At the annual meeting in June the president suggested that we would try and make our contributions four times what it was for the last year, and, we are thankful to say, we have gone over the top, as this year over five times the amount has been collected, a total of $75.50. We would again express our appreciation to the response to this worthy cause.

DECISIONS RESPECTING NEWSPAPER

Court decisions respecting newspaper subscriptions are very clear. Any person who takes a paper regularly from the post office, whether in his name or another's or whether he has subscribed or not, is responsible for payment. If a person orders his paper discontinued, he must pay all arrears or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken or not. The courts have decided that refusing to take periodicals or newspapers from the post office or removing or having them unpaid, is prima facie evidence of intention to defraud.

"In Memoriam" verses

Chesley Enterprise: It is a mistake for those who do not understand the principles of verse to get away from simple prose. We often notice, especially in "In Memoriam" lines, where the writer starts out with long meter verses, mixes in common and long metres, and ends up with most peculiar metre. It is perfectly distressing to those who understand verse, and is enough to cause the death of any musically-inclined relative of the bereaved family.
