—Mary R. Stewart, Teacher.

Initiative

Initiative, inventive genius, skill in management, creative faculties—all these desirable attributes are often valueless without supporting reserves of cold, hard cash.

The bank balance is more than a set of figures on a ledger—it is a counterpoise in the forward career, a balance wheel in successful business.

Make a habit of saving—more than that, make a confidant of the Bank of Toronto manager—he will systematize your business or personal financing on a sound foundation of trained service.

THE BANK OF TORONTO 302

BRANCHES:
FEVERSHAM—C. H. Smith, Manager.

FOR SALE — Choice re-cleaned Alberta oats 84c. per bu.; also have white Western oats at 63c. per bu. We can save you money on feed or seed.—A. C. Muir, Phone 2 r 31.

WANTED — Farmers, Farmers' Sons and others can find pleasant, profitable employment during their spare time in the next three months taking orders for our government certified trees, shrubs and plants. This work consists of selling only and we pay liberal commissions weekly and equip you with complete colored sample books and outfit free of charge. Now is the best time to commence. Write at once to Welland Nursery Co., Welland, Ont.

TAKE WARNING—Hunting and trapping on lots 176, 177, 178 and 179, S.W.T. & S.R., and one lot, No. 177 north-east T. & S.R., strictly forbidden. Any hounds found trespassing on said lots will be shot.—Thos. J. Stinson.

FARM FOR SALE OR RENT—200 acres, 90 acres cleared, and 90 acres of good bush, 50 of maple timber; 50 acres seeded to timothy, sweet and other clovers; 20 acres pasture land, seven-room frame house, barn 30x50 with stone foundation, good straw shed, implement shed 25x18, small orchard. All buildings in fine condition, good well, etc. The farm is situated about two miles from Hopeville. Will sell for $6,000 or rent for a term of years. Apply to —Wm. J. Jackson, Box 95, New Toronto, Ont.

Owen Sound Team is the O.H.A. Champion

By virtue of their win on Toronto ice last Thursday evening against Newmarket by the score of 5-1 Owen Sound are acclaimed champions of the Ontario Hockey Asociation when Newmarket was not able to secure any more than a 2-2 score on Tuesday evening in the return game, also played in the Toronto arena. It is a significant fact that for the past four years Owen Sound has had a team in the punior finals of the O.H.A. and were twice champions, once going right through to the Dominion championship. What they do this year remains to be seen. The Greys have a fin outfit, fast in breaking and can shoot on the goal from any angle, an asset which is very valuable to any team. It is claimed that the front line of the Greys is equal to that of the famous team of 1924 which won he Dominion honors. The fans are watching Owen Sound and applaud their good playing and wish them a satisfactory quest for the Memorial Cup.

The Big Co-Op.

The Big Co-Op. can fix, and force buyers to accept fair and uniform grades; can establish its own brands and maintain an exclusive market for them through advertising.

The Big Co-Op. can develop new uses for a product; can find new markets where none existed previously; can usually find a sale for low grade products, without damaging the market for higher qualities.

The Big Co-Op. can make sure of the credit of the buyers, and fight fraud; and can establish retail outlets for its products when necessary.

The Big Co-Op. can blend and process the product, and collect the profits thereof.

The Big Co-Op. can demand and secure better railroad service, and the cheapest storage and insurance rates.

The Big Co-Op. can sometimes sell the product direct to the manufacturer, exporter, or retailer, reducing speculative danger and colecting the intermediate profit. A single farmer or a small Co-Op. can not do this.

AN AID TO THE STAPLES.

When Fencing Rough Land Nick the Posts.

The up and down pull exerted on the staples used in keeping wire fencing in position is often so great as to loosen and extract the staples holding the wires to the posts on higher ground. A sagging fence is worse than useless as it tempts stock to go over and may cause them injury. All wires may be kept tight and in place by simply cutting a shallow notch in the post where the wires are to be held and then resting the wire on the shoulder of the notch. The post will then support the pull whether up or down, and the staple can do its part in holding the wire in to the post, all that a staple is intended to do.—L. Stevenson, Director of Exter[illegible] O. A. College.
