Several cases were adjourned.

On Saturday evening another mysterious fire occurred on the 3rd line of Euphrasia when the barn of Albert Dawn was burned, with the season's contents of grain, hay, implements, etc. How the fire originated is a mystery, but it is supposed to be of incendiary origin, as within the past month three barns have been destroyed by fire, viz., Peter Ferry's, Fred Kellough's, and now Mr. Dawn's. A searching investigation should be made to endeavor to discover the scoundrel who is at this dastardly work.—Thornbury Herald-Reflector.

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgement. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Rhmedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by W. E. Richardson.
