NEW STRENGTH FOR ALL WEAK GIRLS

Comes From the Rich, Red Blood Made by Dr. Williams' Pink Pills.

There must be no guesswork in the treatment of pale, anaemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anaemia—the medical name for poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from a fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, Shelburne, Ont., praises this medicine for restoring her daughter's health. She says:—"When my daughter was nine years old she was so weak and thin that we feared we would lose her. She was very nervous, and going to school seemed too much for her. Often she would have to stay at home for days at a time. At times she would have a very high fever, and the doctor's treatment did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. It was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong, healthy girl. Since then, if a tonic has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine o., Brockville, Ont.

Canada's Share?

She Has 20 Per Cent. of Available Radio Waves

A situation which it is believed the Radio Commission will have to take up at an early date is further ocnsideration of Canada's request for more wave lengths. This may result in quite a difference of opinion inasmuch as it is contended in certain quarters that Canada already has more than her share of the wave lengths based either upon a basis of population or the number of receiving sets in use in either country.

The figures show that at the present time there are eighty-nine waves available in the United States and seventy-seven are exclusive in the United States and six in Canada. Also there are twelve waves shared in both countries. Taking the population of the United States at 120,000,000 as 100 per cent., Canada has only 8 per cent., or 10,000,000 population. The estimate is made also that in this country there are 7,000,000 receiving sets, and, taking that at 100 per cent., Canada has only 4 per cent., or 50,000. On the other hand, taking the United States at 100 per cent., Canada has 20 per cent. of the wave lengths.

Mother: It is whispered that you and John aren't getting on. Daughter: Nonsense! We did have some words, and I shot him, but that's as far as our quarrel ever went.

The flour and grist milling industry erty in Canada is placed at $7,456,907,285 according to a recently issued official compilation. Other taxable valuations are valued at $258,297,533, while the value of property exempt from taxation is $1,301,289,196.

Badminton players find a drink of hot tea of great benefit after a strenuous game. In leading Badminton clubs of Canada, Red Rose Tea is a great favorite. No other tea offers such brisk, zestful flavor and rich quality. Put up only in bright, clean aluminum packages. 14EW

OWL LAFFS

BY O.W.L. (ON WITH LAUGHTER)

The new student at the agricultural school was a chap of rather more mature years than usual in beginners, so he was being subjected to a somewhat rigorous oral examination in order that the faculty might get a line as to his most effective classification.

"What do you know about nitrates," he was asked.

"Now you are asking me something!" he answered proudly. "I used to work for the Western Union, and I know they are less than day rates on everything but 10-word messages."

Gladys—You say he doesn't know how to kiss?

Florence—I said he didn't know how to kiss.

Most men are so busy making a living they have no time to live.

"What was George Washington noted for?"

"His memory."

"What makes you think his memory was so great?"

"They erected a monument to it."

If somebody else does your thinking you're probably doing somebody else's working.

There is always a time in every man's life when he is happy and doesn't know it.

A visitor who came into a business man's office gasped: "My goodness, this place is a regular oven!"

"It ought to be," grunted the other, "it's where I make my daily bread."

"You can't do wrong and get away from your conscience with it.

A pacifist gentleman stopped to try to settle a juvenile row.

"My boy," he said to one of the combatants, "do you know what the Good Book says about fighting?"

"Aw!" sneered the youth, "fightin' ain't one of them things you kin get out of a book, mister."

He: "I'd like to propose a little toast."

She: "Nothin' doing, kid; I want a regular meal."

Hogs are produced on three-fourths of the farms of the United States and in all of the cities.

Moralized the moralizer—"Ah, well, somewhere behind the clouds the sun is shining."

Demoralized the demoralizer—"Maybe; and under the sea is land, but that doesn't help a guy when he falls overboard."

"Full many a flower is born to blush unseen" was written before the day of the wild flower vandal.

Can anyone explain why children take such keen delight in picking up and using such expressions as "ain't" and "I don't"?

"I remember away back when it was good style to cool your coffee or tea by pouring it out into a saucer."

"Shucks! that's nothing. We can remember when they cooled it by blowing it after it had been poured into the saucer.

You miss the advertising target as often as you hit—but keep on, because measured in profit the successes outweigh the failures.

The rarest business is minding your own.

Old Sandy McTavish was compelled at last to consult the local doctor about his eyes. The doctor said, "Sandy, my man, if you don't give up whiskey at once and for good you will certainly lose your eyesight." "A, wheel," replied Sandy with an air of resignation, "I think I've lived lang enough in the world tae see a' that's worth seeing."

Farmers in British Columbia report an exceptionally good lambing season this year. One of the largest sheep breeders in the province, who has 5,200 head of sheep, had a 135 per cent. lamb crop.

Boy World Explorer

That bright-eyed goddess Adventure of whom everyone from the youngest to the oldest has dreamed has beckoned to Russell Dickson, a Winnipeg boy, and will lead him on an adventurous path around the world. He has been chosen by Lowell Thomas, world-famed explorer and lecturer to go with him as secretary of his next expedition into the jungles of Africa, to the south Sea Islands and into practically every corner of the globe.

Dixon, who is 20 years of age has been employed for the past three years in the offices of the Canadian Pacific Railway at Winnipeg. When Lowell Thomas was lecturing in the City and made a statement to the press that he was looking for a Canadian boy to go with him in December, Russell got busy and landed the job, that will mean a year or so of rare adventure. First class shorthand knowledge, and an aptitude for photography and mechanics were some of the most important requirements for the position. Satisfying Thomas along these lines, an agreement was reached.

MANY MOTHERS RECOMMEND THEM

Baby's Own Tablets Are Fine for Nervous, Sleepless Children.

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers, and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house, for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Last Words

Our tongues kept threshing out the the old affair
And words were winnowed like a mound of chaff.
You said: "Don't be absurd and think I care—
Let's write ourselves a cheerful epitaph!"
And I pretended that your studied air
Of nonchalance, your trumped-up hollow laugh,
Had somehow made the truth less hard to bear:
Well, there were others who had stood the gaff.

Women have played the comforter so long,
Taking our childish troubles in to mend
So readily, that we would seem to wrong
Kindness by not dissembling to the end.
Therefore, I simply kissed your hands and strove.
To hide that greater weakness known as love.

—Paul Rayson.

Camouflage Your Hems

A simple suggestion for camouflaging hems in a wool dress is given by the practical magazine, "Successful Farming." "In putting a hem in a wool dress," it reads, "There is usually an unnecessary amount of material which causes the hem line to look bulky. This is not at all desirable. I have avoided this by folding the material once to form the hem and machine stitching a piece of mercerized ribbon or tape about one-half inch in width along the raw edge of the hem. The hem should then be pressed flat so it will remain in place and the upper edge of the ribbon or tape either catch stitched or snail stitched to the dress. This insures a smooth hem line which is practically invisible."

SECRETS

Professor: "What did you learn about the salivary glands?"

Girl: "I couldn't find out a thing, Professor. They're so dar secretive."

Minard's Liniment for Toothache.

Beam Wireless Sale Is Opposed

British Post Office Union Objects to Losing the Control to Foreigners

Weston-Super-Mare—A conference of the Post Office Workers' Union has unanimously adopted a resolution protesting against the secret negotiations for the sale or transfer of the control of the government-owned beam wireless service to foreign or other private financial interests.

J. W. Owen, general secretary, said that as a result of the success of the beam wireless foreign financial and other interests had been at work and were ready to take over this very profitable undertaking. Not long ago they found the Marconi and other companies had a merger contingent on a satisfactory agreement being reached with the British Government and Dominions. They gravely apprehended the prospect of the Government either handing over the control or selling the beam system to American or other cable systems. The Imperial Wireless and Cable Conference, sitting in London since January 16, had given no hints yet as to its findings.

A. E. Millett, the seconder of the resolution, said that the postal workers were helpless to prevent the transfer and urged a definite demand that the "Labor Party in the House of Commons should solemnly declare that if this scandalous transfer was effected they would in the event of being returned to power not only resume control of the beam system, but would also expropriate at their own valuation every form of external communication from Great Britain."

Very Strange.

Loaf of Bread—"Funny, ain't it—the baker who baked us works hard all the time and yet you might say he's a loafer!"

Speculation

New York Times: (Heavy speculation for the rise is going on simultaneously on the Stock Exchanges of London, New York and Paris. Financial critics are warning the public to be cautious.) The spectacle on all three markets of opposition to the scope of the movement from conservative banking quarters, and complete indifference by the Stock Exchange's customers to such opposition, suggests at least food for thought. There is always an arguable possibility that the public at large may at such times have grasped certain elements of intransic value which experienced financiers had missed. Yet the deduction is also warranted, at any rate by previous episodes of the kind, that prolonged and excited speculation which breaks loose from the ordinary restraint carries a contagion such as is bound in the long run to drive it beyond the bounds of reason.

Cute in a Baby—Awful at Three—and it's Dangerous

by Ruth Brittain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Pinning the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, which prevent bending the arms at the elbows, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constiuation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Physicians have prescribed it for over 30 years. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine.

Hints to Groom by London Vicar

A Few Don'ts That May Not Be Amiss Any Place

London.—The vicar of St. Philip's church is not altogether satisfied with the deportment and responses of bridegrooms in his Battersea diocese. In his magazine he gives the following tips to the prospective bridegrooms:

"Don't rush at the blushing bride when she joins you at the chancel steps and shake hands with her. One bridegroom did this at a recent wedding and exclaimed ''Ow are yer, mate.'

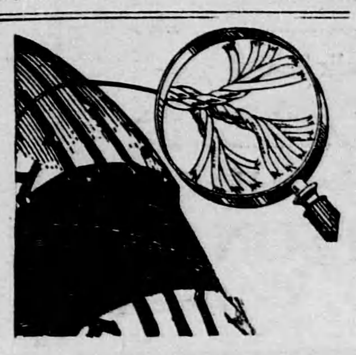
"When the priest tells you to say after him 'God's holy ordinance' don't say 'God's holy audience.' Some of the audiences we have seen at recent weddings here could never by any stretch of imagination be called holy.

"It is always best to refrain from drinking anything stronger than tea before the ceremony. The smell of alcohol is rather obectionable and especially in church.

"When the clergyman asks you to say 'Troth' please don't say 'trough.' The former means faith, fidelity, truth; the latter anything hollowed out and open longitudinally on the upper side."

Minard's Liniment for insect bites.

When a man begins to pity himself, he loses the sympathy of the whole world.



Why **Firestone** Tires Give Most Miles Per Dollar

The greatest enemy to tire life is *not* the harsh grind of city streets or rough roads, but *heat* which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber, causing blowouts and tire failures.

The above illustration shows a single cord of a Firestone tire greatly magnified and untwisted into fifteen smaller cords composed of many little fibres.

By means of the exclusive Firestone Gum-Dipping process, every fibre is insulated with rubber, which prevents internal heat and friction.

Your local Firestone Dealer gives you the better service that goes with these better tires. See him today.

FRENCH IN THE WEST

Winnipeg Liberte (Ind.): In Manitoba, except in a few rare spots, children go to the Government primary schools. In these the French language is not officially admitter, neither as subject matter for study nor as an instructional language. According to official programs and departmental ordinances the Manitoba child is supposed, from the moment he enters the primary school and as long as he stays there, to hear nothing but English, and from the time he starts to read and write, to read and write nothing but English. The mother tongue, unless it happens to be English, is totally ignored by the Manitoba educational authorities.

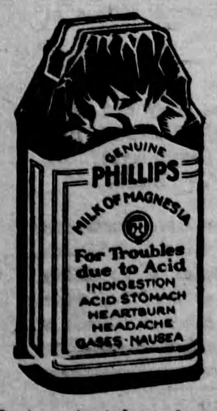
MINARD'S "KING OF PAIN" LINIMENT

"A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound during the Change of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as come at this time."—MRS. W. V. RUSSELL, R. R. No. 5, Fenwick, Ontario.



Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, the pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain departs. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Look to the Blood for Beauty's Secret

THE *source* of skin beauty is in the blood. To acquire "The Skin That Charms" you must correct whatever faults of impurity or deficiency exist in the blood.

A doctor, prescribing for his patients, first proved the great value of "TRU-BLOOD" in improving the skin's texture and smoothness; in giving it healthful clearness and color.

TRU-BLOOD promptly corrects faulty conditions in the blood, then works its magic on the skin and complexion.

Used in conjunction with TRU-BLOOD, Buckley's OINTMENT works further wonders in clearing the skin of blemishes. Rashes, blackheads, pimples, blotches and roughness are quickly banished.

Your druggist can supply you with these proven "Buckley's" products.

TRU-BLOOD *Tones the Blood Clears the Skin*
