POTASH KETTLES.

FOR SALE, by the Subscribers, deliverable on the first opening of the navigation beween this place and Three Rivers, which will probably be about the 15th instant,

Three Hundred St. Maurice warranted Potash Kettles,

Assorted all weights from 3¼ to 11 cwt.—These KETTLES, as announced by previous advertisements, are made altogether from St. Maurice Ore, smelted only with charcoal, which renders them quite superior to any other make. They are, moreover, made in the most approved manner, being thin on the edges and upper part of the sides, and extra thick in the bottoms.

The Subscribers continue their practice of undertaking to EXCHANGE every KETTLE that may Fly, Crack, or Leak, at any time during the first three months after it is put into use; and they are enabled to state that, out of upwards of 300 sold in this neighborhood during the past Winter, only one has been returned, the defect being merely a sand hole, which caused it to leak. With this exception, they have not heard a complaint.

Purchasers at a distance are reminded that SCOTCH KETTLES (of which there are none now in Market,) cannot in all probability be delivered here before the end of May or beginning of June—too late for Spring work. They have also on hand,—

750 Flat Bottomed COOLERS, 23×14 inch.
2000 Common Shape do. assorted, all sizes.
500 American pattern BOILERS and CALDRONS, 35, 40, 50 and 60 gallons.
