approve of all the acts they had committed in Foreign Countries, he must state, that their conduct in this country was deserving of approbation rather than censure, because they had so greatly promoted education.

Mr. McKay did not wish to throw any blame on the government. He believed they were ignorant of the correspondence which was going on, but it was right that they should be made acquainted with it

Mr. Tache said, the government could have no object to conceal the correspondence if any existed. When the papers which did exist came before the hon. mover, he would find that the Jesuits had had nothing to do with the affair.

The amendment was then put to the vote and carried.

FLOUR INSPECTION BILL.

The Bill to amend the Act regulating the Inspection of Flour and Meal, was read a second time, and referred to a Committee of the whole to-morrow.

NEEPIGON MINING CO.

The Bill to amend the Act incorporating the Neepigon Mining Company was read a second time.

Mr. James Morris said, the company had been very unsuccessful during the past year, and they prayed for the removal of several restrictions as to the locality of offices and appointment of Directors, in the expectation of meeting with better success.

The Speaker objected to the Bill, because it desired to enable foreigners to become Directors, and to hold their principal offices in the United States; which were privileges not allowed by the common law. Another objection was the fact that the amendments were asked by a few of the Directors only in their private capacity

Mr. Morris moved, that the motion for the second reading be withdrawn, and that the Bill be read a second time on Wednesday next.

BILLS FROM THE HOUSE OF ASSEMBLY.

A message was received from the House of Assembly, stating that that House had passed a Bill to establish a survey of the ninth Concession of the township of Cornwall; the Bill to divide the County of Huntingdon into two districts for the Registration of Deeds; and the bill to protect mill owners in Upper Canada. Each of these Bills was read for the first time, and ordered to be read a second time to-morrow.

Another message was received, stating that it had concurred in the amendments made by the Council to the Bill for enabling Municipal Councils to subscribe stock in the Great Western Railroad, and that it had also made an amendment Ordered to be taken into consideration to-morrow.

And also, that it had passed a Bill to incorporate the Agricultural Society of Lower Canada. The Bill was then read for the first time, and ordered to be read a second time on Wednesday next.

The House then adjourned.

Facts to be Remembered.

That Consumption is almost nearlys alway produced by a cold that might easily be cured. The Wistar's Balsam of Wild Cherry will cure any cough or cold, no matter of how long a standing. The milder form of consumption itself is also cured by this Balsam. That it is conceded by many lawyers, clergymen, and physicians, that this Balsam was never equalled for efficacy in all affections of the lungs and liver. That scores who now rejoice in the possession of good health who but for this Balsam would have been in their graves—having been given up to die by their friends and physicians.

Dr. Brantford Knapp, of Crown Point, N. Y., in a letter says:—"In the course of my practice in this vicinity, I have tested in some good degree the good qualities of *Wistar's Balsam of Wild Cherry*, in Pulmonary Complaints, and I now wish to procure a supply of the medecine."

United States Arsenal.

Dr. Fowle—

Dear Sir,—Having used several bottles of Wistar's Balsam of Wild Cherry in my family, for the complaints for which it is recommended, with decided benefit, I cheerfully recommend my friends and all others who may need a medecine of that kind to try it.
