Millinery Openings

The recent millinery openings at the two general stores were well attended by the usual crowd of admiring ladies, who of course enjoyed the event exceedingly.

J. & W. BOYD'S.

At J. W. Boyd's the millinery room was handsomely decorated in green with baskets of flowers. A feature of this event was a serenade concert by the band which gave the opening evening an eclat which it otherwise would have lacked and made the occasion more pleasureable. Following are some of the newer shapes:

We noticed a creation in tones of Tuscan has a rolling side with high ostrich mount, caught with large Mohair rosette, while left side sits prettily on the hair, interlaced with narrow green velvet ribbon

Another is a draped turban in navy blue Mohair with collar effect on brim touched with bands of gold braid. The left side is banked high with roses in pastelle shades, held by two fancy pins in corresponding tints.

One of the novelties of this season is the bubble shape. This is shown in white being a very small hat with high dome crown reaching to edge of brim. The selection of trimmings used on this, is mauve and white maline, and lilacs. These are so arranged as to completely hide the crown, with one perfect rose in deeper shade, giving the desired height on left side.

A large black picture hat is worthy of comment. This is in a very lacy mohair with soft drapings of maline and liberty ribbon around the crown. It is trimmed extremely high with two ostrich feathers.

We must not overlook the "Merry Widow" so much in vogue this season A very pretty one is here done in white mohair, with soft folds of maline around the crown caught with crysanthemum foliage. A foxtail feather is placed upright at left side, with loops of maline at the base of the feathers, caught with two fancy pins.

AT F. G. KARSTEDT'S

Among the many pretty hats here shown is a "Merry Widow" in white mohair braid trimmed with black and white daisies around the crown and white satin bow at the front caught with two black pins.

Another hat we noted was a tuscan top, with raised side and crown. Folds of maline decorated the crown. In front were pink, pale blue and tuscan roses, with a feather spray drooping toward the back. Band under crown trimmed with maline.

One of the all black hats was a "Merry Widow" shape, done in mohair braid, the crown having folded maline around it. It had two large plumes hanging over side and back, and the front was filled in with black flowers. This also had two large black pins

A very pretty white hat was in mohair braid, made with a high left side, short front, and high crown with folded maline around the crown. At the left side are large white roses with bows of maline. A small band beneath, trimmed with maline, raises the hat.

A very pretty pale blue and white straw bonnet for a little tot was noticed, with wide blue satin ribbon strapped through the rim, and bows of the same at each side with long streamers.

OUR NATIONAL DANGER

Time to Cry a Halt Before Complete Wreck Results.

There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition. Our national weakness is stomach weakness due to the strenuous life.

Mi-o-na tablets, strengthen the walls of the stomach and stimulate secretion of the digestive juices. They make the stomach comfortable and cure indigestion.

Sick headaches, palpitation, yellow skin and coated tongue are a few of the many distressing results of indigestion that Mi-o-na never fails to cure.

W. E. Ricchardson and son sell Mi-o-na in 50 cent boxes, and guarantee to refund the money if it does not give complete satisfaction.

The Dairy and Cold Storage Commissioner's Report.

The annual report of S. A. Ruddick, Dominion Dairy and Cold Storage Commissioner, has just come to hand in a a volume of 174 pages. It deals with the work of four important divisions of the Department of Agriculture, namely. Dairying, Fruit, Extension of Markets and Cold Storage, is well illustrated with half tones, and contains maps showing the various fruit growing districts of the dominion.

In the section devoted to dairying, the commisioner reviews the dairy industry and gives some interesting figures bearing on the trade. A large amount of space is devoted to a complete report of the Cow Testing Assocations. A review o the apple industry of Canada by Mr. McNeil is a feature of the section devoted to fruit, and the working of the Fruit Marks Act is dealt with at some length.

The methods which are employed to improve the handling of perishable products receive considerable attention, and the report shows what is being done along this line.

Under the head of Cold Storage the various services are described and some general information on the subjects is also given.

There has been prepared along with the report, but published separately, a map showing the approximate location of all the cheese factories and creameries in Canada. The report makes interesting and instructive reading for any person connected with the industries touched upon. Copies may be secured by application to the Dairy and Cold Storage Commissioner, Ottawa.

While out driving with two girls last week one of our young boys of the town had a rather peculiar experience in that when he was almost through with his drive and about to return home he found that he was the only occupant of the cutter. He was standing up in front of the cutter while driving with the two girls in the seat, and was tearing along at a good pace, around corners and up and down hills, apparently not aware of the fact that the cutter had seen better days (being about 20 years old.) He had reached the top of a hill and was about to return home, when, on turning around to speak to his companions, he was somewhat surprised to find that the whole back of the cutter was missing, including the girls, and was not to be seen as far back on the road as the eye could reach. He found out afterwards that on turning a sharp corner the bolts holding the seat in place had snapped off, leaving only the bottom of the cutter, the dashboard and the aforementioned driver, to finish the trip. All escaped uhhurt (except the cutter.)—Fergus News-Record.

Salvation Army Praise

"I feel it my duty to testify to the benefit I have received from the use of **Psychine.** While travelling in New Ontario conducting special meetings I contracted a very bad cold, which gradually developed into Bronchitis of the worst form. I was advised to try **Psychine,** which I did, and after using but a few bottles I was completely restored to health. I recommend this wonderful remedy to sufferers from Bronchitis and other troubles."

Later: "I wish to add that my voice, since using **Psychine,** is stronger and has much more carrying power than it had before I had bronchitis, and the vocal chords do not tire with speaking."

P. TILLER, Capt. Salv'n. Army.
Ann St., Toronto, Aug. 13, 1907.

Throat, lung and stomach troubles cured by **Psychine**; also incipient consumption. All druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

The greatest heat is never found on the equator, but some ten degrees to the north, while more severe cold has been registered in Northern Siberia than has been found near the Pole.
