Oil at Redickville.

Residents of Melancthon township, in the vicinity of Redickville, are anxiously wondering if Eugene Coste, the oil and gas expert, will commence drilling for oil in that neighborhood when spring opens, as he has taken several options on property in and around Redickville. The knowing ones a few years ago would laugh when informed that pure and almost refined kerosene had been pumped from the drilled well in front of the old hotel at Redickville. The fact that oil has been pumped from this well for over twenty years is making the people believe there is something in it.

In October last the editor of this paper had an interview with Mr. Coste and he fully believed the report. He said the oil might have come from a considerable distance and would be refined by running through gravel, etc. Mr. Coste firmly believes that there is plenty of oil in the locality. This spring, we are informed, the well on the old Jerry Wallwork homestead, across the road from the hotel, has large quantities of oil in it and that Wm Clulow, who lives there, says he could get about five gallons of oil per day out of his well. If this is correct there will be something doing as soon as the spring opens.—Shelburne Free Press.

Have You Ugly Warts?

Cure them with Putnam's Painless Corn and Wart Extractor. Fifty years success is a guarantee of its merit. Beware of substitutes.

Pius Inlow, a drayman, bought a horse that had been imprisoned for fifteen years in his owner's stable because the animal ran off and threw the occupants of a buggy into the road. The owner became so angry with the horse that he registered a vow never to take the animal out again. The horse has stood in his stall from that day to this, being fed and watered regularly. Lack of exercise made the horse so weak he could hardly walk. He was also handicapped by his hoofs, which had gotten to be a foot long. Before the animal could be shod eight inches of each hoof was cut away.—Ex.
