ASSURANCES PAYABLE DURING LIFE.

TABLES have been constructed for the use of persons who may be desirous of effecting a Life Assurance for the benefit of their families, in the event of premature death, for the largest possible amount which their present means will afford; and at the same time secure the advantage of having the sum assured made payable to themselves, in the event of a prolonged life.—The Tables show the Annual Premium required for an assurance of £100 or more, payable to the Assurer himself upon his attaining the age of Fifty, Fifty-Five, Sixty, or Sixty-five, or to his representatives at his death, if that event should happen previously.

Every description of Life Assurance transacted.

Detailed Prospectuses, and every requisite information as to the mode of effecting assurance, may be obtained on application to

THOMAS BRIGGS,
Agent.

FIRE DEPARTMENT.

The Company commenced business in October, 1861, as a Fire Office, and was called into existence to modify the excessive rates demanded by the combined Offices after the Great Fire in Tooley Street, London. The success which has attended the Company's operations has been such as fully to realize the most sanguine expectations of the Directors, and has induced them to extend their operations to Canada, where the General Agents are prepared to take proposals for Insurance against Loss by Fire of Property of every description.

LIFE DEPARTMENT.

The marked preference shown for an Office which studies the interests of the Public as well as of its Proprietary, induced the Directors to transact Life Business with the intention not to favor one class of Policy-holders at the expense of another; but, resolved that the same liberal views which have gained for the Office the confidence of the Public in its Fire Branch, shall guide them in the management of the Life Department, they extend to the Assured every benefit which science warrants or experience suggests.

Among the benefits of this Company may be enumerated—Moderate Rates o Premium—Eighty per cent of the Profits divided among the Assured—Very liberal surrender value given after three years—Thirty days allowed for payment of Premiums, and further extension of time on easy terms—Unchallengeable Policies—Credit System—Service permitted in Volunteer Corps—Convenient and liberal terms, whereby no Policy need lapse, through any temporary difficulty, in the payment of a Premium.

Further and fuller information may be obtained by calling at the Office, Nos. 224 and 223 St. Paul Street

HARPER'S
NEW MONTHLY MAGAZINE,
Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore.)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good wood cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

FLAX, HEMP, JUTE AND RHEEA FIBRE.
Prepared without Scoutching
BY
J. Hill Dickson's Patent Portable Machine
To be worked by
HAND, WATER, OR STEAM POWER.
117 Gt. Dover Road Boro, London.

THE advantages and economy gained in converting GREEN FLAX STRAW by Machinery, into Stronger and Finer fibre for being spun, on Cotton, Silk, Worsted, or Flax Spinning Machinery, than if retted by steeping in either Cold or Hot Water (which process frequently by over decomposition produces as much Tow, as long Fibre) arises from the following facts, respecting a system that avoids Tow and Waste.

1st.—The seed bolls or husks can be taken off in the field as the flax is pulled, by turning the side-projecting rollers that are upon the ends to permit of only about six inches of the top or seed ends, to pass down between them to break the seed bolls without crushing or injury to the seed, or taking off any portion of the fibre.

2nd.—The wood inside the fibre is so crushed and ground into dust when laid on the grate-like moving table, which admits of such stuff falling through, that whether the Flax Straw, Retted in the usual way, the woody and dusty substance is entirely got rid of without scutching, and the reeds or (as it is called) hard of the fibres are so preserved from being broken into tow, that they appear like as many narrow ribbons. Flax spinners are certain to appreciate this great improvement in preparing, as no Tow or Waste can be seen, and as a consequence there is a gain of fully one-third more fibre from a given weight of flax straw than by any other invention or system known, see report of Messrs. Marshall & Co. of Partington & Leeds, taken from the Belfast Flax Society reports and copied at page 214 in the work of Dixon on the Fibre, Plants of India Flax, Hemp, &c., &c.

3rd.—The Flax and Hemp being when free from the wood, covered over with a natural Green Gum, is made perfectly soft and two-thirds White, by a simple run of Hot Water, as the fibre passes through in a few minutes, the washing part of the invention, and then wrung dry at the end, by this means the fibres are stronger and better adapted for the Flax Spinners than any retted flax, and the yarns from it will be nearly white without alkalies or acids to injure the strength, and ready for weaving without boiling.

4th.—If very fine quality be required for Cotton, Silk or Worsted spinning purposes, the cottonizing part of the Machine must be worked and the softening liquid applied and by such means flax equal to the best Courtrai, Flax at £100 £150 per ton can be produced, and practical instructions will be given to parties purchasing the machine by the Inventor and Patentee.

IN
SHARES OF FIVE DOLLARS EACH.

THIS Company has been formed for the purpose of working a valuable

Lead Mine

discovered in the Third Concession of the Township of Marmora. Excellent water power on the Lot, (one hundred and twenty-five acres), sufficient to work a crushing mill and to do any pumping required, with an unlimited supply of wood in the immediate neighborhood, give this Company advantages possessed by few Mining Companies in the Province, while the great and increasing demand for Lead ensures the Company large profits on its outlay.

The Company will take out Lead Ore during the Winter and in the Spring, and will erect a Crushing Mill and Furnace, for the purpose of supplying the Province with Pig Lead.

Specimens of the Ore may be seen for a short time at the Office of Thomas Wilson, Esq., opposite the Post Office, Kingston, where Shares may be taken by those wishing to participate in the rich returns confidently anticipated by the Company.

In consequence of the great stagnation of trade in the Manufacturing districts of France and England, a large quantity of valuable Jewelry, originally intended for the European market, has been sent off for sale in this country, and MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, HAMILTON & CO., acting as Agents for the principal European Manufacturers, have resolved upon a

GREAT GIFT DISTRIBUTION!

Subject to the following regulations:

Certificates of the various articles are first put into envelopes, sealed up, and mixed; and when ordered, are taken out without regard to choice, and sent by mail, thus, giving all a fair chance. On receipt of the certificate, you will see what you are to have, and then it is your option to send the dollar and get the article or not. Purchasers may thus obtain a Piano, Melodeon, Sewing Machine, Gold watch, Diamond ring, or any set of Jewelry on our list for ONE DOLLAR.

Send 25 Cents for Certificate.

In all transactions by mail, we shall charge for forwarding the certificates, paying postage and doing the business 25 cents each, which must be enclosed when the certificate is sent for. Five certificates will be sent $1, eleven for $2, thirty for $5, sixty-five for $10, and 100 for $15.

AGENTS.—We want agents in every town and county in the country, and those acting as such will be allowed 10 cts on every certificate ordered by them, provided their remittance amounts to $1. Agents will collect 25 cts for every certificate, and remit 15 cents to us, either in cash or postage stamps. Agents remitting at once, $30 will be entitled to a beautiful silver Watch, and also 200 certificates.

Please write your Name, Town, County, and State plainly, and address all orders to
