A Storehouse for Poisons.

You may not think so, but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowles, restore the liver and stimulate all excretory secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Butternut Pills 25c at all dealers.

Not satisfied with their prowess as reported last week in the way of catching big fish, G. B. Richardson and R. D. Sloane had another try at it at Mulmur Lake Friday last, in company with J. D. Madill. They didn't do so bad, either, for they landed a trout measuring 2 feet 7¾ inches in length; girth, 16 inches; and weight 10¼ pounds. They'll have to go some to beat their own records—Economist.

Cards of thanks are often found in the local newspapers after death occurs in a family. For some time we have decidedly objected to the publication of obituary poetry at less than ten cents a line. Since a fixed charge was made we have had none to publish, and to kill the practise was our sole object in fixing the rate. Most of the obituary poetry is not fit to publish, and we think that friends of the deceased will agree with us when their sorrow wears off. Cards of thanks are a little different, but they are quite as unnecessary. In times of sickness persons with a spark of humanity in them will render what assistance they can and will never think of the formal Card of Thanks.—Durham Chronicle.

The big Fair at Toronto is over and in regard to special attractions was not up to last year's standard The siege of Badajos is a mighty tame affair. It would require a wonderful power of imagination to make any one, let alone a military man, think the fireworks scene and band parade resembled the taking of the celebrated Spanish fortress by Wellington. Manager Orr has a very mild conception of a siege. In the performances before the grand stand there were the same old fool tricks and acrobatic performances, the trained elephants, the lion trainer and her three pets, and the horseback performances with the same horses as last year. Manager Orr must get something new or go out of the special attraction business. Of course the Toronto papers whose reporters are loaded down with press courtesies give the big fair a great boom, but the truth is Toronto Fair is on the down grade despite the big grants it receives from the Dominion and Provincial governments. Perhaps this item may cut us out of a press ticket next year, but never mind, we have had the satisfaction of giving our candid impression of Toronto Fair, having had opportunities of seeing it for the last three consecutive years.—Chesley Enterprize.
