Mr. Rodger has accepted a call to the pastorate of Knox Church, Owen Sound, and was preparing to move to that town. We notice by exchanges that a strange animal is developing in many places. The scientific name of this animal is, we understand, the "Sunday Hunter" and it is considered a pest. No positive exterminent has been discovered, but the inventive genius is on the war-path and we will probably hear of this animal's speedy riddance. No specimens of this animal have been discovered around Flesherton—hunting is too poor at any time and the climate is a trifle warm.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.
