Buying on the Installment Plan

Purchasing commodities by paying "a dollar down and a dollar a week" has grown into great popularity. Often the object purchased is worn out before it is payed for, and the purchaser continues to pay. Buy yourself a fortune on the installment plan by placing regular instalments of your earnings in a Standard Bank savings account. The money is always available for use if required and there is no depreciation, but accuring interest as time goes on.

"CUTTING IN" DANGEROUS

"Cutting in" is one of the greatest causes of accidents on the highways at the present time. There are too many drivers who dash around a car and try to squeeze in to a space in the line of traffic that is already crowded. The result is not anly the "cutting-in" car, but also the other cars in the immediate vicinity are forced to manoever quickly to avoid piling up on each other. It is appreciated that some drivers do not wish to poke along behind a slower moving car. But before trying to pass, they should make sure that they will be able to round the car in front and get in the right line of traffic without causing danger to everyone else on the road.
