COMPLETION

Of the Imperial Dictionary.

THIS invaluable Work, which cost the editor about twelve years unremitting labor, and being incomparably the most comprehensive Dictionary of the English language ever published, being now complete, copies in any style of binding, can be had by early application. Price—bound in two imperial octavo volumes of over 1000 pages each, cloth boards, £1; half-calf, £6; or 7½ divisions, 12s. 6d. each.

This Work contains, in addition to the matter usually found in Dictionaries, the technical and scientific terms, together with etymologies and their pronunciations, according to the best authorities—ILLUSTRATED by about 2000 engravings on wood, to explain where words are insufficient.

Orders from any part of Canada will be promptly attended to, and copies delivered, free of extra charge, in any place between Quebec and London, C. W., if not off the main roads between the places named.

The present supply being limited, those wishing copies will please order soon.

OF GREAT IMPORTANCE

To the Public.

SEEING so many puffing representations about Medicines in the papers, the Subscriber thought he should not advertise, but do all the good he could for suffering humanity silently, but was hindered for not making the valuable Medicine more generally known. He therefore now publicly complies with his friends' requests, to inform the Public, for and near, that he is fully competent to practice the new system of cure set up in England and other Nations, called the HYDROPATHIC and BOTANIC MEDICINES, which, if properly applied, are calculated to cure every disorder in human nature.—During the last calamity by Cholera, these Medicines were proved to be effectual by many living witnesses in this city, and country, and since that time many others having old settled complaints, pronounced incurable, were cured; and persons afflicted with any of the following complaints are confidently requested to try this medicine. Cholera, Black Vomit, Black or Yellow Fever, Dropsy, Fevers of any kind, Rheumatic Gout, or pains, inflammation, dysentry, costiveness, piles, general debility, nervousness, apoplexy, fits of any kind, flow of the blood to the head, jaundice, hooping cough, worms in young and old, tapeworm, consumption at a certain stage, Liver complaint, Ague, its remains, Dizziness in the head, Cramps or Blotches, Erysipelas, Enlargement of the heart, Female complaints of every kind, Bilious Complaints, Spring or Sores, Cancer, Scurvy, and all others too numerous to mention.

FRENCH'S HOTEL,

Corner Frankfort Street and City Hall Square,
OPPOSITE THE CITY HALL AND PARK FOUNTAIN.
NEW YORK.

WAS built and opened by the subscriber, May 1, 1849, who trusts that for convenience, elegance, comfort and economy, it cannot be surpassed in the world. It contains more rooms than any other Hotel on this continent, save one only, all of which are warmed gratis. They are all fitted up with marble-top washstands, which are supplied with *Croton Water*, through silver plated cocks. There is but one bed in a room; the Halls and water closets on every floor will be lit with gas during the night. This Hotel is in the IMMEDIATE VICINITY OF MERCANTILE BUSINESS and the principal places of amusement. There is a *Barber's Shop*, and an extensive range of *Bath Rooms* connected therewith. The Hotel will be conducted on the European plan of lodging rooms, and meals as they may be ordered in the spacious and *Splendid Refectory*. Porters will be up during the night to admit lodgers, and also to call them at any time they may desire: and in no case will servants be permitted to exact or receive perquisites.

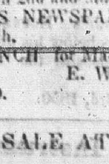
STEAM BETWEEN NEW YORK AND GLASGOW.



THE powerful New Screw Steam Ship CITY OF GLASGOW, 1057 tons register, 1609 tons over all and 350 horse power, B. R. Matthews, formerly of the Great Western, Commander, is intended to sail regularly from NEW YORK to GLASGOW, about the middle of every alternate month, viz:

From Glasgow in April, June, August, October, December and February.

The first departure of this splendid vessel from New York, direct to Glasgow, is appointed to take place on Saturday, the 18th of May next, at 12 o'clock, noon. Goods for shipment cannot be received after Thursday evening, the 16th May. Cabin passage, ninety dollars, second cabin passage, fifty-five dollars; steward's fee included. No steerage passengers taken.

These rates include provisions, but not wines or liquors, which will be supplied on board at moderate rates. Carries a Surgeon. The state rooms for first and second cabin passengers are unusually large, commodious and well ventilated. For freight or passage apply to J. McSYMON, 1 Beaver Street.

MARKET SQUARE, KINGSTON.

DR. SHERWOOD'S

Galvanic Imbrocation.

THIS GALVANIC IMBROCATION is used with positive and permanent success in all cases of RHEUMATISM wrote or disease seated in the Head, Joints or Limbs; *Gout, Tic Doloreaux, Nervous and Sick Headache, Paralysis, Fits, Epilepsy, Palpitation of the Heart, Spinal and Hip Complaints, Stiffness of the Joints, Lumbago, Neuralgia, Nervous Debility, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Diseases; Chilblains, Burns and Scalds*, &c.

It is now generally admitted by the learned scientific, that the mysterious power called *Galvanism* or *Magnetism* is in fact the principle of Vitality or Life, and the Disease in many of as most painful forms, is entirely owing to the absence of this Galvanic or Magnetic power in unhealthy proportions. If, then, we can readily supply this wonderous Power, when it is thus deficient, we can successfully combat disease, and this has been fully and decidedly attested by this most wonderful scientific discovery, of combining Magnetism or Galvanism with a Fluid, which has cost the Inventor of this Remedy, years of study and labor.

There is not an intelligent Physician who has kept pace with the progress of Science, that does not really approve of the use of the Magnetic power in various Diseases, and there is scarcely a Medical Journal either in this country or in Europe, which makes its appearance without the statements of various cases, showing some new effects of these wonderful agents or corroborating previous experience of their beneficial use. The inventor of the *Galvanic Imbrocation* has great pleasure in being able to state, that a majority of the most distinguished Physicians at New York constantly recommend this Embrocation in their practice, and from many of them he has received the kindest testimonials of approval and recommendation.

Agent for Kingston, JOHN MEAGHER.
Druggist, King Street.

HEAR OF THE OPINION OF A PROFESSOR OF THE UNIVERSITY OF PENSYLVANIA, PUBLISHED IN THE MEDICAL JOURNAL, IN 1847.

In various local disease I have tested the efficacy of *Dr Sherwood's Imbrocation* to my satisfaction. In Erysipelas, no matter where present, of what description, I laid the *Embrocation*, painted over the parts with a hair pencil brush, preferable to leeches, lotions, incissions, scarification of caustic. When pain and throbbing only existed, one or two applications of the Galvanic Embrocation, cut short the disease; and where the superation had commenced, its repeated use not only checked the progress of the disease, but caused the deposited matter to be absorbed. Not a single case of failure occurred when the Embrocation was applied before superation took place; and even then the pus was much less in quantity, then where poultices were used. In acute inflamation of the Joints it was more efficacious than any of the ordinary local applications over the knee—if the skin be delicate, it may be applied, one half the strength, diluted with spirits of camphor, and the strength increased as required. When the hip is affected the Galvanic Embrocation might be painted all round the upper part of the tigh and groin. In gout its application cuts short the attack, and in anomalous pains of the joints, supposed to be gouty or rheumatic, its effects has been marked. In chronic inflamation and enlargement of the joints, such as the hip and knee, the Embrocation is extensively employed over the parts, and the application is repeated once or twice a day, according as the case may require. In the ancle or wrist when the enlargement is of old standing, the Galvanic Embrocation has never failed to cure. In scrofurous swelling of the glands, it either resolved the inflamation and caused absorption of the morbid deposits, or of limiting the formation of the matter, and assisted in the cicatrizing of the sore. In Chilblains, Dr. Sherwood's Galvanic Embrocation is applied over the parts affected and beyond the boundry of the surrounded inflamation. This must be repeated daily for some time, and the affected parts should be immersed every night in water, as hot as can be me. When the ulceration looks healthy, and the skin has lost its livid color, the Embrocation may be discontinued. In Burns and Scalds it appears to act as in Erysipelas; when the integuments are not destroyed, although the cuticle may be in blisters, one or two applications of the Embrocation subdues the pain and redness, after which the parts only require to be kept from injury. Lastly besides these affections, this remedy has been used in fog ulcers, fistulous openings, gouty and rheumatic swellings of the small joints from thickening of their ligaments, malignant warts, spughus, the stinging of wasps, diseases of the agine, united fractures, dissection and wounds. In Gotta, Dr. Sherwood's Galvanin Embrocation is a perfect remedy. The parts should be bathed every day, well subbed with the hand.

As to the efficacy of Dr Sherwood's Galvanic Embrocation in nervous diseases, the testimony borne by many eminent Physicians, would be conclusive. It has removed paralysis and epilepsie. This Embrocation enters as we have seen the mass of blood, modify the condition of that fluid, and in this manner exert a new impression upon the capillaries of the diseased portions of the dermoid system. We have often employed the Embrocation in all these cases with succes, and similar testimony has been afforded by Physicians. In several cases of chronic diseases of the Liver attended with Jaundice, Dr. Milligan found the Embrocation to produce a good effect: also in Hypertophy or enlargement of Spleen the Embrocation was applied over the region of the liver and Spleen every day, with decided advantage.—Nocturnal pains in the bones, have likewise been particularly benefited by the use of Sherwood's Embrocation and the disease have always yielded to this remedy when all others have failed. When applied over the parts affected, in Bronchitis all affections of the lungs and chest, we have found the disease to yield by a few applications. The Embrocation should be applied about the neck and chest, during the prevalence of coughing and immediate relief will be obtained.

LIFE ASSURANCE.

THE CANADA LIFE ASSURANCE COMPANY is prepared to effect ASSURANCE upon LIVES, and transact any business dependant upon the value or duration of Human Life—to grant or purchase *Annuities* and *Reversions* of all kinds, as also *Survivorships* and *Endowments*.

This Company is, from its system, enabled to offer to the *Canadian* Public various advantages of a peculiar and important description, including *Local Management*—a most *material reduction of costs*—and a prompt settlement of claims.

Public notice is invited to the Prospectus—Half Credit Tables,—and Tables of the *Building Society Scheme*—Any of which may be obtained at the undersigned, together with forms of Application. He will also be happy to afford information on the subject.

NOTICE.

THE President, Directors and Company of the ÆTNA FIRE INSURANCE COMPANY of Hartford, have this day invested WM. GRANT, of the City of Kingston, Esquire, with full power to transact business for the Company, in said City, and its vicinity.

Given at Hartford, this 8th day of March, 1850.

THOS. K. BRACE, *President.*
S. L. LOOMIS, *Secretary.*

In reference to the above notice, the Subscriber is now prepared as Agent for the HARTFORD AND ÆTNA FIRE AND INLAND MARINE INSURANCE COMPANIES, To transact Insurance Business in all its branches.

WM. GRANT,
Agent.

March 18, 1850. 64

THE Subscriber while expressing his thanks for the large patronage that has been extended to him as agent in Kingston for the Hartford Fire Insurance Company, begs to assure his friends and patrons, that while lately in New York, fably assisted by other gentlemen from Kingston, he has minutely investigated the responsibility and standing of the Hartford Fire Insurance Companies, and can, with the fullest confidence, recommend them to the public, in every respect, as being second to none doing business in Canada. While an existence of nearly half a century—soundly invested capitals—widely spread risks, and large amount of premiums, together with strict economy of management, enable them to do business on more favorable terms to the insurer, than most other companies.

DR TOWNSEND'S

OFFICE MANUFACTORY
DR. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA.
The most powerful Blood Purifier in the World!

This Extract is put up in Quart Bottles, it is the most cheaper, pleasanter, and more certain superior to any mold. It cures without confining, purging, vomiting or debility, letting the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, that while it eradicates the disease, it invigorates the body. It is one of the very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system and strengthens the person, but it renders pure, and rich, blood a power possessed by no other medicine. And in this lies the great secret of its wonderful success. It has performed cures that two years more than the cures of twenty doses of secret or patent medicines, and has saved the lives of more than twenty children the last two seasons of the City of New York alone.

40,000 cases of General Debility and want of Nervous Energy.

Dr Townsend's Sarsaparilla invigorates the whole system powerfully. To those who have lost their nervous energy by the effects of medicine or indiscretion consequent in youth, or the excessive intercourse of the passions, and brought on by physical prostration of the nervous system, lassitude, want of ambition, failing recollection, premature decay and decline stalking towards that final disease Consumption, can be entirely restored by this precious remedy. This Sarsaparilla is far superior to any

Invigorating Cordial.

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system in a most extraordinary degree.

Consumption Cured.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds Catarrh Coughs, Asthma, Spitting Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c. have been and can be cured.

Spitting Blood.

New York, April 28, 1847.

Dr. Townsend—I verily believe your Sarsaparilla has been the means through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated, and returned, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results. Your obedient servant

WM. RUSSELL, 65 Catharine st

Rheumatism.

This only one of more than many thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are speedily eradicated by its extraordinary virtues.

James Cummings, Esq. one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter.

Blackwell's Island, Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the most distressing pains and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than a thousand dollars worth of good. I am so much better indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted.

Yours respectfully, JAMES CUMMINGS

Female Medicine.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Catarrhea, Pain in the Back, Chlorosis or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system, no matter whether the result of indiscreet cause for, disease produced by irregularity, illness or accident. Nothing can be more surprising than its immediate effects on the human frame. Persons of all ranks and conditions, from taking it at once become robust and full of life, no matter its influence. It immediately counteracts the miserable weakness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that numbers of cases have been reported to us. Thousands of cases where families have been without children, attending the use of few bottles of this invaluable medicine, have been blessed with the happy offspring. It has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "The turn of life," should neglect to take it as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases to which women are subject.

Great Blessing to Mothers and Children.

It is the safest and most effectual medicine for purifying the system, invigorating the sufferer, and relief upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food, far which have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth. For Costiveness, Piles, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the Secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully.

Beauty and Health.

Cosmetics, Cloths and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when natural, and unobstructed by disease or improper cosmetics, gives a healthy and beautiful appearance to the countenance. Nothing can be more surprising than its wonderful effects on the human frame. Persons of all ranks and conditions, from taking it at once become robust and full of life, no matter its influence. It immediately counteracts the miserable weakness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed, but we can assure the afflicted that numbers of cases have been reported to us. Thousands of cases where families have been without children, attending the use of few bottles of this invaluable medicine, have been blessed with the happy offspring. From the advantage of situation, perfection of Machinery, and good character, secures a large amount of patronage.

THE FLOURING MILL,

Is in all respects equal to any of the kind in Canada, and being situate in the heart of the best Wheat Country in the Province, can command at all times any amount of supply.

The Machinery in both Mills has all been (within the last twelve months) made new, embracing the latest improvements, and of the best description. The whole is drove by a never-failing Mountain Stream, with a supply of water capable of manufacturing at least Twelve Thousand Barrels of Flour per annum; having made, since Harvest, Four Thousand Barrels of a brand second to none in the Province.

—ALSO—

A SPLENDID FARM,

Of Four Hundred Acres, nearly all cleared and of excellent soil.

ALSO,—On the same Stream, a superior unoccupied WATER PRIVILEDGE, of one Hundred Feet fall, well adapted for any manufacturing purposes.

Any reasonable quantity of good Land can be attached to the Mill Properties, if required.

The situation of the above Property, being within Seven Miles of the City of Hamilton upon the Macadamized Road, and the most salubrious locality in the Province, recommends it to the favorable opinion of Capitalists and the Public at large. The Property is, however, so well and generally known that any further notice, the Subscriber considers would be superfluous; and the only reason why he now offers the above for sale is, that he finds his health unequal to the task of superintending their management.

TERMS—Part down; the remainder in Nine equal annual instalments, with interest.

For further particulars apply to the Subscriber on the Premises, or to P. S. STEVENSON, Esq., Hamilton, if by letter, post-paid.

JAMES RUSSELL.

Ancaster, January 18th, 1850.

FRESH GARDEN SEEDS.

THE subscriber has just received a general assortment of ENGLISH GARDEN SEEDS, warranted fresh.

CHAS. BRENT,
Druggist,
Princess Street.

Kingston, March 11, 1850. 58
