The storm of Sunday was followed by a cold wave that made one feel for his friends out west who simper and smile at 40 degrees below zero. Here on Monday night the mercury bit sixteen below—sweet sixteen—but we here in Ontario consider that hitting below the belt and don't want any more of it. Our cousins in the north and west are welcome to all the cold punches below that line.

The Kimberley mail was the only country mail that succeeded in getting through on Monday. Feversham failed for the first time in three years. John has given us a very good Sample of pluck in the past and can be excused for this one slip of the cog. We'll not be afther Jaw'n him this toime.

After the program a book contest was entered by all, and provided a source of entertainment and amusement. Refreshments were served, and after singing God Save the King all went home well pleaaed with the evening's entertainment.

While we are paralyzed here with the amount of snow which has fallen, it is interesting to note the condition in some other parts of our province. Mr. George Hacking of Emo, Rainy River District, writes The Advance under date Jan. 28 as follows: "We have had a very mild winter, scarcely enough snow for sleighing. Yesterday was the commencement of winter weather with us and tonight it is 27 degrees below zero. I see by the Advance where your roads are almost impassable. We could do with some of that snow here. Timbermen are praying for snow and the principal contractors have men engaged night and day watering their logging roads to enable them to get their timber out."

Neglected Colds Threaten Life.
[From the Chicago Tribune.]

"'Don't trifle with a cold,' is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry, warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be a slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year s the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by W. E. Richardson.

Surgeons everywhere will be interested in the following truthful tale which was published in the Jenkintown Times-Chronicle of December 16: 'Mr. Goldshall of Doylestown was thrown from his waggon by being struck by the trolley opposite Bosler's mill on Friday morning last. The body was torn from the running gears, but fortunately he was not hurt. His products were strewn about the roads."
