The Flesherton Advance

W. J. Bryan's feelings must be akin to those of a young man who went uninvited to a social gathering He was put out but went in again. Twice more was he put out and at last he said; "Well, you can't fool me. You don't want me in there."

The Canadian Manufacturers Association has pursued a strong policy of opposition towards the extension of the British woollen trade in Canada. As a result of this it has enjoyed the unbounded hostility of the English press as a whole, as well as that of several Canadian papers. Hence when Industrial Canada, the official organ of the Association, welcomes the Sheffield choir to Canadian shores, The Montreal Witness, one of those rare Canadian papers which delights to fight the Association at every opportunity, says in part, "Why object to importations of British woollens while importing British music duty free." The British singers are not in Canada for keeps, but simply making a tour. Even if it did remain in Canada, as the imported woollen goods would, the choir would not kill any Canadian Industries, or put Canadian workmen out of situations. Rather, it would cultivate the appreciation of high class choral music in Canada, and pave the way for the development of Canadian talent. The influence of the British woollens on the Canadian mills is very damaging and the competition too much for a struggling industry. Industrial Canada is deserving of praise and support in its efforts to protect and foster a declining industry, rather than the unbridled attacks of any Canadian journal.

Colds and Croup in Children.

"My little girl is subject to colds," says Mrs. Wm. H. Serig, No. 41, Fifth St., Wheeling, W. Va. "Last winter she had a severe spell and a terrible cough, but I cured her with Chamberlain's Cough Remedy without the aid of a doctor, and my little boy has been prevented many times from having the croup by the timely use of this syrup. As soon as he shows any signs of croup I give him Chamberlain's Cough Remedy for three or four days, which prevents the attack." This Remedy is for sale by W. E. Richardson.

Take The Hint And Act Now.

A new series of short stories is about to commence in The Family Herald and Weekly Star of Montreal that are said to be the best ever offered to newspaper readers. A complete story will appear each week. The series alone is worth more than the whole year's subscription price, one dollar, and when one thinks of all the other good things that appear in that great weekly he can readily understand why the publishers so earnestly urge present subscribers to renew early and give them a chance to enter the thousands of new applications in December and January. It is safe to say that no person remitting a dollar for the Family Herald and Weekly Star for 1909 will regret it. Any farmer, particularly, who is not a regular reader is missing something he cannot afford to.

At an early hour on Saturday morning Mr. Jas. Genoe lost his barn and all the contents by fire. There is no window in the house, facing the barn, and so the fire was not noticed until it had got beyond all control. The building contained all the season's grain and feed as well as most of his implements and a new buggy and cutter Mr. Genoe does not know his exact loss, but it will not nearly be covered by the Insurance, amounting to $1000. The distance is 109 miles, and the vigorous old man reached his destination just in time to cast his vote.

On Hallowe'en night the exhibition buildings of the Great Northern Fair, Collingwood, were destroyed by fire. The work was evidently that of an incendiary. About two weeks ago the sheds were destroyed and from appearances the perpetrators intended a clean sweep of the buildings. A reward of $250 will be given to any person who can lay any information leading to the conviction of the guilty parties.

The widow of the late conductor Chas. Clarke, has entered an action for $10,000 damages against the C. P. R. for the death of her husband, who was killed while coupling a C. P. R. marl train at Hanover recently. The accident is alleged to have been brought about by the foot of the unfortunate man catching in a frog, which the widow claims should have been protected by a board.—Bruce Times.
