The Merry Shopper

The Yuletide this year will be responsible for one of the largest bodies of eager people bent on accumulating Christmas joys for big and little folks that America has known since away back in 1914, when war clouds had gather over Europe and the shadows had already begun to cast their sinister reflections.

To this end the holiday may be expected to display much of the old time recognition of its distinctive appeal to the young. Its best celebration is that which gives the foremost thought to children. The disposition to make the season one for indulgence of extravagant adult practices and dissipations is destructive of the real joy and meaning of the season.

The displays that greet us from shop windows serve more than a practical or commercial value for shoppers. Hhey re-create in mature minds the eternal joy of childhood. The coming season's memories are the grown people's chief joy, or should be. No other season so stirs the heart of those who are now the providers of those same joys that were once theirs. If this spirit is not confined to the mere selfish and narrow limits of those "of our own" but is expressed in making richer and fuller the lives of those who need our help. This christian tide will be the happiest and most useful of our lives.

SMITH—ALCOX WEDDING

A quiet wedding was solemnized in Markdale on Wednesday afternoon, November 23rd when Miss Sarah M. Estell Alcox, only daughter of the late William J. Alcox and Mrs. Alcox of Orange Valley, became the bride of Herbert Wesley Smith, of Rock Mills, son of Mr. and Mrs. Isaac Smith of Flesherton. The ceremony was performed by Rev. A. Newton St. John, of Annesley Church at the parsonage.

The bride looked lovely in a gown of flat crepe of French blue caught at the side with a brilliant ornament, black silk stockings with satin shoes to match. The bridesmaid, Miss Vina Davidson, was gowned in a kasha colored silk tricolet. The groom was ably supported by Mr. Clarence Alcox, brother of the bride.

The happy couple left on the Walkerton train for Owen Sound and London, the bride travelling in a navy blue needle-point coat trimmed with fur and hat in shades of blue. After their return they will take up their residence at Rock Mills.

Excellent Concert Held at High School Friday

The annual commencement concert of the high school students was held in the auditorium of the high school on Friday evening of last week, before one of the largest crowds that has ever attended an event of that nature. The various parts were well taken and showed much credit to the participants and also to the teachers. Dr. E. C. Murray, one of the trustees of the school, acted as chairman and, as usual, gave entire satisfaction, his address was short and to the point.

The opening number was a sextette by three boys and three girls with the greetings "How Do You Do," followed by a piano duet by Misses Jean and Marion Stuart and the young ladies were given a hearty encore. The third number was an interesting folk dance, "Treture," by young ladies in excellent costuming and was followed by a play "A Midsummer Night's Dream" in three acts, and although the play was difficult to give each character did their parts in an excellent manner. The next feature was the well known and popular Highland Fling given by Misses Violet McDougall, Marion Stuart and Inez Brown. Murray Inkster gave a splendid bass solo and was accompanied by Mr. Hardwick on the piano. A wand drill was given by the boys from Form one and Form two. Next on the program was a sextette by three girls and three boys on the old negro melody "Sleep Kentucky Babe." Another very interesting item on the program was the "Pump Song" given by five boys representing themselves as the village council and debating whether Flesherton would have a pump and was quite a hit. The last number was a grand opera selection, the leading parts being taken by Misses Donalda Sloan and Mabel Watters, with about a score of the students in support. The number was well received. The National Anthem then brought to a close a very interesting evening's entertainment. The proceeds amountd to over $110.00.

The ignorant are the severest critics. They can appreciate neither the difficulty of the task nor the sincerity of the effort.

Ford

The NEW CAR

ALL THAT engineers have learned, all that millions of owners have experienced in nearly a quarter of a century, have made possible this car which is today as far ahead of its time as was the famous Model T in 1908.

Sixteen million automobiles, serving their owners in jungle and desert, on mountain and plain, on boulevard and highway, were the test cars that have made this new automobile possible.

Its advent marks a new epoch in automotive engineering in point of inbuilt quality—niceties of mechanical design, lavish use of the finer metals, precision in delicate machining processes.

Nowhere in its construction has there been slighting of either major essentials or minor details. From its outermost hub-cap to its innermost bearing, the new Ford car epitomizes engineering skill to a degree unexcelled in the annals of motor car manufacture.

This entirely new car surpasses the accepted standards of light car accomplishment; sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness that heretofore has marked only expensive cars as fine cars.

Yet Ford precision in large scale production, unparalleled in the history of automotive manufacture, places this car within the reach of every purse.

An advance showing of the New Ford Car will be made Friday, December 2nd, in the following cities:

SHERBROOKE.	HALIFAX.	WINNIPEG.	WINDSOR.	PETERBORO.
QUEBEC.	EDMONTON.	REGINA.	LONDON.	KITCHENER.
MONTREAL.	VANCOUVER.	SASKATOON.	BRANTFORD	
OTTAWA.	VICTORIA.	MOOSE JAW.	HAMILTON.	
St. JOHN.	CALGARY.	FORT WILLIAM.	TORONTO.	

As rapidly as increasing production permits these public showings will be extended until all of the 736 Ford dealer points have been covered.

If you live in one of the cities listed above, visit the exhibit of this New Car. At other points, see your local dealer next Friday. He will give you complete specifications, prices and an excellent conception of its unusual features.
