TORONTO MARKETS.

September 22,

The receipts of Fall Wheat yesterday looked up to between 2,500 and 3,000 bushels, the decline in prices having evidently checked the receipts. The rates paid yesterday were, for common to fair, $1 15 a $1 18, and for prime $1 19 a $1 23 per bushel. Spring Wheat was in good request at 95c a $1 for ordinary samples, and $1 03 for the best 'golden drop.' Barley continues to offer freely, and the receipts yesterday amounted to upwards of 6,000 bushels, the range of prices extending from 67d a 70c per bushel, the average price for the day being 69c per bushel. Peas are wanted, but not so firm in price, 57c a 60c being the rates paid. Oats are offering more freely at 27c a 30c per bushel. Rye was sold to small extent at 66c. Apples plentiful at $1 a $1 50 per barrel. Other things are unchanged.

REMARKS.

From the middle of August to the end of the present month, our markets are generally very dull and languid, and this year forms no exception.

There is, however, a fair enquiry for ordinary timber of 50 feet average, and a better feeling in Staves, both standard and puncheon, owing to the rise in freight on the Lakes, but we do not advance our quotations.

Tonnage still continues scarce, and tho' freights are somewhat lower for grain and flour, in consequence of fine weather in England; a vessel was taken up for Liverpool at 34s a few days ago, but for other ports there have been no charters of late.

'He remembered the Forgotten' was beautifully said of Howard the Philanthropist. It also applies to every man who brings the ameliorations, comforts and enjoyment of life within the reach of persons and classes who are deprived of their advantages. Especially may it be said of him who laboriously seeks and finds new means of preserving health, 'the poor man's capital and the rich man's power.' We think this eulogium properly applied to J. C. Ayer of Lowell, the renowned chemist of New England, who, spurning the trodden paths to fame, devotes his entire abilities and acquirements to the discovery of Nature's most effectual remedies for disease.—When the hidden blessing has been revealed, he proceeds to supply it to all mankind alike through our druggists, at such low prices that poor and rich may alike enjoy its benefits.—[Journal & Enquirer, Portland, Maine.

FOR

ALBERTINE COAL OIL!

THIS OIL has been a great favorite in Montreal since Coal Oil became the vogue, but on account of its very high price has not been thoroughly introduced here.

It is made from the Albertine Coal of Newfoundland, and is entirely free from the adulterations indigenous to Earth Oils as Naptha, Petroleum, &c. It will burn longer and give a more brilliant light than any other Oil, and is at least twenty-five per cent cheaper. Warranted free from offensive smell and smoke.

Give it a trial, and if not found as represented, your money will be cheerfully returned. A liberal discount made to wholesale dealers by the barrel. For sale at the Medical Hall.

The New American Watch.

IN ORDER TO MEET THE REQUIREMENTS OF GENTLEMEN who prefer a thinner watch than those usually made by us, we have lately issued a new style of watch on the three-quarter plate model, especially designed for this purpose.

In establishing this new series, it has also been our design to produce a watch in every way superior to the best and highest priced products of the most reputable of English and Swiss manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, accurate compensation and adjustment, of mathematically just proportions, and of practical results our new three-quarter plate watch challenges competition with any in the world.
