IN MEMORIAM

SIMMONS—In ever loving memory of our dear husband and father, Walter Robert Simmons, who entered into rest July 29th, 1925.

We watched him suffer day by day,
It caused us bitter grief
To see him slowly pine away
And could not give relief.

The heavenly gates were opened wide,
A loving voice said "Come",
And with farewell unspoken
He gently entered home.

While the midnight stars are gleaming
On a lone and silent grave,
Beneath it sleeps the one we loved,
The one we could not save.

Sadly missed by
—Wife and Family.

ROOSTER FINISHED THE JOB

A Prince Edward County farmer placed a broody hen on a setting of 15 eggs, but unfortunately, the hen died before the chickens were due to hatch. Whether these chickens had already been counted or not is not now known, but in any eevnt, the problem confronting the farmer was solved by boring two holes through the bottom of the box in which it was placed. Then a rooster was placed on the eggs with his legs through these two holes and fastened securely together below. By this means the rooster was compelled to complete a task greatly below his dignity as a father and head of the household, and was kept sitting on the eggs until he became the proud and only parent of a fine brood of chicks, following which they were placed under the care of a foster-mother.—Tweed News.
