A three days' volcanic eruption in Samoa last month caused a flow of lava eight miles wide, and from six inches to six feet deep.

Robert Miles showed us an egg the other day laid by a common hen. It measured 8¼ inches the long way and 6½ inches the other way.—Norwood Register.

The stage driver from Chatsworth is reported to have come within an ace of running into the C. P. R. gravel train at the foot of the Garafraxa St. hill. The C. P. R. had better look out, or they'll be spilled into the river some of these days.—Durham Chronicle.

The recent heavy downpours of rain will prove a costly affair for the township of Adjala. Many of the bridges spanning some of the smaller streams were carried away, roadways washed out and other damage done. Reeve Goodeve states that it might cost possibly nearly $2000 to make good the damage.—Bolton Enterprise.

Mr Arthur Eagle of Bayview met with an accident recently which might have proved fatal. While trying to catch a horse in the field the animal suddenly turned on him, kicking him in the stomach and over the heart. He lay there for over two hours, unable to move. Though his injuries were painful, they were not serious, and no bones were broken.

Ballasting is proceeding rapidly on the C. P. R. at present, great train loads of gravel from "the Glen" passing here several times a day. They are now near Hanover and it is expected a service will be instituted here before completion to Walkerton, which point is looking for service about September next.—Durham Review.

A boy who calls his mother the "old woman," or his father "the governor," is building upon the sand. Do you want to be a power among men, to be a leader? Learn to control your temper, to master yourself. A boy who does not control his tongue and his temper will never become a master of men. Do not imitate the vices of fast young men, thinking it will make you manly.

Early on Friday morning last, Mr. and Mrs. Thos. Condy were surprised to see a splendid big moose walking leisurely along at the edge of the clearing at the rear of the lot on which their house is located. It took things quite cooly and had it been the hunting season the big fellow would have been an easy mark. Mr. Condy says it was the biggest moose he ever saw in his life.—Burks Falls Arrow.

Twenty women in Chatham have been discovered smuggling from Detroit.

The remains of Wm. Wisdom of Mono who was drowned in the flood on Thursday, May 28th, were found on Tuesday June 2nd near where the body of his wife was got. The dead man's skull was fractured. The affair is a sad one as a family of seven small children is left and one of them is a cripple and deaf.

There was a very narrow escape from poisoning at Palmerston last week as the result of which Mr. D. Stone and his young daughter had a narrow escape from losing their lives. The poisoning was the result of eating canned goods at dinner hour, and during the afternoon Mrs. Stone, who had gone over to a neighbor's, returned to find her husband and daughter lying stiff on the floor. She was horrified by the sight, but at once summoned medical aid, a neighbor having to drive 7 miles. When the doctor arrived it was with great difficulty that he was able to bring them around.
