BRITANNIA LIFE ASSURANCE COMPANY.

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT, 4 Vic. Cap. 9.

THE great success of this Institution in Europe, and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death.—The rates of the *Britannia* are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office, or in the Montreal *Herald*, Montreal *Gazette*, and Montreal *Courier* as also in several papers in Canada West.

Assurances may be advantageously effected on the lives of others, either for the purpose of securing loans, or debts or in case where the party has an interest in the life of another, so as to be *in any way* prejudiced in the event of his decease. To creditors, a Policy of Assurance affords a certain, and, in many cases, the only means of security. Also in addition to the published rates, an extensive set of Tables has been computed for Assurance on Joint Lives, the survivor of two or more lives, and for contingent Assurances: also for Reversionary Annuities, Endowments for Widows and Children, and for every possible contingency affecting human life, against which it may be prudent or expedient to provide.

COMPARATIVE STATEMENT OF THE RATES OF THE FOLLOWING OFFICES:

Rate for one year, (whole of Life) for the Assurance of £100:

National Loan Fund	age 30	£2	4	4
Colonial Life Assurance Com'y	do.	2	5	2
United Kingdom	do.	2	8	10
British Commercial	do.	2	1	10
Mentor	do.	2	1	9
Britannia	do.	2	0	8

The other Offices doing business in the Colonies are so much higher, that comparison is unnecessary.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure *an immediate Bonus* by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are 'Mutual Tables' adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within THREE MONTHS after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, cannot, under any circumstances, be afterwards called in question. Policies effected by parties on their own lives are not rendered void in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a *bona fide* Creditor, the sum assured will be paid without deduction: if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The subscriber begs to remark that the Britannia Company has been doing business in this Province for about ten years—and has been always found liberal, and prompt in the settlement of claims.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE success which has attended the operations of the Colonial Life Assurance Company testifies how greatly such an institution was required, and how much it has been appreciated.

In British North America the Company has been received by all classes in the most satisfactory and welcome manner, and the numbers who have connected themselves with it by Assurance, show how very much such an Institution on a broad and liberal basis was required.

The capital of the Company gives complete security for all its transactions; and parties dealing with the office incur none of the risks of Mutual Assurance.

The Rates adopted have been framed after a most careful and searching inquiry as to the value of life in different countries, and the directors are confident they have adopted as moderate a scale as can be held compatible with safety.

Progress of the Company.—The Colonial commenced business in 1846, and the result which has attended its operations fully bears out the anticipations of success which its founders entertained. The Company have granted Assurances, during the past two years alone, to the extent of £300,000 sterling.

The powers of the Board in Montreal being absolute for the disposal of business, gives to the Colonial all the facilities of a Company essentially local; and combined with the additional advantage of a large Guaranteed Capital, affords the most perfect security in all Assurance transactions.

The Annual Report of the Company, together with the Prospectus, and every other information, can be obtained on application to the Manager, or to any of the Agents of the Company,

By order of the Directors,
A. DAVIDSON PARKER,
Manager for Canada.

OF GREAT IMPORTANCE To the Public.

SEEING so many puffing representations about Medicines in the papers, the Subscriber thought he should not advertise, but do all the good he could for suffering humanity silently, but was blamed for not making his valuable Medicine more generally known. He therefore now publicly complies with his friends' requests, to inform the Public, far and near, that he is fully competent to practice the new system of cure got up in England and other Nations, called the HYDROPATHIC and BOTANIC MEDICINES, which, if properly applied, are calculated to cute every disorder in human nature.—During the last calamity by Cholera, these Medicines were proved to be effectual by many living witnesses in this city and country, and since that time many others having old settled complaints, pronounced incurable, were cured, and persons afflicted with any of the following complaints are confidently requested to try this medicine. Cholera, Black Vomit, Black or Yellow Fever, Dropsy, Fevers of any kind, Rheumatic Gout, or pains, inflammation, dysentry, costiveness, piles, general debility, nervousness, apoplexy, fits of any kind, flow of the blood to the head, jaundice, hooping cough, worms in young and old, tapeworm, consumption at a certain stage, Liver complaint, Ague, its remains, Dizziness in the head, Cramps or Blotches, Erysipelas, Enlargement of the heart, Female complaints of every kind, Bilious Complaints, Strains or Sores, Cancer, Scurvy, and all others too numerous to mention.

BARKER'S COMPOUND SARSAPARILLA PILLS.

For Purifying the Blood, and Strengthening the Digestive Organs, Scorbutic Eruptions, Pimples and Blotches, Rheumatism, Liver Complaints, Indigestion, Bilious Complaints, Asthma, and all diseases which arise from an impure state of the Blood.

THESE PILLS having been in use several years, experience has proved their great superiority over all other preparations of Sarsaparilla now before the public. In consequence of the peculiar virtues of the Sarsaparilla Root, it has been extensively used by the Medical Profession, for a number of years, but it is well known, that, all Watery or Liquid Preparations of the Root, very soon lose all medicinal qualities, in that state. The only preparation which can be depended upon, is the *Solid Extract*, from which *these Pills are prepared*, combined with other valuable medicines, and more real benefit will be derived from the use of *one box*, than from half a dozen bottles of the Syrups or any Preparation in use. They act as powerful *Alterative Tonic*, and a *Mild Aperient, strengthening the Stomach, and giving warmth and vigor to the system.*—They are *perfectly safe* in their operation, and may be used by the most delicate females and children, and will be found most valuable for any *irregularities* peculiar to them.

The proprietor has an objection to the system of publishing a list of Cures, or he could furnish a large list of the most respectable persons, who have used these Pills to great advantage. *Try one Box of these Pills, when you will find them to be the best Medicine ever used.*

THE CANADA LIFE ASSURANCE COMPANY.

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant *Assurances on Lives*, whether single or joint, to sell *Annuities*, to purchase *Reversions* and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company is enabled, from its small expenditure, and the high rate of interest that money commands in Canada, to offer terms of Assurance much more favourable than the low rate of interest attainable on investments by British Companies and their generally large expenditure can with any regard to safety admit of.

An *exact statement of its receipts and expenditure* is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that *it invests all its funds in Canada*, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, in which (and this is nearly a solitary instance) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have made, and it further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and a other information may be obtained at the Head Office and Agencies.
