BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princess' St. Bank, London.

CAPITAL ONE MILLION STERLING.

Empowered by Special Act of Parliament, 4 Vict., Chap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great, and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction as to enable parties to avail themselves of the important benefits to Life Assurance at *much lower Rates of Premium than those of any other Insurance Company transacting business in Canada*

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES OF PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their interest in their respective Policies.

PETER MORRISON, Resident Director.

London, Jan. 1, 1849.

Detailed Prospectuses and every requisite information as to the mode of effecting Assurances may be obtained upon application to

J. H. MAITLAND, Agent for Montreal,

Or to any of the following Agents:

He will also keep on hand, for sale, a large assortment of

DRESSED LUMBER,

of all descriptions, together with *Doors, Sashes, Blinds, &c.*

He will continue his business as Carpenter and Builder, as usual.

JOHN QUIGGIN.

Kingston, 23rd March, 1849.

DR. SHERWOOD'S Gavanic Imbrocation.

THIS GALVANIC EMBROCATION is used with positive and permanent success in all cases of RHEUMATISM acute or chronic seated in the Head, Joints or Limbs: *Gout, Tic Doloreaux, Nervious and Sick Headache, Paralysis, Fits, Epilepsy, Palpitation of the Heart, Spinal and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Nervious Tremours, General Debility, Deficiency of nervious and Physical Energy, and all Nervious Diseases, Chilblains, Burns and Scalds, &c.*

Is is now generally admitted by the learned scientific, that the mysterious power called *Galvanism or Magnetism* is in fact the principle of Vitality or Life, and the Disease in many of its most painful forms, is entirely owing to the absence of this Galvanic or Magnetic power in its healthy proportions. If, then, we can readily supply this wonderous Power, when it is thus deficient, we can successfully combat disease, and this has been fully and perfectly attained by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid which has cost the Inventor of this Remedy, years of study and labor.

There is not an intelligent Physician who has kept pace with the progress of Science, that does not really approve of the use of the Magnetic power in various Diseases, and there is scarcely a Medical Journal either in this country or in Europe, which makes its appearance without the statements of various cases, showing some new effects of these wonderful agents or corroborating previous experience of their beneficial use. The inventor of the *Galvanic Embrocation* has great pleasure in being able to state, that a majority of the most distinguished Physicians at New York, constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and recommendation.

Agent for Kingston, JOHN MEAGHER, *Druggist King Street.*

HEAR OF THE OPINION OF A PROFESSOR OF THE UNIVERSITY OF PENSYLVANIA, PUBLISHED IN THE MEDICAL JOURNAL, IN 1847.

In various local diseases I have tested the efficacy of *Dr. Sherwood's Embrocation* to my satisfaction. In Erysipelas, no matter where present, of what description, he found the *Embrocation*, painted over the parts with a hair pencil brush, preferable to leeches, lotions, incissions, scarification of caustic. When pain and throbbing only existed, one or two applications of the Galvanic Embrocation, cut short the disease, and where the superation had commenced, its repeated use not only checked the progress of the disease, but caused the deposited matter to be absurded. Not a single case of failure occurred when the Embrocation was applied before superation took place; and even then the pus was much less in quantity, then where poultices were used. In acute inflamation of the Joints it was more efficacious than any of the ordinary local applications over the knee—if the skin be delicate, it may be applied, one half the strength, diluted with spirits of camphor, and the strength increased as required. When the hip is affected, the Galvanic Embrocation might be painted all around the upper part of the tigh and groin. In gout its application cuts short the attack, and in anomalous pains of the joints, supposed to be gouty or rheumatic, its effects has been marked. In chronic inflamation and enlargement of the joints, such as the hip and knee, the Embrocation is extensively employed over the parts, and the application is repeated once or twice a day, according as the case may require. In the ancle or wrist, when the enlargement is of old standing, the Galvanic Embrocation has never failed to cure—In scrofulous swelling of the glands, it, either resolved the inflamation and caused absurpation of the morbid deposits, or of limiting the formation of the matter, and assisted in the cicatrizing of the sore. In Chilblains, Dr. Sherwood's Galvanic Embrocation is applied over the parts affected and beyond the boundry of the surrounded inflamation. This must be repeated daily for some time, and the affected parts should be immersed every night in water, as hot as can berne. When the ulceration looks healthy, and the skin has lost its livid color, the Embrocation may be discontinued. In Burns and Scalds, it appears to act as in Erysipelas; where the integuments are not destroyed although the cuticle may be in blisters, one or two applications of the Embrocation subdues the pain and redness, after which the parts only require to be kept from injury. Lastly besides these affections, this remedy has been used in foul ulcers, fistulous openings, gouty and rheumatic swellings of the small joints from thickening of their ligaments, malignant warts, spugloins, the stinging of wasps, diseases of the agine, united fractures, dissection and wounds. In Gootre, Dr. Sherwood's Galvanic Embrocation is a perfect remedy. The parts should be bathed every day, well rubbed with the hand

As to the efficacy of Dr Sherwood's Galvanic Embrocation in nervous diseases, the testimony borne by many eminent Physicians would be conclusive. It has removed paralysis and epilepsie. This Embrocation enters, as we have seen the mass of blood, modify the condition of that fluid, and in this manner exert a new impression upon the capillaries of the diseased portions of the dermoid system. We have often employed the Embrocation in all these cases with succes, and similar testimony has been afforded by Physicians. In several cases of chronic diseases of the Liver attended with Jaundice, Dr. Milligan found the Embrocation to produce a good effect: also in Hyprotiophy or enlargement of Spleen the Embrocation was applied over the region of the liver and Spleen every day, with decided advantage—Nocturnal pains in the bones, have likewise been particularly benefited by the use of Sherwood's Embrocation; and the diseaset have always yielded to this remedy when all others have failed. When applied over the parts affected, in Bronchitis all affections of the lungs and chest, we have found the disease to yeald by a few applications. The Embrocation should be applied about the neck and chest, during the prosim of coughing and immediate relief will be obtained.
