Death of A. Molitor

Mr. and Mrs. W. J. Caswell received the sad news of the death of their son-in-law, Mr. Ambrose Molitor of Earlton on Tuesday, April 24th. He was a son of Mr John and the late Mrs Molitor and was in his 32nd year. He is survived by his wife, formerly Miss Ruby Caswell, one little daughter, his father and one sister. The funeral was held on Sunday at Thedford, Ont. Those of the family who attended the funeral were Mr. and Mrs. Caswell and Mildred of Flesherton, Mrs. Margaret Wiltse of St. Thomas, Mr. and Mrs. L. G. Wells of Dresden, Mr. and Mrs. Vernon Snyder of Waterloo and Miss Elsie Caswell of Toronto.

ROD AND GUN

Another interesting article on the practical planting of trout fry by John Gall of Toronto, is one of the features of the May issue of the Rod and Gun and Canadian Silver Fox News which is just published. Besides this there is the usual full complement of fishing and hunting articles and stories by popular authors of the magazine and in the regular departments on angling, guns and ammunition, outdoor talk and kennel.

Bonnycastle Dale, well-known outdoor writer, contributed an interesting article on where to fish in the Maritimes this year. The approach of the fishing season also occasions the appearance of much interesting material in G. P. Sladen's department. The conservation campaign of the magazine is supplemented this month by a worthy article on fish and game conditions in Alberta by C. A. Hayden of Calgary. The Canadian Silver Fox News section also contains several practical articles.

Rod and Gun and Canadian Silver Fox News is published monthly by W. J. Taylor Limited, Woodstock, Ontario.

BABY'S FOOD

We believe that every mother wishes to do what is best for her child. A great responsibility rests upon each mother. Upon the mothers of this country depend the health of the citizens of the next Canadian generation.

The infant is absolutely depentent upon his mother. Beyond his ability to express pain and hunger by crying, he is a very helpless creature. It is this extreme helpfullness that is, in many ways, so appealing, while, at the same time, it makes great demands upon the mother.

Much of the sickness and many of the deaths which occur amongst infants are due to the fact that the mothers, instead of breast feeding their babies, put them on articifial feedings. There is no artificial feeding that can be compared to the natural food. The baby who is deprived of the natural food looses something that cannot be replaced, and has not an equal chance to grow strong and well, as compared with his naturally fed brother.

Why are babies artificilly fed? A few are so unfortunate as to loose their mothers; a few mothers, on account of illness, are unable to nurse. In the vast majority of cases it is because the mother does not know that she is doing a wrong thing when she weans her baby She may think that she cannot nurse the baby; that the baby is not doing well and so the mother's milk is insufficient or of poor quality; that some artificial feeding is better; that some well- meaning, but ignorant neighbor is an authority on children, and the neighbor has advised weaning

There are very few women who cannot nurse their babies, but, in many cases, they need instructions in how to do it. In fairness to herself and the baby, no mother should wean her baby except on the advice of the family physician.

Questions concerning health, addressed to the Canadian Medical Association, 184 College street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

Address to Eugenia Couple

Quite a number of Eugenia and Eighth line people gathered at the home of Mr. and Mrs. Thos. Genoe on Friday evening last, April 20 and spent a very pleasant evening. The following was the address read:

Dear Mr. and Mrs. Genoe.—

On hearing of your intended departure from our village, in the near future, we, your friends and neighbors felt that we wanted to spend an evening with you, e'er the ties of friendship are severed, for a time at least. We hope that you may find life in the new home very pleasant and that you may have many more years together, in which to enjoy greater freedom and relaxation from hard work.

We also wish to take this opportunity of presenting you with a purse a token of our esteem, and if, in the future you decide to return and again make your home here, we will be glad to welcome you back. Signed on behalf of those friends and neighbors. Mrs. E. Proctor, Mrs. A. Hoy and Georgina Smith.

BE CAREFUL OF YOUR SEED

The attention of the Grey County Branch, Department of Agriculture, Markdale has been brought to the receipt of a large amount of No. 2 C. W. Oats. They are strictly seed oats, and as such are really not sufficiently clear to be used as seed. A considerable number of weed seeds have not been cleaned out therefore may cause considerable trouble if sown.

The weeds found in such oats are usually as follows—There may be additional weeds or not quite as many—Wild oats, Ball and Wild mustard, Wild buckwheat, Lambs Quarters, Sow Thistle, Pig Weed, Canada Thistle, Bladder Campion, Bindweed, Ragweed, etc.

Should you contemplate the sowing of seed you have purchased, why not send a sample to the Seed Branch 86 Collier Street, Toronto or to T. Stewart Cooper, Department of Agriculture, Markdale. The impurities will be named free of cost. Both of these institutions are at your service.

Be sure you sow clean seed of the best varieties.

A young man in town says there are 194 shades of silk hose on the market, which suggests that he ought to get down to business and quit this loafing, on the street corner.
