## Insurance Company
OF
Liverpool and London.

CAPITAL--Two Millions Sterling
AND LARGE RESERVE FUNDS.

*FIRE DEPARTMENT.*

THIS COMPANY continues to INSURE Buildings and all other descriptions of Property against LOSS or DAMAGE by FIRE, on the MOST FAVORABLE TERMS, and at the LOWEST RATES charged by any good English Company.

All just losses promptly settled, without deduction or discount, and without reference to England.

The large Capital and judicious management of this Company insures the most perfect safety to the assured.

No charge for Policies or Transfers.

*LIFE DEPARTMENT.*

The following advantages, amongst numerous others, are offered by this Company to parties intending to assure their lives:—

Perfect security for the fulfilment of its engagements to Policy-holders.

Favorable Rates of Premium.

A high reputation for prudence and judgment and the most liberal consideration of all questions connected with the interests of the assured.

Thirty days' grace allowed for payment of renewal premiums, and no forfeiture of Policy from unintentional mistake.

Policies lapsed by non-payment of premiums may be renewed within three months, by paying the premium, with a fine of ten shillings per cent. on the production of satisfactory evidence of the good state of health of the life insured.

Participation of Profits by the assured amounting to two-thirds of its net amount.

Large Bonus declared 1855, amounting to £2 per cent. per annum on the sum assured, being on ages from twenty to forty 80 per cent. on the premium. Next division of profits in 1865.

Stamps and Policies not charged for.

All Medical Fees paid by the Company.

Medical Referee—O. S. Strange, M.D.

MAXWELL W. STRANGE,
Agent.

Kingston, Jan. 5th, 1865. 1y4

Kingston, 10th April, 1865. 8

## BRITANNIA
LIFE ASSURANCE COMPANY

Capital—£1,000,000 Sterling.

No 1 Prince's Street, Bank, LONDON.

Empowered by Special Act of Parliament, 4th Vict. Cap. 9.

ASSURANCES PAYABLE DURING LIFE.

TABLES have been constructed for the use of persons who may be desirous of effecting a Life Assurance for the benefit of their families, in the event of premature death, for the largest possible amount which their present means will afford; and at the same time secure the advantage of having the sum assured made payable to themselves, in the event of a prolonged life.—The Tables show the Annual Premium required for an assurance of £100 or more, payable to the Assurer himself upon his attaining the age of Fifty, Fifty-Five, Sixty, or Sixty-five, or to his representatives at his death, if that event should happen previously.

Every description of Life Assurance transacted.

Detailed Prospectuses, and every requisite information as to the mode of effecting assurance, may be obtained on application to

THOMAS BRIGGS,
Agent.

Kingston, March, 1865.

## ACCIDENTS
## To Life or Limb

In the Field, the Streets, or at Home, can be provided for by a Policy in the

NEW YORK ACCIDENTAL INSURANCE COMPANY.

$5000 in case of Death, and $25 a week while laid up by injury secured by an Annual Payment of from $25 to $30.

$5000 in case of Death, without weekly compensation, for from $15 to $18 per Annum.

Smaller and Larger Sums in Proportion.

Policies written from $500 to $10,000 on one Life.—and from 1 month to 5 years.

INDUCEMENTS.

The Rates of Premium are very low.

The plan is so simple that any one can comprehend all its workings.

No Medical Examination is required, and those who have been rejected by Life Companies, in consequence of hereditary or other diseases, can effect insurance in this Company at a very small cost.

No better or more satisfactory use can be made of so small a sum.

Canada Agency:—104 St. Francois Xavier Street, Montreal

"Unquestionably the best sustained Work of the kind in the World."

## HARPER'S
NEW MONTHLY MAGAZINE,

*Critical Notices of the Press.*

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant (Baltimore.)*

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high toned and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading such as can not be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

FLAX, HEMP, JUTE AND RHEA FIBRE.

Prepared without Scutching

BY

J. Hill Dickson's Patent Portable Machine

To be worked by
HAND, WATER, OR STEAM POWER.

117 Gt. Dover Road Boro, London.

THE advantages and economy gained in converting GREEN FLAX STRAW by Machinery, into Stronger and Finer fibre for being spun, on Cotton, Silk, Worsted, or Flax Spinning Machinery, than is retted by stepping in either Cold or Hot Water (which process frequently by over decomposition produces as much Tow, as long Fibre) arises from the following facts, respecting a system that avoids Tow and Waste.

1st.—The seed bolls or husks can be taken off in the field as the flax is pulled, by turning the side-projecting rollers that are upon the ends to permit of only about six inches of the top or seed ends, to pass down between them to break the seed bolls without crushing or injury to the seed, or taking off any portion of the fibre.

2nd.—The wood inside the fibre is so crushed and ground into dust when fed on the grate-like moving table, which admits of such stuff falling through, that whether the Flax Straw, retted, in the usual way, the woody and dusty substance is entirely got rid of without scutching, and the reeds or jaw is called hard of the fibres are so preserved from being broken into tow, that they appear like as many narrow ribbons. Flax spinners are certain to appreciate this great improvement in preparing, as no Tow or Waste can be seen, and as a consequence there is a gain of fully one-third more fibre from a given weight of flax straw than by any other invention or system known, see report of Messrs. Marshall & Co. of Partington & Leeds, taken from the Belfast Flax Society reports and copied at page 214 in the work of Dixon on the Fibre, Plants of India Flax, Hemp, &c., &c.

3rd.—The Flax and Hemp being when free from the wood, covered over with a natural green gum, is made perfectly soft and two-thirds White, by a simple run of Hot Water, as the fibre passes through in a few minutes, the washing part of the invention, and then winding dry at the end, by this means the fibres are stronger and better adapted for the Flax Spinners than any retted flax, and the yarns from it will be nearly white without alkalies or acids to injure the strength, and ready for weaving without boiling.

4th.—If very fine quality be required for Cotton Silk or Worsted spinning purposes, the cottonizing part of the Machine must be worked and the softening liquid applied and by such means flax equal to the best Courtrai Flax at £100 to £120 per ton can be produced, and practical instructions will be given to parties purchasing the machine by the Inventor and Patentee.

## Mining Company.
CAPITAL $100,000.
IN
SHARES OF FIVE DOLLARS EACH.

THIS Company has been formed for the purpose of working a valuable

## Lead Mine

discovered in the Third Concession of the Township of Marmora. Excellent water power on the Lot, (one hundred and twenty-five acres), sufficient to work a crushing mill and to do any pumping required, with an unlimited supply of wood in the immediate neighborhood, give this Company advantages possessed by few Mining Companies in the Province, while the great and increasing demand for Lead ensures the Company large profits on its outlay.

The Company will take out Lead Ore during the Winter and in the Spring, and will erect a Crushing Mill and Furnace, for the purpose of supplying the Province with Pig Lead.

Specimens of the Ore may be seen for a short time at the Office of Thomas Wilson, Esq., opposite the Post Office, Kingston, where Shares may be taken by those wishing to participate in the rich returns confidently anticipated by the Company.
