EDITORIAL DRIFT

Mr. P. McCullough of Markdale is in the field against I. B. Lucas. This was settled in the Reform convention held at Rocklyn last Thursday. What do you put the Lucas majority at this time? At the last election he had over 1000 to the good.

The country soldier boys who had their hopes built upon going to Quebec this summer took a sort of reflex feeling when it was officially announced last week that only a few city regiments would be taken. A good many thousand young men in this country who have votes feel so sore over the vacillating action of the government that they will fire a few rounds of ballots by way of salute on next Dominion election day—and they won't be blank ammunition, either.

The temperance convention of last week simmered down to the smallest point imaginable. Do not take it for granted, however, that temperance principles are not in a healthy state in this riding. In this instance the issue was not of sufficient importance to unite the forces. Had the Alliance as a body been making a general onslaught upon Mr. Whitney the result would have been different. They were not doing this, and what good would it have done for this riding to put a man in the field? The moral lesson! you say. There would have been no moral lesson, and moreover the temperance strength of the riding would have made but a sorry showing, because while a few enthusiasts would have voted for a third man the vast majority would have taken Mr. Whitney's measure as a whole while acknowledging that it is the best temper-measure this province has ever seen—yet capable of improvement. The three-fifth clause is scarcely a creditable ground on which to upset a government, more especially until that government has absolutely refused to withdraw the objectionable clause. There are very many of the best temperance people who refuse at the present time to join in a crusade for this purpose. They prefer to wait and find out what Mr. Whitney really intends to do about it. There were others, too, who felt that the temperance force was being used as a catspaw to pull other people's chestnuts from the fire, and they objected. These are the reasons why the deliberations of the 12th inst. came to naught, and not because there was any waning in determination on the part of the temperance people.

Mi-o-na means Stomach Comfort

IT'S OF SPECIAL VALUE TO MANY HERE IN FLESHERTON.

A notable discovery and one that appeals especially to many people in Flesherton is the combination of stomach help in the Mi-o-na treatment. This preparation works wonders in case of indigestion or weak stomach.

It acts directly upon the walls of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten without distress or suffering.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by W. E Richardson & Son under an absolute guarantee to refund the money if it fails to cure. A 50c box of Mi-o-na will do the good the stomach needs which is simply to make it do its own work.

Three men were brought up before police magistrate Pane, at Campbellford on the charge of being drunk on the streets. Two of them secured liquor at Hastings and divided up with the 3rd. The magistrate fined the two who bought the liquor $12.00 each, and the other $10.00 and costs.

THOMAS SCOTT, Clerk.

At a temperance convention held at Creemore, Mathew Clark, deputy reeve of Collingwood, was nominated to oppose J. S. Duff, the Conservative candidate in the approaching provincial contest in West Simcoe.

Clifford Nantais, four years of age, a Walkerville boy, was fatally burned Sunday while playing near a bonfire with several companions. His clothing caught fire, and when the other children ran away in fright little Nantais crawled under a waggon and slowly burned to death.

Mr. G. A. Hay, V. S., informs us that a cow belonging to the estate of the late John Lee gave birth to a calf which had only three legs. No part of the fourth leg was visible except the hoof which was wholly detached from the body of the calf.—Campbellford Herald.

A young farmer, not many miles from Creemore, who keeps an account of his receipts and expenditures in a business-like manner, casually remarked to The Star the other day, that the profits of his fifty acre farm for the year just closed amounted to $1,175. We consider that a very creditable showing.—Star.

A young Englishman visited Grand Valley one day last week, drank too much booze, got full and lost two fingers while inspecting a sawing machine in operation.

Last Friday night the large driving belt in the electric light power house, running at over three hundred revolutions to the minute, split without any warning and nearly scared the wits out of manager Vanalstine. Things were slashed up pretty lively until the engine could be turned off.—Dundalk Herald.
