June at Edmonton, Alberta, this new variety of oats was accepted as eligible for registration in Canada. This is the only variety of oats which has been added to the eligible list for several years.

The O. A. C. No. 144 variety of oats was started from a selection taken in 1912 from amongst plants of the O. A. C. No. 72 variety. It is decidedly different, however, from the latter and seems distinct from any other of three hundred or more named varietions of oats which have been tested for five years and upwards at the Ontario Agricultural College.

The O. A. C. No. 144 is a tall, vigorous, broad-leaved, exceptionally stiff-strawed, late variety of oats which possesses a spreading head and a long, slightly brownish white grain practically free from awn and which produces a heavy yield of both grain and straw of good quality. The ripening crop has a beautiful appearance with a golden tinge.—Dept. of Extension, O. A. College.

DAIRY NOTES.

Don't Overfill the Churn.

Butter of good quality can be made by separating fresh whey at the cheese factory and churning the whey cream, with or without ripening the cream.

Skim-milk powder mixed at the rate of one pound of powder to nine pounds of pure water makes a good culture or starter for ripening cream where it is considered advisable to ripen cream for churning.

Overloaded churns cause a heavy loss of fat in the buttermilk. Churns should not be filled over one-half full of cream.

The acid-alcohol test for skim-milk and buttermilk shows that the losses of fat in dairy by-products is much greater than is commonly supposed—about double that shown by the ordinary Babcock method of testing.

Skim milk and buttermilk may be condensed or powdered and then be used for feeding pigs and poultry with satisfactory results. The advantage of this plan is that it reduces the bulk and puts it in condition where it will keep in storage.

Sour cream may be "neutralized" with bicarbonate of soda and be used for ice cream manufacture. "Improvers" or "ripeners" shorten the time required for ageing the cream without lessening the overrun and without deteriorating the quality of the ice cream made by their use.—Dairy Department, O. A. College.

QUALITY AND PRICE.

The Price Difference Is the Stimulus for Improvement.

The market demands quality, every article of farm produce needs be like every other article of the same grade or class. Buyers demand this and if they do not get it they go where uniformity of grade and quality standards are maintained. On farms where the production is mixed, this is mustard and oats, chickens of all colors and shapes, or pigs of various descriptions, etc., quality products are not in evidence. So the first move toward quality products is either a specialized or diversified type of farming where the elements of production are at least themselves uniform, and capable of producing quality.

Get started right this spring. Use the best grades of the best varieties for seeding, eggs from the best hens for hatching, and live stock of a type that is likely to produce market toppers. High quality goods are always in demand at fair prices.—Dept. of Extension, O. A. College.

Small Advertisements
